## INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

This report is broadly structured as follows:

### 1. Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

### 2. Policy Area-Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

### 3. Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY24 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

**Statement on Data Accuracy**

Under Title 13 of the U.S. Code, the Census Bureau is legally bound to protect the privacy of individuals participating in the decennial census. To adhere to the law and to avoid the disclosure of information about individual respondents, the Census Bureau has historically applied a host of techniques, such as top- and bottom-coding, imputation, table- and cell-suppression, and data swapping. The Census Bureau is employing a new technique with the 2020 Census, referred to as the Disclosure Avoidance System (DAS), based on differential privacy. With this approach, the Census Bureau “infuses noise” systematically across census data and sets a quantified disclosure risk, referred to as the Privacy Loss Budget (PLB).

While the new DAS approach may diminish the risk of disclosure concerns, it comes at a cost to data accuracy. Consequently, 2020 Census data users should be aware that all sub-state counts, except for housing units (which are unaffected by the DAS), may be adjusted to protect the privacy of Census participants and may be subject to reduced accuracy. Because DAS noise infusion is randomized, it is impossible for data users to know the degree to which any individual statistic is altered. However, it is possible to say that in general the relative size of errors decreases as counts increase. Consequently, data users should have greater confidence in the accuracy of the data as counts get larger. Further, an evaluation of a Privacy-Protected Microdata File (PPMF), treated with a Disclosure Avoidance System like the one applied to 2020 redistricting data, showed that counts of 300 or more rarely have sizable errors (error beyond +/- 10% of the count). Therefore, while data users need to be cognizant of data accuracy limitations, they should have confidence in conclusions based on sizable counts, which are relatively unaffected by the Census Bureau’s latest disclosure avoidance method.

### 3. OVERVIEW OF COMMUNITY DISTRICT

Bronx Community Board 7 (CB7) is made up of the neighborhoods of Bedford Park, Fordham, Kingsbridge Heights, Norwood, and University Heights. The district extends from Webster Avenue at the East to Goulden Avenue and the Harlem River to the West. The North end boundary of the district starts from the south end of Woodland Cemetery (E 211th Street) to Fordham Road and West 183rd Street on the South end. The area is served by two subway lines, D and 4, and Metro-North service from/to Westchester County and Grand Central Station. There are several major institutions that are our neighbors, such as Lehman College, Montefiore Hospital and the New York Botanical Garden. The Community Board is also home to two recognizable high schools, Bronx High School of Science and DeWitt Clinton High School and 34 public schools. Nonetheless, the number of school seats available in our community is a major issue of concern for local residents.

Among all New York City Community Boards, CB7 has the 4th highest percentage of households with children under 18 years old. In fiscal year 2018, the School Construction Authority (SCA) had identified the need for more than 2,000 seats in the 5 neighborhoods within the boundaries of CB7. As of this date the available number of school seats has remained the same; and the creation of additional seats has not kept pace with our growing youth population and new housing development. In the upcoming years the district will see a surge of over 3,000 additional residential units (based on DOB data). As a result, the quality of learning in most of our schools, which are already experiencing overcrowding, will be further impacted and continue to grow into a more serious problem.

Additionally, the district is densely populated with approximately 73,000 residents per square mile. Approximately 45% of the residents in the community are foreign born and have limited English Proficiency (35%). They mainly live in rental units in multi-family buildings that make up about 97% of the neighborhoods. Homeownership has been on the decline in recent years with only 6% of the district owning a home, condo or cooperative. Many of the private homes in our neighborhoods have disappeared to make way for new residential buildings with Supportive and Affordable Housing Units. These new developments take advantage of zoning laws to build taller buildings, in order to maximize the number of units. We (CB7) would like to ensure housing is being built responsibly to accommodate the current fabric of our neighborhoods and population growth by increasing municipal services. While the district has some of the most affordable market rental housing in the city, our district also has a history of high eviction rates and rent burden (55% of our residents pay more than 30% of their salaries in rent). Therefore, affordable mixed income housing, homeownership (open-door programs and CLT) and other subsidy programs to help tenants stay in their homes are a priority. As residential development occurs in the district, there is a need for additional municipal services, such as transportation, sanitation and parks maintenance.

Public Transportation is a major concern of the Community Board. CB7 residents must endure some of the longest commutes in the city on crowded trains and buses. Further, many services are not frequent enough to make them reliable to serve a growing population. High fares discourage residents from using the Metro-North service to access jobs in Manhattan. Additionally, provisions for services such as a shared bike program and ferry services on the Harlem River would provide the community with additional travel options.

