Community District 09

INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

HOW TO USE THIS REPORT

This report represents Brooklyn Community Board 9's *Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2019*. This report contains the formatted but otherwise unedited content provided by the community board, collected through an online form available to community boards from June to November 2017.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

If you have questions about this report or suggestions for changes please contact:

This report is broadly structured as follows:

a) Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

b) Policy Area - Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

c) Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY19 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

Disclaimer

This report represents the Statements of Community District Needs and Community Board Budget Requests of Brooklyn Community Board 9 for Fiscal Year 2019. This report contains the formatted but otherwise unedited content provided by the community board.

Budget Requests: Listed for informational purposes only. OMB remains the definitive source on budget requests and budget request responses.

Budget Priorities: Priority numbers apply to expense and capital Budget requests from all policy areas. A complete list of expense and capital budget requests by this Board sorted by priority can be found in Section 7 of this document.

2. Community District Land Use

3. Overview of Community District

Brooklyn's Community District 9 encompasses a total land area of 1.7 sq. miles, and is one of New York's first humanly inhabited areas. The area was once the home of the Mareckkawicks (or Brooklyn Indians,) a branch of the Canarsie tribal community, which occupied Kings County and parts of Jamaica. The area was colonized by Dutch farmers from the Netherlands (Holland) in the early 17th century. Lefferts Homestead was relocated to Prospect Park from its original location on Midwood Street and Flatbush Avenue, and is a living reminder of this agricultural community which flourished in our district until the early 20th century.

Also of historic significance is Clove Road, snugly located in the middle of Montgomery Street/Empire Blvd/Nostrand Ave/New York Avenue, within Community District 9. A Phase 1A Archaeological Documentary Study of Clove Road, conducted by the RBA Group in 2002, found that Clove Road "... is eligible for the National Register of Historic Places under Criteria A based upon its association with the establishment of Kings County's 19th Century public institutions, the Alms House, Hospital, Asylum, and Penitentiary, an event that significantly contributed to the broad pattern of New York's urban history."

Present day Community District 9 includes a portion of the neighborhoods known as Crown Heights, Flatbush, Prospect Lefferts Gardens, and Wingate. Bordered by Prospect Park (Ocean/Flatbush), Eastern Parkway, Lincoln Terrace Park (Rochester/Utica), and Clarkson Avenue, the district includes such prestigious cultural institutions as the Brooklyn Museum; the Brooklyn Botanic Garden; the Brooklyn Public Library; and the Jewish Children's Museum.

Other notable institutions in the district include Kings County Hospital Center; one of the largest hospital complexes in the world, SUNY Health Science Center at Brooklyn; Kingsboro Psychiatric Center; Kingsbrook Jewish Medical Center; the SUNY Downstate Advanced Biotechnology Incubator and the SUNY Parkside Dialysis Center. Collectively, these institutions form the southern-most boundary of the district.

Medgar Evers College of the City University of New York; four high schools; four intermediate schools; eleven elementary schools (including new small schools and charter schools) make up the District's public educational system. A significant number of private and parochial schools complete the educational picture.

Only minutes by car or public transportation from downtown Brooklyn, Community District 9 is home to numerous small and medium-sized businesses and the 98,429 residents (2010 census) who live along our tree lined residential streets. Our many religious institutions include a number of large Catholic churches, a number of the oldest Protestant churches in the borough, and the World Headquarters of the Chabad Lubavitch Jewish Movement.

Families and institutions have thrived in Community District 9 for generations. Over the past five decades, this largely middle class community has undergone extensive demographic changes, creating a unique blend of people of American, Caribbean, European, Asian and Hispanic descent.

More recently, the district is seeing an emergent growth of a younger demographic: young families, as well as young single adults, have come to call this community home, due in large part to its affordability, character, and close proximity to cultural institutions, parks and public transportation.

Stimulated by an upturn in the economy and zoning that accommodates this type of construction, the district is seeing a feverish growth in new apartment building construction. While there is a very great need for housing in the district, the resulting availability of "affordable apartments" do not realistically address the needs of the district's population, 38% of whom are dependent on Federal income support, and more than half of residents spend more than 30% of their gross monthly income on rent.

Seeing the writing on the wall, the Community Board sought for the community to have a say in addressing the impact this type of growth would have on the district, by requesting a planning study, in an effort to achieve a more balanced growth/transformation of the district, and the need for realistically "affordable" housing. This study has not moved beyond the request stage.

