

Statements of Community District Needs and Community Board Budget Requests

Fiscal Year
2024

Created by the
Community Board, in
collaboration with:

February 2023

**Brooklyn
Community District
12**

Letter from DCP Director Daniel Garodnick

To my fellow New Yorkers:

Every year, each of New York City's 59 community boards advocate for the needs of its residents and stakeholders by preparing a Statement of Community District (CD) Needs and Community Board Budget Requests. Through this process, community boards share the top issues impacting their neighborhoods and propose capital and expense requests to address those identified needs. I'd like to thank the volunteer members of our community boards and the District Managers who work so hard in leading this essential process and in preparing these reports.

The annual CD Needs process is the product of months of collaboration and public input and is a valuable tool for New Yorkers to participate in neighborhood planning. At the broadest levels, CD Needs offers a critical window into the challenges faced by New Yorkers, and how those challenges may differ across neighborhoods. At a granular level, it provides a forum through which community leaders specify those needs and make recommendations for spending -- which in turn are used by City agencies, elected officials, advocacy groups, and non-profit service providers, among others, to better understand and meet the individual needs of each community board.

Through this year's submissions, we heard the stories of our communities' biggest challenges, such as the human impacts of our housing crisis. In that vein, community boards again selected affordable housing as the most pressing issue citywide, followed by crime and public safety, and parks and open space. Through our online form, community boards generated more than 3,700 budget requests, and for each, one of 28 City agencies responded to indicate whether the request could be accommodated within the upcoming annual budget. This year, in line with our commitment to increasing transparency across the CD Needs process, we are publishing agency responses to these requests in the final section of these reports.

DCP deeply values our partnership with community boards. We remain committed to supporting them by increasing participation in, and improving the transparency of, the CD Needs process. We have received valuable feedback from our community board partners, and we are excited to work with them to continue improving our online submission form, to connect boards with agencies to advance budget request proposals, and to open the form earlier in the calendar year to allow more time for public input and preparation. We look forward to advancing this work with both community boards and City agencies to ensure this is a valuable and productive way to improve our City's neighborhoods and to respond to local community needs.

Sincerely,

INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

HOW TO USE THIS REPORT

This report represents the Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2024. This report contains the formatted but otherwise unedited content provided by the community board, collected through an online form available to community boards from July to November, 2022.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

If you have questions about this report or suggestions for changes please contact:
CDNEEDS_DL@planning.nyc.gov

This report is broadly structured as follows:

1. Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

2. Policy Area-Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

3. Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY24 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

Disclaimer

This report represents the Statements of Community District Needs and Community Board Budget Requests of this Community District for Fiscal Year 2024. This report contains the formatted but otherwise unedited content provided by the community board.

Budget Requests: Listed for informational purposes only. OMB remains the definitive source on budget requests and budget request responses.

Budget Priorities: Priority numbers apply to expense and capital Budget requests from all policy areas. A complete list of expense and capital budget requests by this Board sorted by priority can be found in Section 7 of this document.

Supporting Materials: Some community boards provided substantive supplemental information. This supportive material can be accessed by clicking on the links provided in the document or by copying and pasting the links provided in the Appendix into a browser.

TABLE OF CONTENTS

Introduction

1. Community Board Information

Statement on Data Accuracy

Under Title 13 of the U.S. Code, the Census Bureau is legally bound to protect the privacy of individuals participating in the decennial census. To adhere to the law and to avoid the disclosure of information about individual respondents, the Census Bureau has historically applied a host of techniques, such as top- and bottom-coding, imputation, table- and cell-suppression, and data swapping. The Census Bureau is employing a new technique with the 2020 Census, referred to as the Disclosure Avoidance System (DAS), based on differential privacy. With this approach, the Census Bureau “infuses noise” systematically across census data and sets a quantified disclosure risk, referred to as the Privacy Loss Budget (PLB).

While the new DAS approach may diminish the risk of disclosure concerns, it comes at a cost to data accuracy. Consequently, 2020 Census data users should be aware that all sub-state counts, except for housing units (which are unaffected by the DAS), may be adjusted to protect the privacy of Census participants and may be subject to reduced accuracy. Because DAS noise infusion is randomized, it is impossible for data users to know the degree to which any individual statistic is altered. However, it is possible to say that in general the relative size of errors decreases as counts increase. Consequently, data users should have greater confidence in the accuracy of the data as counts get larger. Further, an evaluation of a Privacy-Protected Microdata File (PPMF), treated with a Disclosure Avoidance System like the one applied to 2020 redistricting data, showed that counts of 300 or more rarely have sizable errors (error beyond +/- 10% of the count). Therefore, while data users need to be cognizant of data accuracy limitations, they should have confidence in conclusions based on sizable counts, which are relatively unaffected by the Census Bureau’s latest disclosure avoidance method.

3. OVERVIEW OF COMMUNITY DISTRICT

Brooklyn Community Board 12 encompasses neighborhoods of Borough Park and parts of Kensington, Sunset Park, and Midwood. Borough Park is known for its large enclave of Hasidic Jewish residents. Kensington is home to rapidly growing Pakistani and Bangladeshi Communities. Sunset Park, specifically 8th Avenue which borders District 12 as well as District 7, is the location of Brooklyn's Chinatown. Midwood's Ocean Parkway is the site of 4.86 miles long boulevard that connects Coney Island Beach to Prospect Park.

Community Board 12 represents a diverse population with distinct and varied needs. Our differences require us to accommodate diverse and unique needs. There are several differences of note in the 2018 American Community Survey as compiled by the United States Census Bureau, the 2019 ACS data compiled by the NYU Furman Center, and the 2020 Decennial Census data.

The 2019 ACS birth rate in this district is 10.1%, which is more than twice the New York average rate of 4.7% (calculated as the percentage of women ages 15-50 who gave birth the previous year). This leads to a disproportionate number of infants, children, and youth who require childcare and other youth services. Indeed, the percentage of youth under the age of 18 is 36.8% - the largest of any community district in NYC (per NYC Planning). These children, largely educated in non-public schools, are entitled to the proper delivery of city services, such as trash collection. Our residents should not be accosted by huge amounts of garbage on the streets in front of schools.

63.3% of residents in this district use English as a second language (ESL). 57% of the residents speak an Indo-European language (The NY rate of Indo-European language as the spoken language at home is 9%, and The US rate is 3%). Notably, Yiddish, the language largely used by Hasidic residents, as well as the languages originating in the Indian subcontinent, are all Indo-European languages. This is noteworthy because of the lack of proper accommodation for these ESL speakers. While NYC is well equipped to fully accommodate ESL speakers whose primary language is Spanish, the same is not true of ESL speakers whose primary language is Yiddish. The accommodations provided appear as though google translated, with awkward wording and syntax, which is difficult to understand. This district needs services provided in a way its residents can understand.

The district is comprised of a wealth of cultural and ethnic enclaves. The US Census data (2010), combined with OpenStreetMap data, found that 22% of the population in Kensington, a neighborhood within CB12, identify as ethnically Asian; this reflects the vibrant Pakistani, Bangladeshi, and Indian communities that live in the area. The 2020 Census showed this demographic grew by 24.9% in the district. The Kensington area itself has welcomed many new families with young children.

The Chinatown of Brooklyn is located on 8th Avenue, which is the boundary between Community Board 7 and Community Board 12. This area has seen a steady evolution in its ethnic makeup to accommodate the growing cultural community within this desirous enclave; in some streets located between 8th and 9th Ave., between 75%-90% of residents identify as ethnically Asian.

Because of religious and cultural necessities unique to the diverse cultures this district encompasses, Community District 12 has become a much-desired area in which to live. All areas of our District continue to experience an influx of large families, which is contributing to the density of this District as a whole. The district suffers from traffic congestion, lack of parking, sanitation deficiencies, and infrastructure problems. The prime example is Borough Park, which continues to be the most densely populated section of the District. Religious constraints and sizable families anchor the community to this district because of the proximity to their houses of worship, availability of kosher food, and schools.

Traffic is a result of the district's density. For one, the amount of school buses needed to transport children to school is remarkable (rough estimates are about 300-350 buses a day). Understanding that traffic and parking are par for the course in dense cities, we propose a few changes that we have observed can alleviate some congestion in a fiscally viable manner. Due to the continued growth of the community, the district is constantly subjected to construction and infrastructure upgrades that further exacerbate the problem. And while permits by DOT are required for such work the stipulations, embedded to ensure traffic flow, are ignored many times. These illegal

street closures create chaos with the inevitable extra burden on traffic. An increase in DOT HIQA oversight will ensure that construction is done as painlessly as possible. This year we anticipate even more traffic than usual with the BQE construction detouring traffic through our district.

We also request some innovative ideas that should be seriously explored: some of our busiest stretches have traffic patterns that vary according to the time of day. Therefore, we request a middle lane of traffic to change directionally according to the patterns of am and pm rush hours. This remedy, which is already in use in other big cities, will accommodate the morning rush of traffic to work and school. We would also like serious consideration given to residential parking tags to ease the parking burden of the residents of the district.

Borough Park is in dire need of affordable housing to accommodate its growing population of residents who come to this district for its cultural wealth- not monetary wealth. A large portion of the population lives in poverty and cannot afford the market prices of housing. The 2018 ACS states that 60.3% of CB12 residents spend 35% or more of their income on rent- this is the largest percentage of all 59 NYC community boards. Per the Furman Center's latest available data, "43.5% of renter households in Borough Part were severely rent burdened (spent more than 50% of household income on rent)."

Our children, comprising a large percentage of the population, are largely educated in religious private schools. Ever since *Everson v Board of Education* (1947), the largely held legal opinion was that **all** school children are entitled to essential services:

*"cutting off church schools from these services * so separate and so indisputably marked off from the religious function would make it far more difficult for the schools to operate. But such is obviously not the purpose of the First Amendment. That Amendment requires the state to be a neutral in its relations with groups of religious believers and nonbelievers; it does not require the state to be their adversary."*

*This statement was made in reference to transportation needs.

And while New York City celebrates the diversity of culture and religion, the New York City Department of Sanitation does not fully service private school children, who are also fed 3 meals daily, the same way it does public school children. Private schools get serviced only twice a week, as all residences. But, because Borough Park is home to the largest amount of private schools in NYC, this creates a huge problem (some schools house between 2-4 thousand children- which is many times larger than local district schools). Garbage piles up and gets spread around all over the street. This creates a smell during the summer. Sanitation workers can't fit the piles of garbage into their trucks and leave some for the next scheduled twice-weekly pickup. This creates a major decline in our quality of life. Daily trash collection for our private schools, which also serve daily meals thereby generating rapidly decaying garbage, is an absolute necessity.

One of the primary complaints of residents of the district is the lack of oversight in Sanitation. Residents report masses of trash scattered in the streets left in the wake of what is supposed to be routine trash collection. The fact is many sanitation employees are lax in how they do their jobs. On the other hand, residents complain that they are ticketed for minor infractions such as candy wrappers that are blown into their sidewalk frontage *after* they clean in front of their house. Despite the institution of additional supervisors, the problem remains prevalent. We propose cameras mounted on all trucks so that supervisors have the ability to monitor and review their crew. It is high time the sanitation department provides photo evidence on every ticket. The accountability cameras will provide will lead to responsible trash collection and enforcement. This technology already exists and is used to ensure essential services are provided properly.

The Community Board 12 District is and continues to be, a viable tax base. However, the demographic outliers present unique challenges. The purpose of the Community Board as a government agency is outlined in the NYC Charter. The delivery of services is a fundamental purpose of the board which the board, as the most localized form of government, is uniquely qualified for. This district's makeup differs vastly from other districts in cultural, familial, and various other essential markers. This district requires different communication with the government than other

districts, as was highlighted during the current Coronavirus pandemic. But this challenge is not unique to the pandemic. The government should work more closely with the Community Board which board has intimate knowledge of the nuances of the community and how best to effectively communicate. We are from the community and work within it. We are ready, willing, and able to do whatever we can to assist NYC in its stated goal of promoting and celebrating diversity.