Community residents have excellent access to neighborhood parks and green spaces, such as Mosholu Parkway and Williamsbridge Oval Park. These open spaces have experienced an increase in use and provided our residents with a relief to the lockdown experience due to the COVID-19 pandemic. This has also created more garbage and demand for sanitation services in our parks. The Bronx has always received the lowest budget allocations for service delivery. Now, during the recent budget cuts our residents have experienced a further decline in their quality of life. The overall maintenance services from the sanitation and parks departments are of special need.

## 4. TOP THREE PRESSING ISSUES OVERALL

### Bronx Community Board 7

---

The three most pressing issues facing this Community Board are:

#### **Land use trends (zoning, development, neighborhood preservation, etc.)**

CB 7 is in need of quality, mixed income housing, as housing accommodations continue to be one of the primary issues facing district residents. While the district has some of the most affordable private market rental housing in the city, many rent-stabilized and rent-controlled apartments are disappearing due to evictions and tenant turnover. To make matters worse, the district is seeing an influx of new residents who have been priced out of other neighborhoods in New York City, increasing competition for the affordable units available in the district. There is also a prevailing feeling in our district that we have received a disproportionate share of supportive housing developments, which serve a population that does not currently reside in the district.

#### **Schools**

The quality of and lack of funding for our local schools continues to be of paramount importance for our residents. The number of seats available in our community has not kept pace with the need resulting in overcrowding in many of our schools. The COVID-19 pandemic proved that access to technology and remote learning is a critical component for student learning. As we experience a significant increase in the number of residents, we task the city to support educational opportunities and add seats to accommodate our present and future students. Failure to address these inequities in educational services and resources will persist and negatively impact the ability of our students to achieve academic success. During the pandemic we saw the need for students and families to access food programs and additional technological resources such as computer equipment and Wi-Fi. Failure to address these inequities in educational services and resources will persist and negatively impact the ability of our students to achieve academic success.

#### **Other**

Insufficient Municipal Services: We have seen a dramatic increase in our population due to new residential development. However, services such as transportation, sanitation and parks maintenance have not increased to meet new demands. CB 7 needs city agencies to deliver additional services to maintain our quality of life and accommodate our population growth.

## 5. SUMMARY OF COMMUNITY DISTRICT NEEDS AND BUDGET REQUESTS

### HEALTH CARE AND HUMAN SERVICES

#### Bronx Community Board 7

---

##### Most Important Issue Related to Health Care and Human Services

###### **Services for low-income and vulnerable New Yorkers**

Communities within the Bronx consistently rank among the highest in rates of health disparities and lowest in positive health outcomes. According to the 2018 NYC Community Health profile, the rate of avoidable hospitalizations among adults in Community Board 7 is more than double the citywide rate and the adult obesity rate is 33%, which is higher than the rest of NYC. In 2020, the Covid-19 pandemic disproportionately affected Bronxites and individuals with comorbidities such as diabetes and hypertension and who were more at risk for complications. As the city moves into recovering from the COVID-19 health pandemic, Community Board 7 requests dedicated resources that are linguistically and culturally competent to educate the public about infectious diseases, and the importance of healthy lifestyles and accessing routine medical care to keep our neighbors and residents healthy and to address long-standing health disparities.

36/39	DFTA	<b>Increase home delivered meals capacity</b>	<i>Currently there are only 15 providers, citywide, serving home delivered meals in 22 catchment areas. We need to increase the number of providers and catchment areas to better serve seniors including those residing in Community Board 7.</i>

## YOUTH, EDUCATION AND CHILD WELFARE

### Bronx Community Board 7

---

#### Most Important Issue Related to Youth, Education and Child Welfare

##### **School and educational facilities (Capacity)**

Community Education Council 10, which includes most of our district, is the most overcrowded district in the Bronx. As a result, principals are now forced to transform school libraries, gymnasiums, laboratories, lunchrooms, and closets into classrooms. Students are unsuitably confined to these unorthodox spaces and as a result, there has been a significant reduction in primary and supplemental opportunities for recreation and exploration. There is substantial evidence that overcrowding has an adverse impact on learning, and our students, already impacted by other societal ills, must be provided with high quality school resources and educational facilities.

## PUBLIC SAFETY AND EMERGENCY SERVICES

### Bronx Community Board 7

---

#### Most Important Issue Related to Public Safety and Emergency Services

##### **Public Nuisance (noise, other disturbances)**

Public Nuisance (noise, other disturbances) Bronx Community Board 7 has seen a dramatic increase in public nuisance complaints. These complaints all involve our quality of life and safety for district residents. We need a coordinated effort among city agencies to step up their enforcement of illegally parked/abandoned cars, illegally motorized vehicles being recklessly driven on sidewalks and green spaces, noise complaints, loitering, and littering. Our community needs more of a positive and engaging police presence in neighborhoods with numerous complaints that improves quality of life without over policing.