3. Overview of Community District

Community Board 9 is acutely aware that this growth brings with it a concomitant escalation in the need for vital municipal services. Taking a critical look at our district's needs, the Board has embarked upon the formulation of a 197- a plan which sets out our vision for a better future for this community, the objectives of which are to improve the quality of life for residents through the following:

- The promotion of community safety and the reduction of crime;
- The promotion of new low-density/contextual residential development to provide both a humanly sealed built form and increased opportunity for neighborly social interaction;
- Social and cultural development;
- Improved health and social services;
- Support for the preservation, expansion and physical integration of the public parks system and educational institutions;
- Improved environment-neighborhood beautification and development of new open space resources;
- Promotion of employment and business opportunities through - The strengthening and expansion of existing retail commercial areas; - The improvement of local businesses and economic development; - A local hospital jobs program.
- The guiding of future physical and human development programs to enhance the lives of the residents.

4. Top Three Pressing Issues Overall

The three most pressing issues facing Brooklyn Community Board 9 are:

- *Affordable housing*
- *Schools*
- *Social services (including services for the homeless)*

Affordable Housing

There is a critical need for real "affordable" housing. There is rapid development in the district that is changing the character of the community and causing a surge in rents. Long term tenants are being forced out of their apartments due to rising rents. The Area Median Income guidelines for "affordable" housing is not a realistic measure for affordability. Over half of residents in CD 9 currently spend 35% or more of their income on rent. That is a serious concern in this community. More efforts are needed to preserve the existing affordable housing available to low income residents. Community Board 9 supports the need for more realistic income guidelines that would allow the working poor, the low, and moderate income groups to be able to afford adequate housing. Additionally, the Mayor's Mandatory Inclusionary Housing Program needs to demand a larger percentage of affordable units in any new construction by developers. There is also a great need for the development of senior citizen housing as that population normally does not qualify for the affordable housing offered through the lottery system because of very low fixed income.

Schools

The schools in the district are not meeting the needs of the children. Families with young children want to enroll their children in quality, local public schools in safe buildings. There is major overcrowding in all the schools, the buildings are in very poor condition and do not provide the type of environment that is conducive to learning. The school buildings are in critical need of wiring upgrades to bring them up to code and to enable the use of state of the art computer technology. The need for classrooms and afterschool space, gymnasium and auditorium upgrades and/or space (none exist in many of the district's schools, including high schools), library upgrades, handicap accessibility, Wi-Fi accessibility/upgrades, air conditioning and heating plants, among other necessities for quality education, is overwhelmingly critical.

Social Services (including services for the homeless)

Social services supports a population that would otherwise fall prey to other groups seeking to take advantage of them. Social services also many times enable homeless families and individuals to get back on their feet.

Main Issue Related to Health Care and Human Services

Services to reduce or prevent homelessness

There is a critical need for funding for tenant support programs in Community District 9. Longtime community residents are falling prey to predatory landlords who often withhold repairs and basic services from low rent paying tenants as a means to force them out of the apartments so they can rent to higher rent paying tenants. Great efforts have to be undertaken to keep senior citizens in their homes as they are becoming the most vulnerable population for eviction due to being long term rent controlled or rent stabilized tenants. Other tenants are being offered cheap buy-outs to move, often leading to homelessness because these tenants oftentimes cannot find affordable apartments elsewhere and, once the one-time payouts run out, they cannot continue to pay the new higher rents. Lack of tenants' rights education has also led to illegal evictions. Therefore, funding for homelessness prevention programs for households at-risk such as free legal services, financial assistance, and case management are a must for our district.

Community District Needs Related to Health Care Facilities and Programming

The hospitals, health centers, long-term care facilities, nursing homes in Community District 9 need the necessary resources to be able to provide much needed preventive and managed care for chronic diseases. According to the Kings County Hospital 2016 Community Health Needs Assessment, diabetes, hypertension/high blood pressure, mental illness, heart disease, high cholesterol, stroke, and cancer are the most significant community health needs. In order for our health care facilities to expand their special outreach to low-income residents, the uninsured and underinsured, and those facing other barriers, for free screening, testing, intervention, resource education, preventive and managed care, they must be provided with the proper funding.

A fold-up Ping-Pong table and exercise activity equipment for the seniors' recreational activities.</i>	<i>Community Wide</i>
24/29	DHS	<i>Improve safety at homeless shelters</i>	<i>This homeless shelter is in Community District 9 on the border with Community District 17. It is the source of numerous complaints from residents and homeowners, especially in CD 17, regarding homeless men, including sex offenders, who wander onto private property, congregate on corners, litter, urinate, and generally impact negatively on the environment. The clients at this shelter need to be provided with alternatives to this behavior, including job training, substance abuse counseling, etc., to avoid these problems being experienced by the community.</i>	<i>Kingsboro Men's Shelter 681 Clarkson Avenue</i>