4. TOP THREE PRESSING ISSUES OVERALL

Brooklyn Community Board 12

The three most pressing issues facing this Community Board are:

Affordable housing

Community Board 12 is a densely populated community with large families living in the district. Community Board 12 is home to one of the largest enclaves of the Jewish religious community that many members naturally migrate to. This vibrant neighborhood is very much in demand as a center that can meet all of the religious, social, and community needs unique to this community. As a result, the housing supply is low and the demand high, driving property values up and making affordable housing almost non-existent. This high price is driven by the extreme scarcity of property for sale and for rent. Buying a home is practically out of reach for most families in our district and renting for a reasonable rate is almost impossible. There are no sufficient, reliable, or useful means of public transportation so families will almost always have their own vehicles. Therefore, it is necessary that housing comes along with parking spaces to be of realistic use. Developers seeking a real estate profit in the district try to build small units without parking. This does not help the housing scarcity faced by current residents. Realistic solutions to affordable housing are crucial to this community.

Traffic

Community Board 12 serves a vibrant, ever-expanding, diverse community. These properties contribute to extreme traffic congestion. There isn't space for new housing so developers build-up, which leads to a bigger increase in cars than in parking space. There are an inordinate amount of school buses (both am and pm) transporting thousands of children to school competing with other traffic. Traffic is exacerbated by frequent unpermitted street closures. The result is a chaotic mess. The infrastructure can't sustain the use and so we have potholes, sinkholes, cave-ins, ponding etc. We need studies of both the traffic and parking flow in areas throughout the district to best determine cost-effective measures to modernize the traffic patterns in order to bring the "old" community into the 21st century. We also need more HIQA officers in our district to enforce street closure permits.

Trash removal & cleanliness

Community Board 12 has long been plagued with sanitation-related problems. These problems affect the quality of life and also present a public health and safety issue. This district has many more private schools to serve the parochial school attendees. These schools produce the same per capita trash as public schools, but whereas public schools get daily trash collections, private schools do not. This means there's rotting organic matter sitting around for days. Then there are the issues with regular and recycling collection. It is typical to get several complaints a day that trash has either not been collected at all, or that collection was incomplete. More oversight is needed over sanitation employees who don't do their jobs. There has been an overload of cases in the past of spillage leaving the streets dirtier after collection than before.

5. SUMMARY OF COMMUNITY DISTRICT NEEDS AND BUDGET REQUESTS

HEALTH CARE AND HUMAN SERVICES

Brooklyn Community Board 12

Most Important Issue Related to Health Care and Human Services

Services for low-income and vulnerable New Yorkers

While many social services programs available through HRA, not all are fully utilized. This is partially because many of our residents don't know of these programs or don't have access to the programs that are available. In consolidating HRA centers, a great disservice has been done to the neediest residents in our district; those that may not know how to navigate the web or the city subway system. Community Board 12 is in dire need of localized access to HRA personnel. Many of our residents use services from HRA such as; SNAP (food stamps), Medicaid, welfare, HEAP, and childcare vouchers. The research shows that this district is one of the largest recipients of HRA services in the Borough. Many in our district, especially the Orthodox community, do not have access to the internet, thereby making it very difficult to make use of HRA services, like Access HRA, that are offered on the internet. Many HRA clients have to travel a long time to get to an HRA facility and then spend almost an entire day there. They sometimes need to bring their children and sometimes have to give up a day's work. Many of our residents feel that when visiting an HRA facility that there is some lack of cultural sensitivity, so we are asking HRA to send some service professionals to our office to serve our community, as they have done in the past.

Community District Needs Related to Health Care and Human Services

Needs for Health Care and Facilities

No comments

Needs for Older NYs

Our Centers for Older Adults have adapted to the new generation of seniors, yet don't have the funding to do so properly. Additionally, homebound seniors have been a concern for the Centers for Older Adults Senior Centers because of increased morbidity and mortality of isolated seniors. There has been success with seniors receiving tablets with Wi-Fi connections to enable them to participate in group activities such as exercise classes as well as interface with other people.

Needs for Homeless

No comments

Needs for Low Income NYs

Adequate funding is needed for Community based organizations. Our district is in dire need of a HRA office. We also need vocational training for our non college educated residents. Our residents are capable, but need the training to enable them to be lifted out of poverty.

Capital Requests Related to Health Care and Human Services

The Community Board did not submit any Budget Requests in this category.

Expense Requests Related to Health Care and Human Services

Priority	Agency	Request	Explanation	Location
27/37	DOHMH	Animal and pest control requests including reducing rat and mosquito populations	<i>There is exponential growth in the rat population throughout our district. Especially along commercial areas as well as along Washington Cemetery. The pigeon population's growth is a health concern that needs addressing.</i>	
30/37	HRA	Other expense budget request for HRA	<i>Since we know HRA is unlikely to bring a center to our district, we ask that HRA send professionals to our office to assist our residents. In the past, they said they 'will continue to explore this request...' HRA clarified that they can provide training programs, but that is not this request. We ask for a program where HRA staff can provide on-the-spot assistance. Our residents need accessible HRA personnel with knowledge of specifically tailored programs. We have a fully equipped and enclosed space where HRA staff can help those who need it. Access HRA works for those who have the technological knowledge needed, but it does not help many of our most needy residents who don't have the computer literacy needed to use it.</i>	
31/37	DOHMH	Create or promote programs to de-stigmatize mental health needs and encourage treatment	<i>Our CBOs require additional funding for mobile crises and access to other mental health programs. Additional funding is needed for daycare centers for special needs children.</i>	

33/37	DFTA	Funding for a new senior center program	<i>The centers for older adults in our district require funding for essential senior programming. Centers have modernized their programming to accommodate the newer generation of seniors. There are younger seniors (65-75) who are recently retired or lost jobs because of Covid. They require stimulating programming and meaningful activities to improve their lives. Our kosher residents require kosher centers, which are unfortunately severally underfunded. The changing demographics of seniors require adaptations by the centers, for example, centers are seeing an increase in Polish-speaking seniors and so require translation services for them. Last year we were told that further study is needed. We request this study.</i>
34/37	DOHMH	Animal and pest control requests including reducing rat and mosquito populations	<i>There is a plague of mosquitos in our streets from spring through fall. We need to have more mosquito spraying to combat it. There are the inevitable small pools of standing water throughout the district which are breeding grounds. Spraying is necessary to keep the mosquito population to a bearable amount.</i>
36/37	DFTA	Other senior center program requests	<i>Our community-based organizations need an increase in SOS Supporting our Seniors Initiative funding. This is targeted specifically to take seniors through the process of applying for programs they are newly qualified for such as Medicare, SSI, and Social security benefits. As well as need-based programs they may qualify for based on a reduction in income, such as Medicaid and SNAP.</i>

YOUTH, EDUCATION AND CHILD WELFARE

Brooklyn Community Board 12

Most Important Issue Related to Youth, Education and Child Welfare

Youth workforce development and summer youth employment

Adequate funding is needed for the Community based programs that are youth oriented.

Community District Needs Related to Youth, Education and Child Welfare

Needs for Youth Education

No comments

Needs for Youth and Child Welfare

Our Community Based Organizations provide children with skills to help form a solid foundation for the rest of their lives.

Capital Requests Related to Youth, Education and Child Welfare

The Community Board did not submit any Budget Requests in this category.

Expense Requests Related to Youth, Education and Child Welfare

Priority	Agency	Request	Explanation	Location
35/37	DYCD	Other expense budget request for DYCD	<i>Our Community-Based Organizations' essential programs depend upon DYCD funding. This is a lifeline for our residents. There are some programs that require an increase in funding. Specifically: The food pantry programs, the crisis division programs, and general social services. Our CBOs have excellent digital literacy programs that are underfunded. An improvement in digital literacy leads to an improvement in access to information and therefore an improvement in almost every aspect of life.</i>	
37/37	DOE	Other expense budget request for DOE	<i>We require additional resources for early intervention and child daycare centers. Both to increase the chances of improving development delays in children and to provide child care for our working parents.</i>	

PUBLIC SAFETY AND EMERGENCY SERVICES

Brooklyn Community Board 12

Most Important Issue Related to Public Safety and Emergency Services

Public safety facilities (precinct, fire houses, etc.)

Generations of Police Officers have had to “live” in a decrepit, antiquated “House” with absolutely no amenities and with conditions that would be considered substandard and inferior for the criminals and derelicts, but are accepted and condoned at this Station House as suitable for our Police Officers.

Community District Needs Related to Public Safety and Emergency Services

Needs for Public Safety

Our Precinct is very old and falling apart. We need a larger precinct house to accomodate our officers.

Needs for Emergency Services

No comments

Capital Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
7/10	NYPD	Renovate or upgrade existing precinct houses	<i>The request for a new 66 Precinct Station House has been a budget request for over 37 years. Funding was eliminated for a project proposal to construct a new 66 Precinct Station house in the FY 12 budget. As it stands now, the precinct house is probably the smallest in the city and cannot service the offices. The precinct house needs to either be expanded, rebuilt or moved entirely to a new larger location.</i>	5822 16th Ave

Expense Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
8/37	NYPD	Hire additional traffic enforcement agents	<i>TCAs (Traffic Control Agents): Our district is in dire need of Traffic Control Agents assigned to float to areas of concern throughout our district. Areas of specific concern are 18th Avenue from 45th Street to Ocean Parkway, 15th Avenue from 42nd Street to 45th Street, 14th Avenue from 49th Street to 42nd Street, 13th Avenue from 39th Street to 54th Streets, Avenues I and J from McDonald Avenue to Coney Island Avenue, Fort Hamilton Parkway from 36th Street to 46th Street. These are a few of the notoriously congested areas. The locations are subject to change based on seasonal traffic and other variables. The traffic congestion and horn honking are severe, especially during the AM and PM rush hours. We were told that NYPD is working to fill vacancies, and we ask for an update.</i>	

11/37	NYPD	Other NYPD programs requests	<i>We request resources to remove vehicles that are parked on residential streets. We need increased use of, or a dedicated, NYPD tow truck to remove offending vehicles. Parking is scarce in our district, and illegally parked vehicles make it more so. Laws are ineffective if not enforced. These vehicles create unsafe conditions when large trucks park on dark, quiet streets. Large groups hanging out and lewd behavior are hidden by trucks on quiet streets, which creates a perfect scenario for people with bad intentions. Our residents deserve to park at night and walk at night without fear. We've been told to bring this to the attention of the precinct. We have, repeatedly. We ask for a top-down approach to resolve this issue.</i>
12/37	NYPD	Hire additional staff to address specific crimes (e.g. drug, gang-related, vice, etc.)	<i>We are requesting an increase in officers to focus specifically on enforcement of mopeds, electric bikes, and electric assist bicycles on sidewalks and bike paths. With the explosion of moped share companies and other electric capable bikes comes the risk of pedestrian injury. These riders should be on the streets- but it is impossible to walk 3 blocks on city sidewalks without needing to dodge such vehicles. Another problem is the danger to cyclists on the Ocean Parkway bike lane. Bike lanes are meant for cyclists, e-bikes included, not mopeds. In this climate of transportation alternatives advocacy it is incumbent upon us to make the existing bike lanes safe. But, cyclists getting hit by mopeds is a too frequent situation.</i>

CORE INFRASTRUCTURE, CITY SERVICES AND RESILIENCY

Brooklyn Community Board 12

Most Important Issue Related to Core Infrastructure, City Services and Resiliency.