## Capital Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
5/23	NYPD	<b>Provide a new NYPD facility, such as a new precinct house or sub-precinct</b>	<i>The 52nd Precinct has over 300 officers servicing the community. Currently, the Precinct is in need of a sub-precinct to accommodate the growth in personnel.</i>	

## Expense Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
30/39	NYPD	<b>Hire additional school safety agents</b>	<i>During peak and non-peak hours, traffic from the highway at the 207 Street Bridge can be difficult and unsafe to navigate. The presence of traffic agents will discourage motorists from violating traffic rules to and from the University Heights Metro North train station. The presence of traffic agents will discourage motorists from violating traffic rules.</i>	
35/39	NYPD	<b>Hire additional school safety agents</b>	<i>There is a shortage of public safety officers within our district, and Parent Associations and school administrations have expressed interest in additional safety measures for the schools. Whenever new public safety officers come in, others currently in the position either retire, quit, or get promoted to a higher paying position in another division outside of the School Safety division. Many schools like PS 86, PS 8, and others have between 2 and 3 officers on staff, yet some schools have multiple buildings, and all schools have many entrances that remain unguarded due to low numbers of officers.</i>	

## CORE INFRASTRUCTURE, CITY SERVICES AND RESILIENCY

### Bronx Community Board 7

---

#### Most Important Issue Related to Core Infrastructure, City Services and Resiliency.

##### **Cleanliness/trash collection**

The office receives a high volume of complaints related to the cleanliness of the district. Specifically, the complaints are related to dog waste, illegal dumping and cleanliness of residential and commercial areas. Enforcement of sanitation laws and a culturally sensitive public education campaign targeted to residential and commercial property owners can result in a reduction of these violations and greatly improve the quality of life for CB 7 residents.

## Expense Requests Related to Core Infrastructure, City Services and Resiliency

Priority	Agency	Request	Explanation	Location
14/39	DSNY	<b>Increase enforcement of dirty sidewalk/dirty area/failure to clean area laws</b>	<i>There is a need to increase sanitation enforcement personnel to address the trash along our commercial corridors that include, but not limited to, Fordham Road, Kingsbridge Road, Jerome Avenue, East 198th Street, East 204th, Bainbridge Avenue, and Webster Avenue. In addition, the additional personnel could also focus on the dirty sidewalks along our residential streets. An increase in enforcement in tandem with public education would be helpful in tackling the problems of littering, trash maintenance, and the proper way to keep sidewalks and streets clean on our neighborhood streets.</i>	
27/39	DEP	<b>Clean catch basins</b>	<i>Catch basins throughout the community board need servicing more frequently. Following rainstorms and or when hydrants are opened, streets are flooded and overflow onto sidewalks. ## Most Important Issue Related to Housing, Economic Development and Land Use

### **Affordable housing creation**

CB 7 residents are constantly dealing with housing and rental issues. Tenants have rights and should be afforded more services to help them address issues such as rent increases, code violations, and evictions. We see too often how our residents are living in poor conditions because landlords take rents but fail to adequately maintain their buildings. Poor living conditions can affect a household's quality of life, jobs, family well-being, and mental health. There is also a need for mixed income housing and affordable homeownership opportunities to accommodate households in different income brackets.

## TRANSPORTATION

### Bronx Community Board 7

---

#### Most Important Issue Related to Transportation and Mobility

##### **Subway service and quality (frequency, access, crowding, etc.)**

CB 7 residents must endure some of the longest commutes in the city on crowded trains and buses. Further, many services are not frequent enough to make them reliable or serve a growing population. For instance, peak express service is only provided on the D train for five hours per day. Compare this to other similar lines such as the 6 or 7, where peak express service is provided 10-14 hours per day. Infrequent bus service, even on core routes, means seniors are waiting too long for bunched buses at inadequate bus stops. Finally, high fares and infrequent service discourage residents from using the Metro-North service to access jobs in Manhattan. Additionally, provisions for services such as a shared bike program and ferry services on the Harlem River would provide additional travel options. Providing the services described above will help with the congestion of public transit and aid in the post COVID-19 pandemic recovery.

## PARKS, CULTURAL AND OTHER COMMUNITY FACILITIES

### Bronx Community Board 7

#### Most Important Issue Related to Parks, Cultural and Other Community Facilities

##### **Quality of parks and park facilities**

The district is home to a large number of parks and parkways, making it one of the greenest districts in the city. The vast amount of parkland makes it difficult to provide the necessary level of maintenance to keep the parks clean and safe. Additional investment is needed in both maintenance personnel and equipment in the district.