Cleanliness/trash collection

Community Board 12 district is in dire need of more collection services and dumping enforcement. Our children, comprising a large percentage of the population, are largely educated in religious private schools. Ever since *Everson v Board of Education* (1947), the largely held legal opinion was that all school children are entitled to essential services: "cutting off church schools from these services ...so separate and so indisputably marked off from the religious function would make it far more difficult for the schools to operate. But such is obviously not the purpose of the First Amendment. That Amendment requires the state to be a neutral in its relations with groups of religious believers and nonbelievers; it does not require the state to be their adversary." *This statement was made in reference to transportation needs. And while New York City celebrates the diversity of culture and religion, the New York City Department of Sanitation does not fully service private school children, who are fed 3 meals daily, the same way it does public school children. Private schools get serviced only twice a week, as all residences. But, because Borough Park is home to the largest amount of private schools in NYC, this creates a huge problem (some schools house between 2-4 thousand children- which is many times larger than local district schools). Garbage piles up and gets spread around all over the street. This creates a smell during the summer. Sanitation workers can't fit the piles of garbage into their trucks and leave some for the next scheduled twice-weekly pickup. This creates a major decline in our quality of life. Daily trash collection for our private schools, who also serve daily meals thereby generating rapidly decaying garbage, is an absolute necessity. One of the primary complaints of residents of the district is the lack of oversight in Sanitation. Residents report masses of trash scattered in the streets left in the wake of what is supposed to be routine trash collection. The fact is, many sanitation employees are lax in how they do their jobs. On the other hand, residents complain that they are ticketed for minor infractions such as candy wrappers that are blown into their sidewalk frontage after they clean in front of their house. Despite the institution of additional supervisors, the problem remains prevalent. We propose cameras mounted on all trucks so that supervisors have the ability to monitor and review their crew. It is high time the sanitation department provides photo evidence on every ticket. The accountability cameras will provide will lead to responsible trash collection and enforcement. This technology already exists and is used to ensure essential services are provided properly.

Community District Needs Related to Core Infrastructure, City Services and Resiliency.

Needs for Water, Sewers, and Environmental Protection

Many of the sewers in our district are antiquated and need to be replaced. Also, after a rain a lot of the catch basins on the corners get clogged up and huge puddles make it impossible for pedestrians to cross the street. Cleaning and enlarging these catch basins should be a priority and done regularly to prevent combined sewer overflow.

Needs for Sanitation Services

Due to the density of population in Community District 12, increasing sanitation services to the maximum amount possible is essential to our quality of life.

Capital Requests Related to Core Infrastructure, City Services and Resiliency

The Community Board did not submit any Budget Requests in this category.

Expense Requests Related to Core Infrastructure, City Services and Resiliency

Priority	Agency	Request	Explanation	Location
1/37	DSNY	Increase enforcement of illegal dumping laws	<i>There has been an increase in dumping. A few hotspots require consistent attention. Increasing enforcement is an essential deterrent. A \$4,000 violation as an actual probability, instead of a mythological possibility, may deter would-be violators. The dumping breeds unsanitary conditions and rodents. Hotspots are: along the Washington Cemetery (20th & 21st Ave. Bay Pkwy., McDonald Ave.), along the LIRR on 61st St. bw 11th & 12 Ave., on 56th St bw 15th & 16th Ave., and 55th St. bw 16th & 17th Ave. We've been told funds are unavailable. Since then DSNY has implemented a camera program to catch offenders, we request funding to place a few cameras in strategic locations to help alleviate this problem. We need enforcement to work closely with the Super and CB12 to best place cameras.</i>	
5/37	DSNY	Other garbage collection and recycling requests	<i>We are asking for a truck dedicated to servicing our district's schools. We request funding for a dedicated truck to ensure all the waste can be collected daily. One shared CB12-CB14 truck cannot sufficiently service the amount of trash generated daily. The shared truck does not have adequate space and routinely provides incomplete collections, as it fills up before finishing the route. A truck is needed to remedy the quality of life and public health concerns of decaying foods.</i>	

6/37	DSNY	Provide more frequent garbage or recycling pick-up for schools and institutions	<i>Public schools have daily trash collection. Private schools that serve ~100k children 3 meals daily year-round have twice weekly pickups. We request funding for sanitation employees to service daily trash collection for ALL schoolchildren in CB12. Enrollment in private schools outnumbers public school enrollment here. Daily school trash pickups must be implemented to remedy the quality of life and public health concerns of decaying foods. The FY22 (212202001E) response was that this is not a budget request, yet DSNY continues to deny this service claiming a lack of funding. Last year, FY23 (212202301E), this was not recommended for funding. We respectfully request reconsideration.</i>
9/37	DEP	Inspect storm sewer on specific street segment and service, repair or replace as needed	<i>17th Ave. and 60th St., New Utrecht Ave., and 55th St. are areas with frequent flooding that require DEP to take a closer look to determine the cause. These areas may need catch basin infrastructure upgrades and not only cleaning. Last year we were told further study is needed, it's been a year and the problem has gotten worse.</i>
10/37	DEP	Clean catch basins	<i>Consistent cleaning of catch basins is essential. The recent storms have shown that the reactive method of cleaning is not working. We have consistent flooding all over the district every time it rains. The resulting flooding is disruptive for days. All the catch basins need to be cleaned before they are reported as a problem.</i>
13/37	DSNY	Other garbage collection and recycling requests	<i>We are requesting the return of a permanent cleaning officer to the district. Currently BK12 does not have a dedicated cleaning officer. Such an officer would go a long way to remedy the chronic littering in high litter areas.</i>
14/37	DSNY	Other cleaning requests	<i>We are requesting an increase from 5 broom routes to six broom routes on Monday, Tuesday, Thursday and Friday.</i>
15/37	DSNY	Other garbage collection and recycling requests	<i>We are requesting a dedicated MLP route once a week which will go a long way in helping clean up the various locations where garbage is building up at an alarming rate.</i>

16/37	DSNY	Other garbage collection and recycling requests	<i>We request cameras mounted on Sanitation Truck to ensure essential services are provided properly. We also request photos attached to sanitation violations when issued to residents.</i>
17/37	DSNY	Provide more frequent garbage or recycling pick-up	<i>We are requesting the mechanical sweeper on the 12 am to 8 am midnight shift six days a week be returned (it has been taken away on 7/1/2017 in the FY18 budget) this sweeper effectively cleans the district. Our district constantly rates low on the scorecard and this should help maintain cleanliness throughout the district.</i>
18/37	DSNY	Provide more on-street trash cans and recycling containers	<i>There are commercial areas that generate huge amounts of food garbage or are bus stops/transportation hubs. In many cases, there are numerous restaurants, etc., along a given corridor now (7-11, KFC, Dunkin Donuts, other coffee shops, etc.), yet only one or two bins are available in the surrounding area. We request that DSNY add adequate numbers of bins at critical points along Coney Island Avenue and Church Ave. Church Ave and Coney Island Ave Church Ave and East 8th St Church Ave and East 7th St Coney Island Ave and Caton Ave Coney Island Ave and Beverley Road Coney Island Ave and Ave C Coney Island Ave and Cortelyou Road.</i>

HOUSING, ECONOMIC DEVELOPMENT AND LAND USE

Brooklyn Community Board 12

Most Important Issue Related to Housing, Economic Development and Land Use

Affordable housing creation

Community Board 12 is a densely populated community with large families living in the district. Community Board 12 is home to one of the largest enclaves of the Jewish religious community that many members naturally migrate to. This vibrant neighborhood is very much in demand as a center that can meet all of the religious, social, and community needs unique to this community. As a result, the housing supply is low and the demand high, driving property values up and making affordable housing almost non-existent. This high price is driven by the extreme scarcity of property for sale and for rent. Buying a home is practically out of reach for most families in our district and renting for a reasonable rate is almost impossible. There is no sufficient, reliable, or useful means of public transportation so families will almost always have their own vehicles. Therefore, it is necessary that housing comes along with parking spaces to be of realistic use. Developers seeking a real estate profit in the district try to build small units without parking. This does not help the housing scarcity faced by current residents. Realistic solutions to affordable housing are crucial to this community.

Community District Needs Related to Housing, Economic Development and Land Use

Needs for Land Use

We would like for some commercial areas in our district to be rezoned for residential development with an increased focus on affordable housing.

Needs for Housing

Continuation of funding for additional programs.

Needs for Economic Development

Workforce development is a prime concern in our area.

Capital Requests Related to Housing, Economic Development and Land Use

The Community Board did not submit any Budget Requests in this category.

Expense Requests Related to Housing, Economic Development and Land Use

Priority	Agency	Request	Explanation	Location
29/37	SBS	Other workforce development requests	<i>Employment- We have a large population of residents in our district that aren't college educated. Investing in targeted vocational training in this district is a priority that would go a long way towards raising the current low incomes many families are experiencing. Our residents are smart and capable. They would benefit from training with an emphasis on high paying and emerging skills. There are no Work Force 1 (WF1) centers close enough to service the district, therefore providing funding to fill the gap is appropriate.</i>	
32/37	DCP	Study land use and zoning to better match current uses or neighborhood character	<i>One of the major issues plaguing the district is the lack of affordable housing. To that end, we request some long overdue studies of commercial areas in our district, specifically the commercial strip spanning 60th street, for the purposes of being rezoned for residential development with a major focus on affordable housing.</i>	

TRANSPORTATION

Brooklyn Community Board 12

Most Important Issue Related to Transportation and Mobility

Traffic congestion

TCAs (Traffic Control Agents): Our district is in dire need of Traffic Control Agents assigned to float to areas of concern throughout our district. Areas of specific concern are 18th Avenue from 45th Street to Ocean Parkway, 15th Avenue from 42nd Street to 45th Street, 14th Avenue from 49th Street to 42nd Street, 13th Avenue from 39th Street to 54th Streets, Avenues I and J from McDonald Avenue to Coney Island Avenue, Fort Hamilton Parkway from 36th Street to 46th Street. These are a few of the notoriously congested areas. The locations are subject to change based on seasonal traffic and other variables. The traffic congestion and horn honking are severe, especially during the AM and PM rush hours. We were told that NYPD is working to fill vacancies, we ask for an update.

Community District Needs Related to Transportation and Mobility

Needs for Traffic and Transportation Infrastructure

The infrasture within Community District 12 is outdated and crumbling. The area is in need of an overall engineering study to upgrade and update the area to be viable. We need the full use of all 21st century innovations to help keep the district moving in a safe manner. Vision Zero is an important goal, there have been too many traffic fatalities in the community. There are traffic calming measures and traffic flow studies we are asking for to make our district safer for vehicles, pedestrians, and cyclists.

Needs for Transit Services

With many of our residents using mass transit, some better accommodations and services are warranted.

Capital Requests Related to Transportation and Mobility

Priority	Agency	Request	Explanation	Location
1/10	DOT	Roadway maintenance (i.e. pothole repair, resurfacing, trench restoration, etc.)	<i>We request an increase in funding for annual street repaving. Not enough of our broken streets are repaired. This damages passing vehicles and underground infrastructure and is a safety hazard for pedestrians.</i>	
2/10	DOT	Improve traffic and pedestrian safety, including traffic calming	<i>We request a pedestrian crossing for the Ave. K & Ocean Parkway intersection. As of now there is no pedestrian crossing for 2/5th of a mile, from Ave. J to Ave. L. It is a matter of public safety to install a traffic light that allows pedestrians to cross safely. A traffic light will slow traffic on this stretch where cars routinely speed up because there are no traffic calming measures in place. There has been an increase in midnight drag racing, donuts, and speeding. A traffic light and crosswalk would go a long way to solving this problem. This item was recommended for further study last year, we request the same.</i>	Ocean Parkway Avenue K Avenue K
3/10	DOT	Improve traffic and pedestrian safety, including traffic calming	<i>There is a large school near 13th Ave and 36th St. that necessitates crossing 36th St. for most students. And although the area has been dedicated a school zone, there is no traffic calming devices for the entire stretch of 36th St. from Church Ave. (past Clara, Tehama, and Louisa Street) all the way until 12th Ave. Another school is coming to this area, which will make it even more important to have the area safe. We need a crosswalk at 36th St. and 13th Ave., with some mechanism to have cars stop for pedestrians to cross.</i>	

4/10	DOT	Reconstruct streets	<i>37th Street between 14th & 15th Avenues is dire need of reconstruction. CB12 has requested funding for this project (FY2018 212201807C, FY2022 212202204C). We were told this would not qualify as a standard street repaving because of the unique aspects of this street, such as the absence of curb cuts. This street is plagued with potholes, sink holes, and cracked streets that are dangerous to motorists as well as pedestrian crossings. The unattended potholes and various depressions lead to flooding with every rainstorm. We are repeatedly told there isn't any funding and we should request from elected officials. Elected Officials don't have the money to fund such a project. This is a necessary infrastructure upgrade.</i>	37th street 14th Ave 14th Ave
6/10	NYCTA	Improve accessibility of transit infrastructure, by providing elevators, escalators, etc.	<i>There are large numbers of young children, senior citizens, mothers with strollers, and individuals with mobility challenges (often with walkers or wheelchairs) who have a hard time getting onto the train platforms. There is an urgent need to install elevators at the D and F lines. Though the F line is slated to have the Ave. I stop accessible by 2024, the 18th Ave. and McDonald Ave. station is where transfers to several bus lines are available. Accessibility is needed at the 50th St. and New Utrecht Av. station on the D line. It is the closest subway station to Maimonides Medical Center, a level 1 Trauma Center as well as one of the most oft-used birth centers in New York State. NYCTA should add these stations to their priority lists.</i>	

Expense Requests Related to Transportation and Mobility

Priority	Agency	Request	Explanation	Location
----------	--------	---------	-------------	----------

3/37	DOT	Other traffic improvement requests	<p>NYC.gov states there are 150 HIQA inspectors. Their mission statement includes “increas(ing) the level of safety for both pedestrian and vehicle travel...” and “expedit(ing) the flow of traffic, for both pedestrian and vehicular traffic around the construction zones.” Street permit stipulations are often ignored, leading to chaos. It is necessary to increase the number of HIQA inspectors to ensure compliance. DOT often doesn’t send an inspector quickly enough to be an effective remedy. More inspectors and quicker action will be immensely helpful. HIQA can come hours later- after construction is complete. Further, an inspector should be permanently assigned to the CB12 area to coordinate with the board for effective permit compliance. This was denied last year. The condition persists.</p>	
7/37	DOT	Other traffic improvement requests	<p>We request DOT upgrade street signs and markings as needed. Specifically, the traffic light on 60th St and 13th Ave. Drivers on 13th Ave heading south must turn left or right when they get to the 60th St intersection because 13th Ave. becomes a ONE-WAY street. Multiple vehicles go the wrong way southbound from 60th St to 59th St. Drivers need easily visible direction ON the traffic light; either a sign indicating only turns are allowed or lights with arrows turning right or left. This was requested in FY22 and we were told that ‘work on this project/program was completed in FY 21’, but it hasn’t. The problem persists and can be fixed with a sign directed to the drivers who drive the wrong way. We asked the Boro Commissioner, per the response when this request was denied, to no avail.</p>	60th Street and 13th Ave

19/37	DOT	Conduct traffic or parking studies	<i>Traffic is very congested along 18th Ave., specifically from 45th Street to Ocean Parkway and especially during morning hours. 18th Ave., an already major thoroughfare, intersects with McDonald Ave. where the F line subway station is. This creates both vehicular and pedestrian traffic. We are requesting a thorough engineering study to determine the feasibility of certain measures to alleviate the strain. For instance, the possibility of adding an additional lane with interchangeable directions depending on the time of day (as is done at various locations in other cities) or adding turning lanes.</i>	18th Avenue 45th Street 45th Street
20/37	DOT	Conduct traffic or parking studies	<i>13th Ave. is the commercial shopping Mecca in CB12. People come from all over to shop here due to its ethnic flavor. On any given day, more than 10k people traverse this shopping strip. Parking is at a premium. It can take an hour to pass through the 23 blocks of this shopping strip. 13 Ave. hasn't been redesigned in over 21 years and is in dire need of a thorough engineering study to determine the best measures to ease the traffic and parking congestion nightmare, especially during rush hours. We request such a study to determine the feasibility of certain ideas. For instance, the possibility of adding an additional lane with interchangeable direction depending on the time of day or adding turning lanes and maybe eliminating parking at certain times to increase traffic flow.</i>	
21/37	DOT	Conduct traffic or parking studies	<i>A complete traffic study on Avenue J from McDonald Avenue to Coney Island Avenue is needed as well, especially at the intersection of Avenue J and Bay Parkway where there is a constant bottleneck. The streets aren't aligned so sometimes drivers may find themselves continuing into a non-existent lane. There is severe congestion during both AM and PM rush hours. It can take a very long to travel this strip, especially from the Bay Parkway intersection to Ocean Parkway.</i>	Avenue J McDonald Avenue McDonald Avenue

22/37	DOT	Conduct traffic or parking studies	<i>A complete traffic study on Avenue I from McDonald Avenue to Coney Island Avenue is needed. There is severe congestion as well as horn honking during both AM and PM rush Hours. It can take up to one hour during rush hours to travel this strip.</i>	Avenue I McDonald Avenue McDonald Avenue
23/37	DOT	Conduct traffic or parking studies	<i>There are many private and public schools along Fourteenth Avenue that transport children to and from school by buses. This leads to congestion during morning and afternoon bus traffic. A study is needed to explore the best methods to ease the congestion.</i>	
24/37	DOT	Conduct traffic or parking studies	<i>15th AVENUE and 16th AVENUE- These are both two-way Avenues that are always busy and plagued by double parked vehicles making the street virtually impassable. A study exploring the possibility of converting it to a one way street, or another solution, to ease traffic is needed.</i>	
25/37	DOT	Provide new traffic or pedestrian signals	<i>Expand the Traffic Engineering Department to be able to conduct traffic studies more expeditiously. The response to all our DOT expense requests was that further study is required. This is what we ask.</i>	

PARKS, CULTURAL AND OTHER COMMUNITY FACILITIES

Brooklyn Community Board 12

Most Important Issue Related to Parks, Cultural and Other Community Facilities

Park care and maintenance

We need Parks personnel for our District to ensure that each facility has an attendant on a full-time basis. Comfort Stations cannot be utilized without Parks personnel present. Therefore, many remain closed and not utilized. It is imperative that personnel be assigned to these locations. Parks should be cleaned on a daily basis, especially those with Children's playgrounds. All Parks must be provided with signage – Park Closes at Dusk – or 9:00 PM. Increased lighting must be provided in every facility.

Community District Needs Related to Parks, Cultural and Other Community Facilities

Needs for Parks

Our parks are over utilized because of the large families living in our district. As new families continue to move into this district our parks become a mainstream for our children to play. Elected officials have contributed huge sums of money to upgrade our parks into state-of-the-art facilities that are pleasant outdoor spaces for children. However, the lack of security attracts an element to the parks that deters youth from wholesome play. It's a shame to have the capital expenditures go to waste due to security concerns.

Capital Requests Related to Parks, Cultural and Other Community Facilities

Priority	Agency	Request	Explanation	Location
5/10	DPR	New equipment for maintenance	<i>We request a mini-packer to service Ocean Parkway Malls which is a forgotten PARKS property, rarely maintained without allocated resources. This ~5-mile-long bike and pedestrian path runs through a high-density area. This is a park of choice for elderly residents, dog walkers, walkers, and joggers, and the only bike path in our area. But the strip is dirty, overgrown, cracked, and neglected. We advocated for waste baskets in response to many complaints. But, we learned there's a faulty mini-packer so the trash isn't collected. Though it is an unconventional park, it is essential to the quality of life of thousands. Last year we were told this should be brought to elected officials. As an essential city service, our residents should be able to depend on the regular city budget for this.</i>	
8/10	DPR	Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)	<i>COL. MARCUS PARK - A comfort station in the playground area is needed. Numerous children and adults must cross East 5th Street to go to the other side of the park in order to use the restrooms. This is a highly trafficked street. A restroom, especially for the children using this park, is essential to this playground.</i>	
9/10	DPR	Provide a new or expanded park or amenity (i.e. playground, outdoor athletic field)	<i>Rappaport Playground (53rd Street & Fort Hamilton Parkway) is the only roller hockey rink left in Brooklyn and it's in dire need of a new one, due to the use of rink. Also, the panels surrounding the rink need to be replaced.</i>	Fort Hamilton Parkway
10/10	DPR	Other capital budget request for DPR	<i>BRIZZI PARK- Brizzi Park needs a comfort station. Additionally, the rubber mats are buckling and need to be replaced.</i>	

Expense Requests Related to Parks, Cultural and Other Community Facilities

Priority	Agency	Request	Explanation	Location
----------	--------	---------	-------------	----------

2/37	DPR	Provide better park maintenance	<p><i>Ocean Parkway is a highly trafficked Special District. The beauty of Ocean Parkway must not be allowed to deteriorate. Some of our elected officials have designated monies for the upgrade and beautification of the Malls. Maintenance must be ongoing to make sure the upgrades and beautification remain intact. In order to maintain this arena in a sanitary and groomed condition, a crew should be assigned to maintain this thoroughfare and prevent homeless people from sleeping on the benches. An additional crew cab truck is requested to transport them the length and breadth of this roadway. The Malls and trees must receive regular attention so that the Parkway can be properly maintained.</i></p>
4/37	DPR	Forestry services, including street tree maintenance	<p><i>Although PARKS maintain a 7-year pruning cycle, oftentimes trees fall into disrepair before the 7 years are out. The incidents with falling trees or branches has been rising in our district due to delay in treatment of sick and dying trees. The storms of the last few months highlighted the devastation caused by falling trees. Other than the damage to property, both personal and government, the trees also lead to downed wires. The outages are very disruptive and costly. We request additional resources to provide for a safe timeframe to check on the health of trees specifically to prevent them from falling during severe weather conditions. Additionally, the timeline for the replacement of trees is very long. We request additional resources to speed up the process.</i></p>
26/37	DPR	Forestry services, including street tree maintenance	<p><i>PARKS advised that the funds to repair sidewalks damaged by trees was increased. However, this increased funding has not yet resulted in actual repairs. We request PARKS repair the sidewalks damaged by trees as they said they would. Some of these areas are extremely dangerous for pedestrians and have been waiting for repairs for a very long time.</i></p>

Enhance park safety through more security staff (police or parks enforcement)

Funding is needed for Parks Personnel to lock all parks in our district after dusk. Elected officials have contributed huge sums of money to upgrade our parks into state-of-the-art facilities that are pleasant outdoor spaces for children. However, the lack of security attracts an element to the parks that deters youth from wholesome play. It's a shame to have the capital expenditures go to waste due to security concerns.

6. OTHER BUDGET REQUESTS

Other Capital Requests

The Community Board did not submit any Budget Requests in this category.

Other Expense Requests

The Community Board did not submit any Budget Requests in this category.

7. SUMMARY OF PRIORITIZED BUDGET REQUESTS

Capital Budget Requests

Priority	Agency	Request	Explanation	Location
1/10	DOT	Roadway maintenance (i.e. pothole repair, resurfacing, trench restoration, etc.)	<i>We request an increase in funding for annual street repaving. Not enough of our broken streets are repaired. This damages passing vehicles and underground infrastructure and is a safety hazard for pedestrians.</i>	
2/10	DOT	Improve traffic and pedestrian safety, including traffic calming	<i>We request a pedestrian crossing for the Ave. K & Ocean Parkway intersection. As of now there is no pedestrian crossing for 2/5th of a mile, from Ave. J to Ave. L. It is a matter of public safety to install a traffic light that allows pedestrians to cross safely. A traffic light will slow traffic on this stretch where cars routinely speed up because there are no traffic calming measures in place. There has been an increase in midnight drag racing, donuts, and speeding. A traffic light and crosswalk would go a long way to solving this problem. This item was recommended for further study last year, we request the same.</i>	Ocean Parkway Avenue K Avenue K
3/10	DOT	Improve traffic and pedestrian safety, including traffic calming	<i>There is a large school near 13th Ave and 36th St. that necessitates crossing 36th St. for most students. And although the area has been dedicated a school zone, there is no traffic calming devices for the entire stretch of 36th St. from Church Ave. (past Clara, Tehama, and Louisa Street) all the way until 12th Ave. Another school is coming to this area, which will make it even more important to have the area safe. We need a crosswalk at 36th St. and 13th Ave., with some mechanism to have cars stop for pedestrians to cross.</i>	

4/10	DOT	Reconstruct streets	<p><i>37th Street between 14th & 15th Avenues is dire need of reconstruction. CB12 has requested funding for this project (FY2018 212201807C, FY2022 212202204C). We were told this would not qualify as a standard street repaving because of the unique aspects of this street, such as the absence of curb cuts. This street is plagued with potholes, sink holes, and cracked streets that are dangerous to motorist as well as pedestrian crossings. The unattended potholes and various depressions lead to flooding with every rainstorm. We are repeatedly told there isn't any funding and we should request from elected officials. Elected Officials don't have the money to fund such a project. This is a necessary infrastructure upgrade.</i></p>	37th street 14th Ave 14th Ave
5/10	DPR	New equipment for maintenance	<p><i>We request a mini-packer to service Ocean Parkway Malls which is a forgotten PARKS property, rarely maintained without allocated resources. This ~5-mile-long bike and pedestrian path runs through a high-density area. This is a park of choice for elderly residents, dog walkers, walkers, and joggers, and the only bike path in our area. But the strip is dirty, overgrown, cracked, and neglected. We advocated for waste baskets in response to many complaints. But, we learned there's a faulty mini-packer so the trash isn't collected. Though it is an unconventional park, it is essential to the quality of life of thousands. Last year we were told this should be brought to elected officials. As an essential city service, our residents should be able to depend on the regular city budget for this.</i></p>	

6/10	NYCTA	Improve accessibility of transit infrastructure, by providing elevators, escalators, etc.	<i>There are large numbers of young children, senior citizens, mothers with strollers, and individuals with mobility challenges (often with walkers or wheelchairs) who have a hard time getting onto the train platforms. There is an urgent need to install elevators at the D and F lines. Though the F line is slated to have the Ave. I stop accessible by 2024, the 18th Ave. and McDonald Ave. station is where transfers to several bus lines are available. Accessibility is needed at the 50th St. and New Utrecht Av. station on the D line. It is the closest subway station to Maimonides Medical Center, a level 1 Trauma Center as well as one of the most oft-used birth centers in New York State. NYCTA should add these stations to their priority lists.</i>	
7/10	NYPD	Renovate or upgrade existing precinct houses	<i>The request for a new 66 Precinct Station House has been a budget request for over 37 years. Funding was eliminated for a project proposal to construct a new 66 Precinct Station house in the FY 12 budget. As it stands now, the precinct house is probably the smallest in the city and cannot service the offices. The precinct house needs to either be expanded, rebuilt or moved entirely to a new larger location.</i>	5822 16th Ave
8/10	DPR	Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)	<i>COL. MARCUS PARK - A comfort station in the playground area is needed. Numerous children and adults must cross East 5th Street to go to the other side of the park in order to use the restrooms. This is a highly trafficked street. A restroom, especially for the children using this park, is essential to this playground.</i>	
9/10	DPR	Provide a new or expanded park or amenity (i.e. playground, outdoor athletic field)	<i>Rappaport Playground (53rd Street & Fort Hamilton Parkway) is the only roller hockey rink left in Brooklyn and it's in dire need of a new one, due to the use of rink. Also, the panels surrounding the rink need to be replaced.</i>	Fort Hamilton Parkway
10/10	DPR	Other capital budget request for DPR	<i>BRIZZI PARK- Brizzi Park needs a comfort station. Additionally, the rubber mats are buckling and need to be replaced.</i>	

Expense Budget Requests

Priority	Agency	Request	Explanation	Location
1/37	DSNY	Increase enforcement of illegal dumping laws	<p><i>There has been an increase in dumping. A few hotspots require consistent attention. Increasing enforcement is an essential deterrent. A \$4,000 violation as an actual probability, instead of a mythological possibility, may deter would-be violators. The dumping breeds unsanitary conditions and rodents. Hotspots are: along the Washington Cemetery (20th & 21st Ave. Bay Pkwy., McDonald Ave.), along the LIRR on 61st St. bw 11th & 12 Ave., on 56th St bw 15th & 16th Ave., and 55th St. bw 16th & 17th Ave. We've been told funds are unavailable. Since then DSNY has implemented a camera program to catch offenders, we request funding to place a few cameras in strategic locations to help alleviate this problem. We need enforcement to work closely with the Super and CB12 to best place cameras.</i></p>	
2/37	DPR	Provide better park maintenance	<p><i>Ocean Parkway is a highly trafficked Special District. The beauty of Ocean Parkway must not be allowed to deteriorate. Some of our elected officials have designated monies for the upgrade and beautification of the Malls. Maintenance must be ongoing to make sure the upgrades and beautification remain intact. In order to maintain this arena in a sanitary and groomed condition, a crew should be assigned to maintain this thoroughfare and prevent homeless people from sleeping on the benches. An additional crew cab truck is requested to transport them the length and breadth of this roadway. The Malls and trees must receive regular attention so that the Parkway can be properly maintained.</i></p>	

3/37	DOT	Other traffic improvement requests	<i>NYC.gov states there are 150 HIQA inspectors. Their mission statement includes “increas(ing) the level of safety for both pedestrian and vehicle travel...” and “expedit(ing) the flow of traffic, for both pedestrian and vehicular traffic around the construction zones.” Street permit stipulations are often ignored, leading to chaos. It is necessary to increase the number of HIQA inspectors to ensure compliance. DOT often doesn’t send an inspector quickly enough to be an effective remedy. More inspectors and quicker action will be immensely helpful. HIQA can come hours later- after construction is complete. Further, an inspector should be permanently assigned to the CB12 area to coordinate with the board for effective permit compliance. This was denied last year. The condition persists.</i>
4/37	DPR	Forestry services, including street tree maintenance	<i>Although PARKS maintain a 7-year pruning cycle, oftentimes trees fall into disrepair before the 7 years are out. The incidents with falling trees or branches has been rising in our district due to delay in treatment of sick and dying trees. The storms of the last few months highlighted the devastation caused by falling trees. Other than the damage to property, both personal and government, the trees also lead to downed wires. The outages are very disruptive and costly. We request additional resources to provide for a safe timeframe to check on the health of trees specifically to prevent them from falling during severe weather conditions. Additionally, the timeline for the replacement of trees is very long. We request additional resources to speed up the process.</i>
5/37	DSNY	Other garbage collection and recycling requests	<i>We are asking for a truck dedicated to servicing our district's schools. We request funding for a dedicated truck to ensure all the waste can be collected daily. One shared CB12-CB14 truck cannot sufficiently service the amount of trash generated daily. The shared truck does not have adequate space and routinely provides incomplete collections, as it fills up before finishing the route. A truck is needed to remedy the quality of life and public health concerns of decaying foods.</i>

6/37	DSNY	Provide more frequent garbage or recycling pick-up for schools and institutions	<p><i>Public schools have daily trash collection. Private schools that serve ~100k children 3 meals daily year-round have twice weekly pickups. We request funding for sanitation employees to service daily trash collection for ALL schoolchildren in CB12. Enrollment in private schools outnumbers public school enrollment here. Daily school trash pickups must be implemented to remedy the quality of life and public health concerns of decaying foods. The FY22 (212202001E) response was that this is not a budget request, yet DSNY continues to deny this service claiming a lack of funding. Last year, FY23 (212202301E), this was not recommended for funding. We respectfully request reconsideration.</i></p>	
7/37	DOT	Other traffic improvement requests	<p><i>We request DOT upgrade street signs and markings as needed. Specifically, the traffic light on 60th St and 13th Ave. Drivers on 13th Ave heading south must turn left or right when they get to the 60th St intersection because 13th Ave. becomes a ONE-WAY street. Multiple vehicles go the wrong way southbound from 60th St to 59th St. Drivers need easily visible direction ON the traffic light; either a sign indicating only turns are allowed or lights with arrows turning right or left. This was requested in FY22 and we were told that 'work on this project/program was completed in FY 21', but it hasn't. The problem persists and can be fixed with a sign directed to the drivers who drive the wrong way. We asked the Boro Commissioner, per the response when this request was denied, to no avail.</i></p>	60th Street and 13th Ave

8/37	NYPD	Hire additional traffic enforcement agents	<i>TCAs (Traffic Control Agents): Our district is in dire need of Traffic Control Agents assigned to float to areas of concern throughout our district. Areas of specific concern are 18th Avenue from 45th Street to Ocean Parkway, 15th Avenue from 42nd Street to 45th Street, 14th Avenue from 49th Street to 42nd Street, 13th Avenue from 39th Street to 54th Streets, Avenues I and J from McDonald Avenue to Coney Island Avenue, Fort Hamilton Parkway from 36th Street to 46th Street. These are a few of the notoriously congested areas. The locations are subject to change based on seasonal traffic and other variables. The traffic congestion and horn honking are severe, especially during the AM and PM rush hours. We were told that NYPD is working to fill vacancies, and we ask for an update.</i>
9/37	DEP	Inspect storm sewer on specific street segment and service, repair or replace as needed	<i>17th Ave. and 60th St., New Utrecht Ave., and 55th St. are areas with frequent flooding that require DEP to take a closer look to determine the cause. These areas may need catch basin infrastructure upgrades and not only cleaning. Last year we were told further study is needed, it's been a year and the problem has gotten worse.</i>
10/37	DEP	Clean catch basins	<i>Consistent cleaning of catch basins is essential. The recent storms have shown that the reactive method of cleaning is not working. We have consistent flooding all over the district every time it rains. The resulting flooding is disruptive for days. All the catch basins need to be cleaned before they are reported as a problem.</i>

11/37	NYPD	Other NYPD programs requests	<i>We request resources to remove vehicles that are parked on residential streets. We need increased use of, or a dedicated, NYPD tow truck to remove offending vehicles. Parking is scarce in our district, and illegally parked vehicles make it more so. Laws are ineffective if not enforced. These vehicles create unsafe conditions when large trucks park on dark, quiet streets. Large groups hanging out and lewd behavior are hidden by trucks on quiet streets, which creates a perfect scenario for people with bad intentions. Our residents deserve to park at night and walk at night without fear. We've been told to bring this to the attention of the precinct. We have, repeatedly. We ask for a top-down approach to resolve this issue.</i>
12/37	NYPD	Hire additional staff to address specific crimes (e.g. drug, gang-related, vice, etc.)	<i>We are requesting an increase in officers to focus specifically on enforcement of mopeds, electric bikes, and electric assist bicycles on sidewalks and bike paths. With the explosion of moped share companies and other electric capable bikes comes the risk of pedestrian injury. These riders should be on the streets- but it is impossible to walk 3 blocks on city sidewalks without needing to dodge such vehicles. Another problem is the danger to cyclists on the Ocean Parkway bike lane. Bike lanes are meant for cyclists, e-bikes included, not mopeds. In this climate of transportation alternatives advocacy it is incumbent upon us to make the existing bike lanes safe. But, cyclists getting hit by mopeds is a too frequent situation.</i>
13/37	DSNY	Other garbage collection and recycling requests	<i>We are requesting the return of a permanent cleaning officer to the district. Currently BK12 does not have a dedicated cleaning officer. Such an officer would go a long way to remedy the chronic littering in high litter areas.</i>
14/37	DSNY	Other cleaning requests	<i>We are requesting an increase from 5 broom routes to six broom routes on Monday, Tuesday, Thursday and Friday.</i>
15/37	DSNY	Other garbage collection and recycling requests	<i>We are requesting a dedicated MLP route once a week which will go a long way in helping clean up the various locations where garbage is building up at an alarming rate.</i>

16/37	DSNY	Other garbage collection and recycling requests	<i>We request cameras mounted on Sanitation Truck to ensure essential services are provided properly. We also request photos attached to sanitation violations when issued to residents.</i>	
17/37	DSNY	Provide more frequent garbage or recycling pick-up	<i>We are requesting the mechanical sweeper on the 12 am to 8 am midnight shift six days a week be returned (it has been taken away on 7/1/2017 in the FY18 budget) this sweeper effectively cleans the district. Our district constantly rates low on the scorecard and this should help maintain cleanliness throughout the district.</i>	
18/37	DSNY	Provide more on-street trash cans and recycling containers	<i>There are commercial areas that generate huge amounts of food garbage or are bus stops/transportation hubs. In many cases, there are numerous restaurants, etc., along a given corridor now (7-11, KFC, Dunkin Donuts, other coffee shops, etc.), yet only one or two bins are available in the surrounding area. We request that DSNY add adequate numbers of bins at critical points along Coney Island Avenue and Church Ave. Church Ave and Coney Island Ave Church Ave and East 8th St Church Ave and East 7th St Coney Island Ave and Caton Ave Coney Island Ave and Beverley Road Coney Island Ave and Ave C Coney Island Ave and Cortelyou Road.</i>	
19/37	DOT	Conduct traffic or parking studies	<i>Traffic is very congested along 18th Ave., specifically from 45th Street to Ocean Parkway and especially during morning hours. 18th Ave., an already major thoroughfare, intersects with McDonald Ave. where the F line subway station is. This creates both vehicular and pedestrian traffic. We are requesting a thorough engineering study to determine the feasibility of certain measures to alleviate the strain. For instance, the possibility of adding an additional lane with interchangeable directions depending on the time of day (as is done at various locations in other cities) or adding turning lanes.</i>	18th Avenue 45th Street 45th Street

20/37	DOT	Conduct traffic or parking studies	<i>13th Ave. is the commercial shopping Mecca in CB12. People come from all over to shop here due to its ethnic flavor. On any given day, more than 10k people traverse this shopping strip. Parking is at a premium. It can take an hour to pass through the 23 blocks of this shopping strip. 13 Ave. hasn't been redesigned in over 21 years and is in dire need of a thorough engineering study to determine the best measures to ease the traffic and parking congestion nightmare, especially during rush hours. We request such a study to determine the feasibility of certain ideas. For instance, the possibility of adding an additional lane with interchangeable direction depending on the time of day or adding turning lanes and maybe eliminating parking at certain times to increase traffic flow.</i>	
21/37	DOT	Conduct traffic or parking studies	<i>A complete traffic study on Avenue J from McDonald Avenue to Coney Island Avenue is needed as well, especially at the intersection of Avenue J and Bay Parkway where there is a constant bottleneck. The streets aren't aligned so sometimes drivers may find themselves continuing into a non-existent lane. There is severe congestion during both AM and PM rush hours. It can take a very long to travel this strip, especially from the Bay Parkway intersection to Ocean Parkway.</i>	Avenue J McDonald Avenue McDonald Avenue
22/37	DOT	Conduct traffic or parking studies	<i>A complete traffic study on Avenue I from McDonald Avenue to Coney Island Avenue is needed. There is severe congestion as well as horn honking during both AM and PM rush Hours. It can take up to one hour during rush hours to travel this strip.</i>	Avenue I McDonald Avenue McDonald Avenue
23/37	DOT	Conduct traffic or parking studies	<i>There are many private and public schools along Fourteenth Avenue that transport children to and from school by buses. This leads to congestion during morning and afternoon bus traffic. A study is needed to explore the best methods to ease the congestion.</i>	

24/37	DOT	Conduct traffic or parking studies	<i>15th AVENUE and 16th AVENUE- These are both two-way Avenues that are always busy and plagued by double parked vehicles making the street virtually impassable. A study exploring the possibility of converting it to a one way street, or another solution, to ease traffic is needed.</i>
25/37	DOT	Provide new traffic or pedestrian signals	<i>Expand the Traffic Engineering Department to be able to conduct traffic studies more expeditiously. The response to all our DOT expense requests was that further study is required. This is what we ask.</i>
26/37	DPR	Forestry services, including street tree maintenance	<i>PARKS advised that the funds to repair sidewalks damaged by trees was increased. However, this increased funding has not yet resulted in actual repairs. We request PARKS repair the sidewalks damaged by trees as they said they would. Some of these areas are extremely dangerous for pedestrians and have been waiting for repairs for a very long time.</i>
27/37	DOHMH	Animal and pest control requests including reducing rat and mosquito populations	<i>There is exponential growth in the rat population throughout our district. Especially along commercial areas as well as along Washington Cemetery. The pigeon population's growth is a health concern that needs addressing.</i>
28/37	DPR	Enhance park safety through more security staff (police or parks enforcement)	<i>Funding is needed for Parks Personnel to lock all parks in our district after dusk. Elected officials have contributed huge sums of money to upgrade our parks into state-of-the-art facilities that are pleasant outdoor spaces for children. However, the lack of security attracts an element to the parks that deters youth from wholesome play. It's a shame to have the capital expenditures go to waste due to security concerns.</i>

29/37	SBS	Other workforce development requests	<i>Employment- We have a large population of residents in our district that aren't college educated. Investing in targeted vocational training in this district is a priority that would go a long way towards raising the current low incomes many families are experiencing. Our residents are smart and capable. They would benefit from training with an emphasis on high paying and emerging skills. There are no Work Force 1 (WF1) centers close enough to service the district, therefore providing funding to fill the gap is appropriate.</i>
30/37	HRA	Other expense budget request for HRA	<i>Since we know HRA is unlikely to bring a center to our district, we ask that HRA send professionals to our office to assist our residents. In the past, they said they 'will continue to explore this request...' HRA clarified that they can provide training programs, but that is not this request. We ask for a program where HRA staff can provide on-the-spot assistance. Our residents need accessible HRA personnel with knowledge of specifically tailored programs. We have a fully equipped and enclosed space where HRA staff can help those who need it. Access HRA works for those who have the technological knowledge needed, but it does not help many of our most needy residents who don't have the computer literacy needed to use it.</i>
31/37	DOHMH	Create or promote programs to de-stigmatize mental health needs and encourage treatment	<i>Our CBOs require additional funding for mobile crises and access to other mental health programs. Additional funding is needed for daycare centers for special needs children.</i>
32/37	DCP	Study land use and zoning to better match current uses or neighborhood character	<i>One of the major issues plaguing the district is the lack of affordable housing. To that end, we request some long overdue studies of commercial areas in our district, specifically the commercial strip spanning 60th street, for the purposes of being rezoned for residential development with a major focus on affordable housing.</i>

33/37	DFTA	Funding for a new senior center program	<i>The centers for older adults in our district require funding for essential senior programming. Centers have modernized their programming to accommodate the newer generation of seniors. There are younger seniors (65-75) who are recently retired or lost jobs because of Covid. They require stimulating programming and meaningful activities to improve their lives. Our kosher residents require kosher centers, which are unfortunately severally underfunded. The changing demographics of seniors require adaptations by the centers, for example, centers are seeing an increase in Polish-speaking seniors and so require translation services for them. Last year we were told that further study is needed. We request this study.</i>
34/37	DOHMH	Animal and pest control requests including reducing rat and mosquito populations	<i>There is a plague of mosquitos in our streets from spring through fall. We need to have more mosquito spraying to combat it. There are the inevitable small pools of standing water throughout the district which are breeding grounds. Spraying is necessary to keep the mosquito population to a bearable amount.</i>
35/37	DYCD	Other expense budget request for DYCD	<i>Our Community-Based Organizations' essential programs depend upon DYCD funding. This is a lifeline for our residents. There are some programs that require an increase in funding. Specifically: The food pantry programs, the crisis division programs, and general social services. Our CBOs have excellent digital literacy programs that are underfunded. An improvement in digital literacy leads to an improvement in access to information and therefore an improvement in almost every aspect of life.</i>
36/37	DFTA	Other senior center program requests	<i>Our community-based organizations need an increase in SOS Supporting our Seniors Initiative funding. This is targeted specifically to take seniors through the process of applying for programs they are newly qualified for such as Medicare, SSI, and Social security benefits. As well as need-based programs they may qualify for based on a reduction in income, such as Medicaid and SNAP.</i>

37/37

DOE

**Other expense
budget request for
DOE**

We require additional resources for early intervention and child daycare centers. Both to increase the chances of improving development delays in children and to provide child care for our working parents.

8. COMMUNITY BOARD BUDGET REQUESTS *WITH AGENCY RESPONSES*

Capital Requests

PRIORITY	AGENCY	CB REQUEST	REASON	AGENCY RESPONSE
01/10	DOT	Roadway maintenance (i.e. pothole repair, resurfacing, trench restoration, etc.)	<i>We request an increase in funding for annual street repaving. Not enough of our broken streets are repaired. This damages passing vehicles and underground infrastructure and is a safety hazard for pedestrians.</i>	Please contact the Borough Commissioner with the specific location(s) of concern.
02/10	DOT	Improve traffic and pedestrian safety, including traffic calming	<i>We request a pedestrian crossing for the Ave. K & Ocean Parkway intersection. As of now there is no pedestrian crossing for 2/5th of a mile, from Ave. J to Ave. L. It is a matter of public safety to install a traffic light that allows pedestrians to cross safely. A traffic light will slow traffic on this stretch where cars routinely speed up because there are no traffic calming measures in place. There has been an increase in midnight drag racing, donuts, and speeding. A traffic light and crosswalk would go a long way to solving this problem. This item was recommended for further study last year, we request the same.</i>	Further study by the agency of this request is needed.
03/10	DOT	Improve traffic and pedestrian safety, including traffic calming	<i>There is a large school near 13th Ave and 36th St. that necessitates crossing 36th St. for most students. And although the area has been dedicated a school zone, there is no traffic calming devices for the entire stretch of 36th St. from Church Ave. (past Clara, Tehama, and Louisa Street) all the way until 12th Ave. Another school is coming to this area, which will make it even more important to have the area safe. We need a crosswalk at 36th St. and 13th Ave., with some mechanism to have cars stop for pedestrians to cross.</i>	Further study by the agency of this request is needed.
04/10	DOT	Reconstruct streets	<i>37th Street between 14th & 15th Avenues is dire need of reconstruction. CB12 has requested funding for this project (FY2018 212201807C, FY2022 212202204C). We were told this would not qualify as a standard street repaving because of the unique aspects of this street, such as the absence of curb cuts. This street is plagued with potholes, sink holes, and cracked streets that are dangerous to motorist as well as pedestrian crossings. The unattended potholes and various depressions lead to flooding with every rainstorm. We are repeatedly told there isn't any funding and we should request from elected officials. Elected Officials don't have the money to fund such a project. This is a necessary infrastructure upgrade.</i>	Capital funding constraints, project capacity and City-wide priorities preclude this project at this time.

05/10	DPR	New equipment for maintenance	<p><i>We request a mini-packer to service Ocean Parkway Malls which is a forgotten PARKS property, rarely maintained without allocated resources. This ~5-mile-long bike and pedestrian path runs through a high-density area. This is a park of choice for elderly residents, dog walkers, walkers, and joggers, and the only bike path in our area. But the strip is dirty, overgrown, cracked, and neglected. We advocated for waste baskets in response to many complaints. But, we learned there's a faulty mini-packer so the trash isn't collected.</i></p> <p><i>Though it is an unconventional park, it is essential to the quality of life of thousands. Last year we were told this should be brought to elected officials. As an essential city service, our residents should be able to depend on the regular city budget for this.</i></p>	Unclear what request is for. More staff? More vehicles?
06/10	NYCTA	Improve accessibility of transit infrastructure, by providing elevators, escalators, etc.	<p><i>There are large numbers of young children, senior citizens, mothers with strollers, and individuals with mobility challenges (often with walkers or wheelchairs) who have a hard time getting onto the train platforms. There is an urgent need to install elevators at the D and F lines. Though the F line is slated to have the Ave. I stop accessible by 2024, the 18th Ave. and McDonald Ave. station is where transfers to several bus lines are available. Accessibility is needed at the 50th St. and New Utrecht Av. station on the D line. It is the closest subway station to Maimonides Medical Center, a level 1 Trauma Center as well as one of the most oft-used birth centers in New York State. NYCTA should add these stations to their priority lists.</i></p>	More information is needed from the community board before making a funding decision. The community board should contact the agency.
07/10	NYPD	Renovate or upgrade existing precinct houses	<p><i>The request for a new 66 Precinct Station House has been a budget request for over 37 years. Funding was eliminated for a project proposal to construct a new 66 Precinct Station house in the FY 12 budget. As it stands now, the precinct house is probably the smallest in the city and cannot service the offices. The precinct house needs to either be expanded, rebuilt or moved entirely to a new larger location.</i></p>	The Department can not fund this request at this time and recommends that the Community Board contact elected officials for the funding.
08/10	DPR	Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)	<p><i>COL. MARCUS PARK - A comfort station in the playground area is needed. Numerous children and adults must cross East 5th Street to go to the other side of the park in order to use the restrooms. This is a highly trafficked street. A restroom, especially for the children using this park, is essential to this playground.</i></p>	This project has not been funded.
09/10	DPR	Provide a new or expanded park or amenity (i.e. playground, outdoor athletic field)	<p><i>Rappaport Playground (53rd Street & Fort Hamilton Parkway) is the only roller hockey rink left in Brooklyn and it's in dire need of a new one, due to the use of rink. Also, the panels surrounding the rink need to be replaced.</i></p>	This project has not been funded.
10/10	DPR	Other capital budget request for DPR	<p><i>BRIZZI PARK- Brizzi Park needs a comfort station. Additionally, the rubber mats are buckling and need to be replaced.</i></p>	This project has not been funded.

Expense Requests

PRIORITY	AGENCY	CB REQUEST	REASON	AGENCY RESPONSE
01/37	DSNY	Increase enforcement of illegal dumping laws	<i>There has been an increase in dumping. A few hotspots require consistent attention. Increasing enforcement is an essential deterrent. A \$4,000 violation as an actual probability, instead of a mythological possibility, may deter would-be violators. The dumping breeds unsanitary conditions and rodents. Hotspots are: along the Washington Cemetery (20th & 21st Ave. Bay Pkwy., McDonald Ave.), along the LIRR on 61st St. bw 11th & 12 Ave., on 56th St bw 15th & 16th Ave., and 55th St. bw 16th & 17th Ave. We've been told funds are unavailable. Since then DSNY has implemented a camera program to catch offenders, we request funding to place a few cameras in strategic locations to help alleviate this problem. We need enforcement to work closely with the Super and CB12 to best place cameras.</i>	Although the Department of Sanitation supports this program, due to fiscal constraints the availability of funds is uncertain.
02/37	DPR	Provide better park maintenance	<i>Ocean Parkway is a highly trafficked Special District. The beauty of Ocean Parkway must not be allowed to deteriorate. Some of our elected officials have designated monies for the upgrade and beautification of the Malls. Maintenance must be ongoing to make sure the upgrades and beautification remain intact. In order to maintain this arena in a sanitary and groomed condition, a crew should be assigned to maintain this thoroughfare and prevent homeless people from sleeping on the benches. An additional crew cab truck is requested to transport them the length and breadth of this roadway. The Malls and trees must receive regular attention so that the Parkway can be properly maintained.</i>	This would require a larger expense budget.
03/37	DOT	Other traffic improvement requests	<i>NYC.gov states there are 150 HIQA inspectors. Their mission statement includes ?increas(ing) the level of safety for both pedestrian and vehicle travel?? and ?expedit(ing) the flow of traffic, for both pedestrian and vehicular traffic around the construction zones.? Street permit stipulations are often ignored, leading to chaos. It is necessary to increase the number of HIQA inspectors to ensure compliance. DOT often doesn't send an inspector quickly enough to be an effective remedy. More inspectors and quicker action will be immensely helpful. HIQA can come hours later- after construction is complete. Further, an inspector should be permanently assigned to the CB12 area to coordinate with the board for effective permit compliance. This was denied last year. The condition persists.</i>	No study is recommended or planned at this time.

04/37	DPR	Forestry services, including street tree maintenance	<i>Although PARKS maintain a 7-year pruning cycle, oftentimes trees fall into disrepair before the 7 years are out. The incidents with falling trees or branches has been rising in our district due to delay in treatment of sick and dying trees. The storms of the last few months highlighted the devastation caused by falling trees. Other than the damage to property, both personal and government, the trees also lead to downed wires. The outages are very disruptive and costly. We request additional resources to provide for a safe timeframe to check on the health of trees specifically to prevent them from falling during severe weather conditions. Additionally, the timeline for the replacement of trees is very long. We request additional resources to speed up the process.</i>	This would require a larger expense budget.
05/37	DSNY	Other garbage collection and recycling requests	<i>We are asking for a truck dedicated to servicing our district's schools. We request funding for a dedicated truck to ensure all the waste can be collected daily. One shared CB12-CB14 truck cannot sufficiently service the amount of trash generated daily. The shared truck does not have adequate space and routinely provides incomplete collections, as it fills up before finishing the route. A truck is needed to remedy the quality of life and public health concerns of decaying foods.</i>	The Bureau of Community Affairs (BCA) includes our Community Liaison Unit which works with community boards, elected officials and community groups/organizations to promote DSNY programs, services, and proper practices. The Community Board may contact BCA at 646-885-4503 with any concerns.
06/37	DSNY	Provide more frequent garbage or recycling pick-up for schools and institutions	<i>Public schools have daily trash collection. Private schools that serve ~100k children 3 meals daily year-round have twice weekly pickups. We request funding for sanitation employees to service daily trash collection for ALL schoolchildren in CB12. Enrollment in private schools outnumbers public school enrollment here. Daily school trash pickups must be implemented to remedy the quality of life and public health concerns of decaying foods. The FY22 (212202001E) response was that this is not a budget request, yet DSNY continues to deny this service claiming a lack of funding. Last year, FY23 (212202301E), this was not recommended for funding. We respectfully request reconsideration.</i>	This is not a budget request. The matter in question is an issue of service delivery and/or agency policy. Contact the Department of Sanitation to determine how best to resolve this issue.

07/37	DOT	Other traffic improvement requests	<p><i>We request DOT upgrade street signs and markings as needed. Specifically, the traffic light on 60th St and 13th Ave. Drivers on 13th Ave heading south must turn left or right when they get to the 60th St intersection because 13th Ave. becomes a ONE-WAY street. Multiple vehicles go the wrong way southbound from 60th St to 59th St. Drivers need easily visible direction ON the traffic light; either a sign indicating only turns are allowed or lights with arrows turning right or left. This was requested in FY22 and we were told that ?work on this project/program was completed in FY 21?, but it hasn?t. The problem persists and can be fixed with a sign directed to the drivers who drive the wrong way. We asked the Boro Commissioner, per the response when this request was denied, to no avail.</i></p>	The Borough Commissioner's office has reviewed this request. This request has been denied. Please contact the B/C's office for further details.
08/37	NYPD	Hire additional traffic enforcement agents	<p><i>TCAs (Traffic Control Agents): Our district is in dire need of Traffic Control Agents assigned to float to areas of concern throughout our district. Areas of specific concern are 18th Avenue from 45th Street to Ocean Parkway, 15th Avenue from 42nd Street to 45th Street, 14th Avenue from 49th Street to 42nd Street, 13th Avenue from 39th Street to 54th Streets, Avenues I and J from McDonald Avenue to Coney Island Avenue, Fort Hamilton Parkway from 36th Street to 46th Street. These are a few of the notoriously congested areas. The locations are subject to change based on seasonal traffic and other variables. The traffic congestion and horn honking are severe, especially during the AM and PM rush hours. We were told that NYPD is working to fill vacancies, and we ask for an update.</i></p>	Based on the latest budget, the NYPD has a specific budgeted headcount. The agency is working on filling vacancies in order to get to that headcount.
09/37	DEP	Inspect storm sewer on specific street segment and service, repair or replace as needed	<p><i>17th Ave. and 60th St., New Utrecht Ave., and 55th St. are areas with frequent flooding that require DEP to take a closer look to determine the cause. These areas may need catch basin infrastructure upgrades and not only cleaning. Last year we were told further study is needed, it?s been a year and the problem has gotten worse.</i></p>	Further study by the agency of this request is needed.
10/37	DEP	Clean catch basins	<p><i>Consistent cleaning of catch basins is essential. The recent storms have shown that the reactive method of cleaning is not working. We have consistent flooding all over the district every time it rains. The resulting flooding is disruptive for days. All the catch basins need to be cleaned before they are reported as a problem.</i></p>	The agency will accommodate this issue within existing resources.

11/37	NYPD	Other NYPD programs requests	<i>We request resources to remove vehicles that are parked on residential streets. We need increased use of, or a dedicated, NYPD tow truck to remove offending vehicles. Parking is scarce in our district, and illegally parked vehicles make it more so. Laws are ineffective if not enforced. These vehicles create unsafe conditions when large trucks park on dark, quiet streets. Large groups hanging out and lewd behavior are hidden by trucks on quiet streets, which creates a perfect scenario for people with bad intentions. Our residents deserve to park at night and walk at night without fear. We've been told to bring this to the attention of the precinct. We have, repeatedly. We ask for a top-down approach to resolve this issue.</i>	Specific crime problems, drug activity and quality of life conditions should be brought to the attention of the local Precinct Commander.
12/37	NYPD	Hire additional staff to address specific crimes (e.g. drug, gang-related, vice, etc.)	<i>We are requesting an increase in officers to focus specifically on enforcement of mopeds, electric bikes, and electric assist bicycles on sidewalks and bike paths. With the explosion of moped share companies and other electric capable bikes comes the risk of pedestrian injury. These riders should be on the streets- but it is impossible to walk 3 blocks on city sidewalks without needing to dodge such vehicles. Another problem is the danger to cyclists on the Ocean Parkway bike lane. Bike lanes are meant for cyclists, e-bikes included, not mopeds. In this climate of transportation alternatives advocacy it is incumbent upon us to make the existing bike lanes safe. But, cyclists getting hit by mopeds is a too frequent situation.</i>	NYPD's total uniformed staffing levels depend on decisions made in the Preliminary and Executive Budget process. Allocation of uniformed personnel is scheduled by the agency only after graduation of police classes from the Academy.
13/37	DSNY	Other garbage collection and recycling requests	<i>We are requesting the return of a permanent cleaning officer to the district. Currently BK12 does not have a dedicated cleaning officer. Such an officer would go a long way to remedy the chronic littering in high litter areas.</i>	This is not a budget request. The matter in question is an issue of service delivery and/or agency policy. Contact the Department of Sanitation to determine how best to resolve this issue.
14/37	DSNY	Other cleaning requests	<i>We are requesting an increase from 5 broom routes to six broom routes on Monday, Tuesday, Thursday and Friday.</i>	This is not a budget request. The matter in question is an issue of service delivery and/or agency policy. Contact the Department of Sanitation to determine how best to resolve this issue.
15/37	DSNY	Other garbage collection and recycling requests	<i>We are requesting a dedicated MLP route once a week which will go a long way in helping clean up the various locations where garbage is building up at an alarming rate.</i>	This program is currently funded and the Department of Sanitation recommends its continued support.
16/37	DSNY	Other garbage collection and recycling requests	<i>We request cameras mounted on Sanitation Truck to ensure essential services are provided properly. We also request photos attached to sanitation violations when issued to residents.</i>	DSNY will evaluate this request.

17/37	DSNY	Provide more frequent garbage or recycling pick-up	<i>We are requesting the mechanical sweeper on the 12 am to 8 am midnight shift six days a week be returned (it has been taken away on 7/1/2017 in the FY18 budget) this sweeper effectively cleans the district. Our district constantly rates low on the scorecard and this should help maintain cleanliness throughout the district.</i>	Although the Department of Sanitation supports restoration of this program, due to fiscal constraints the availability of funds is uncertain.
18/37	DSNY	Provide more on-street trash cans and recycling containers	<i>There are commercial areas that generate huge amounts of food garbage or are bus stops/transportation hubs. In many cases, there are numerous restaurants, etc., along a given corridor now (7-11, KFC, Dunkin Donuts, other coffee shops, etc.), yet only one or two bins are available in the surrounding area. We request that DSNY add adequate numbers of bins at critical points along Coney Island Avenue and Church Ave. Church Ave and Coney Island Ave Church Ave and East 8th St Church Ave and East 7th St Coney Island Ave and Caton Ave Coney Island Ave and Beverley Road Coney Island Ave and Ave C Coney Island Ave and Cortelyou Road.</i>	This is not a budget request. The matter in question is an issue of service delivery and/or agency policy. Contact the Department of Sanitation to determine how best to resolve this issue.
19/37	DOT	Conduct traffic or parking studies	<i>Traffic is very congested along 18th Ave., specifically from 45th Street to Ocean Parkway and especially during morning hours. 18th Ave., an already major thoroughfare, intersects with McDonald Ave. where the F line subway station is. This creates both vehicular and pedestrian traffic. We are requesting a thorough engineering study to determine the feasibility of certain measures to alleviate the strain. For instance, the possibility of adding an additional lane with interchangeable directions depending on the time of day (as is done at various locations in other cities) or adding turning lanes.</i>	The Borough Commissioner's office has reviewed this request. This request has been denied. Please contact the B/C's office for further details.
20/37	DOT	Conduct traffic or parking studies	<i>13th Ave. is the commercial shopping Mecca in CB12. People come from all over to shop here due to its ethnic flavor. On any given day, more than 10k people traverse this shopping strip. Parking is at a premium. It can take an hour to pass through the 23 blocks of this shopping strip. 13 Ave. hasn't been redesigned in over 21 years and is in dire need of a thorough engineering study to determine the best measures to ease the traffic and parking congestion nightmare, especially during rush hours. We request such a study to determine the feasibility of certain ideas. For instance, the possibility of adding an additional lane with interchangeable direction depending on the time of day or adding turning lanes and maybe eliminating parking at certain times to increase traffic flow.</i>	More information is needed from the community board before making a funding decision. The community board should contact the agency.

21/37	DOT	Conduct traffic or parking studies	<i>A complete traffic study on Avenue J from McDonald Avenue to Coney Island Avenue is needed as well, especially at the intersection of Avenue J and Bay Parkway where there is a constant bottleneck. The streets aren't aligned so sometimes drivers may find themselves continuing into a non-existent lane. There is severe congestion during both AM and PM rush hours. It can take a very long to travel this strip, especially from the Bay Parkway intersection to Ocean Parkway.</i>	More information is needed from the community board before making a funding decision. The community board should contact the agency.
22/37	DOT	Conduct traffic or parking studies	<i>A complete traffic study on Avenue I from McDonald Avenue to Coney Island Avenue is needed. There is severe congestion as well as horn honking during both AM and PM rush Hours. It can take up to one hour during rush hours to travel this strip.</i>	More information is needed from the community board before making a funding decision. The community board should contact the agency.
23/37	DOT	Conduct traffic or parking studies	<i>There are many private and public schools along Fourteenth Avenue that transport children to and from school by buses. This leads to congestion during morning and afternoon bus traffic. A study is needed to explore the best methods to ease the congestion.</i>	More information is needed from the community board before making a funding decision. The community board should contact the agency.
24/37	DOT	Conduct traffic or parking studies	<i>15th AVENUE and 16th AVENUE- These are both two-way Avenues that are always busy and plagued by double parked vehicles making the street virtually impassable. A study exploring the possibility of converting it to a one way street, or another solution, to ease traffic is needed.</i>	The Borough Commissioner's office has reviewed this request. This request has been denied. Please contact the B/C's office for further details.
25/37	DOT	Provide new traffic or pedestrian signals	<i>Expand the Traffic Engineering Department to be able to conduct traffic studies more expeditiously. The response to all our DOT expense requests was that further study is required. This is what we ask.</i>	More information is needed from the community board before making a funding decision. The community board should contact the agency.
26/37	DPR	Forestry services, including street tree maintenance	<i>PARKS advised that the funds to repair sidewalks damaged by trees was increased. However, this increased funding has not yet resulted in actual repairs. We request PARKS repair the sidewalks damaged by trees as they said they would. Some of these areas are extremely dangerous for pedestrians and have been waiting for repairs for a very long time.</i>	This project has not been funded.
27/37	DOHMH	Animal and pest control requests including reducing rat and mosquito populations	<i>There is exponential growth in the rat population throughout our district. Especially along commercial areas as well as along Washington Cemetery. The pigeon population's growth is a health concern that needs addressing.</i>	The agency will try to accommodate this issue within existing resources.
28/37	DPR	Enhance park safety through more security staff (police or parks enforcement)	<i>Funding is needed for Parks Personnel to lock all parks in our district after dusk. Elected officials have contributed huge sums of money to upgrade our parks into state-of-the-art facilities that are pleasant outdoor spaces for children. However, the lack of security attracts an element to the parks that deters youth from wholesome play. It's a shame to have the capital expenditures go to waste due to security concerns.</i>	This would require a larger expense budget.

29/37	SBS	Other workforce development requests	<i>Employment- We have a large population of residents in our district that aren't college educated. Investing in targeted vocational training in this district is a priority that would go a long way towards raising the current low incomes many families are experiencing. Our residents are smart and capable. They would benefit from training with an emphasis on high paying and emerging skills. There are no Work Force 1 (WF1) centers close enough to service the district, therefore providing funding to fill the gap is appropriate.</i>	The agency will accommodate this issue within existing resources.
30/37	HRA	Other expense budget request for HRA	<i>Since we know HRA is unlikely to bring a center to our district, we ask that HRA send professionals to our office to assist our residents. In the past, they said they 'will continue to explore this request...' HRA clarified that they can provide training programs, but that is not this request. We ask for a program where HRA staff can provide on-the-spot assistance. Our residents need accessible HRA personnel with knowledge of specifically tailored programs. We have a fully equipped and enclosed space where HRA staff can help those who need it. Access HRA works for those who have the technological knowledge needed, but it does not help many of our most needy residents who don't have the computer literacy needed to use it.</i>	Contact the Community Board Unit at OMB for information regarding this request.
31/37	DOHMH	Create or promote programs to de-stigmatize mental health needs and encourage treatment	<i>Our CBOs require additional funding for mobile crises and access to other mental health programs. Additional funding is needed for daycare centers for special needs children.</i>	DOHMH contracts with and oversees a wide variety of mental health and substance abuse services throughout NYC. Feel free to contact the Department with specific questions about services.
32/37	DCP	Study land use and zoning to better match current uses or neighborhood character	<i>One of the major issues plaguing the district is the lack of affordable housing. To that end, we request some long overdue studies of commercial areas in our district, specifically the commercial strip spanning 60th street, for the purposes of being rezoned for residential development with a major focus on affordable housing.</i>	More information is needed from the community board before making a decision. The community board should contact the DCP Borough Office
33/37	DFTA	Funding for a new senior center program	<i>The centers for older adults in our district require funding for essential senior programming. Centers have modernized their programming to accommodate the newer generation of seniors. There are younger seniors (65-75) who are recently retired or lost jobs because of Covid. They require stimulating programming and meaningful activities to improve their lives. Our kosher residents require kosher centers, which are unfortunately severely underfunded. The changing demographics of seniors require adaptations by the centers, for example, centers are seeing an increase in Polish-speaking seniors and so require translation services for them. Last year we were told that further study is needed. We request this study.</i>	Further study by the agency of this request is needed.

34/37	DOHMH	Animal and pest control requests including reducing rat and mosquito populations	<i>There is a plague of mosquitos in our streets from spring through fall. We need to have more mosquito spraying to combat it. There are the inevitable small pools of standing water throughout the district which are breeding grounds. Spraying is necessary to keep the mosquito population to a bearable amount.</i>	DOHMH continues to increase the number of inspections performed annually. We also continue to respond to all 311 complaints and readily participate in walk-through events requested by the community in areas of concern. Feel free to contact us to request a walk-through. Additional services would be contingent upon available resources.
35/37	DYCD	Other expense budget request for DYCD	<i>Our Community-Based Organizations? essential programs depend upon DYCD funding. This is a lifeline for our residents. There are some programs that require an increase in funding. Specifically: The food pantry programs, the crisis division programs, and general social services. Our CBOs have excellent digital literacy programs that are underfunded. An improvement in digital literacy leads to an improvement in access to information and therefore an improvement in almost every aspect of life.</i>	Presently, there are a variety of agency-funded programs in the district for this target population. Additional programs are contingent upon available funding and will be distributed through an RFP process. Organizations are encouraged to apply.
36/37	HRA	Other senior center program requests	<i>Our community-based organizations need an increase in SOS Supporting our Seniors Initiative funding. This is targeted specifically to take seniors through the process of applying for programs they are newly qualified for such as Medicare, SSI, and Social security benefits. As well as need-based programs they may qualify for based on a reduction in income, such as Medicaid and SNAP.</i>	HRA provides services in its centers for seniors and others to apply for Medicaid and SNAP. Medicare, SSI and Social Security Benefits are federal programs and are not under our jurisdiction
37/37	DOE	Other expense budget request for DOE	<i>We require additional resources for early intervention and child daycare centers. Both to increase the chances of improving development delays in children and to provide child care for our working parents.</i>	Contact the Community Board Unit at OMB for information regarding this request.