Main Issue Related to Youth, Education and Child Welfare

After school programs

After school programs are a critical factor in overall child-welfare. The after school programs create a safe environment for children and young adults to socially engage in a positive way, boosts student success and helps parents maintain employment. It has been demonstrated that participants achieve more, productivity goes up, and risky behaviors goes down. After school programs could possibly reduce the risk of human trafficking, which is prevalent in Brooklyn, and other predators. According to the report "America After 3PM: From Big Cities to Small Towns - New York City After 3PM", by JCPenney Afterschool and Afterschool Alliance, 28% of children are in after school programs. NYC has numerous city funded after school programs which have grown over several years. However, the report also notes that 23% of children are in self-care and 24% are in sibling care after 3PM. This demonstrates the need to continue to increase funding in this important area. After school programs also address a secondary pressing issue, Workforce Development. Using after school programs as a workforce development strategy is critical. Many after school programs, with adequate funding, can provide job placement, workplace etiquette training, and other employment related activities. After school programs should also be extended to later hours to reduce the number of hours that youth are left to their own devices. Most youth-related crime occurs between the hours of 3PM and 8PM. Not only are recreation related programs needed but academic related programs also, such as Science, Technology, Engineering, and Mathematics (STEM) enrichment.

Community District Needs Related to Educational Facilities and Programs

School buildings in Community District 9 are in dire need of much needed resources and upgrading in the following areas: PS 92 - Upgrades to plumbing, library and auditorium; additional exterior lighting due to safety concerns; whiteboards; projectors for visual arts. PS 241 - Air conditioning in classrooms and auditorium; portable STEM labs; Technology and Wi-Fi update (Wi-Fi blocking issue); Electrical upgrade; handicap accessible auditorium; sound system in auditorium; expanded PreK (up to 6PM). PS 161 - New gymnasium; auditorium upgrade; electrical and heating upgrade; air conditioning; STEM labs; iPad carts; additional bathroom stalls; after school programs. PS 221 - Air conditioning in classrooms; auditorium upgrade; music and arts after school programs. MS 2 Parkside Prep Academy - Upgraded computer labs; Wi-Fi upgrade; culinary arts lab (only 4 stoves and refrigerator don't work so program is on hold); library upgrade; auditorium upgrade (sound system and lights specifically); cafeteria tables; space for afterschool; blind spots issues on cameras they already have. Medgar Evers Preparatory School - Need auditorium and gymnasium; additional classroom space (offices are being used as classrooms); Arts program; 3 Technology labs; Smart classrooms; Laptop carts; Saturday school. This school previously had 3 computer labs but it has been reduced to 1 - needs to get back to the 3 particularly in light of the AP courses the school offers. Although school has 2 elevators, only one is functioning. MS 61 - Upgraded auditorium (particularly air conditioning and new chairs); additional air conditioners for classroom; water coolers to replace outdated water fountains. The school also needs pest control due to rats running rampant through the auditorium and outside the school rummaging in the garbage bags placed outside for garbage pick up Brooklyn Institute for Liberal Arts - Electrical wiring upgrade; STEM labs; Technology upgrade; 3D printers, blind spots in outdoor cameras creates safety concerns.

5. Summary of Community District Needs and Budget Requests

Youth, Education and Child Welfare

Capital Requests Related to Youth, Education and Child Welfare

Priority	Agency	Request	Explanation	Location
3/22	SCA	Provide a new or expand an existing elementary school	Public School 161 is a school without a gymnasium and has an auditorium that is in need of renovation. The school needs additional bathroom stalls to meet the needs of the large student body. The entire school needs rewiring to not only be up to code, but to also enable the use of state of the art computer technology; as well as heating and air conditioning.	PS 161 - The Crown 330 Crown Street
4/22	SCA	Renovate or upgrade a middle or intermediate school	MS 61 is in dire need of renovation. The auditorium needs air conditioning and new seats. Electrical wiring upgrade is needed throughout the school. The water fountains need replacement/upgrading.	M.S. 61 400 Empire Boulevard
5/22	SCA	Renovate or upgrade a high school	Medgar Evers Prep School is in dire need of a gymnasium and an auditorium. This is a high school, and Physical Education is a requirement for graduation. The students are being denied the opportunity to participate in a proper physical education class. To fulfill these requirements, the students often do jumping jacks in the hallways and the basement; that is not acceptable.	Medgar Evers Preparatory School 1186 Carroll Street

Expense Requests Related to Youth, Education and Child Welfare

Priority	Agency	Request	Explanation	Location
1/29	DYCD	Provide, expand, or enhance after school programs for elementary school students (grades K-5)	P. S. 161 in CD 9 is in need of after school program such as Beacon.	PS 161 - The Crown 330 Crown Street
2/29	DYCD	Provide, expand, or enhance Cornerstone and Beacon programs (all ages, including young adults)	PS 221 - Toussaint L-Ouverture is in need of an after school program such as Beacon Program.	Community Wide
4/29	DOE	Assign more teaching staff	An adequate number of teaching staff is a must! Not only to provide instruction, but consideration must be given to teachers who are often times overwhelmed by the huge number of students in their class. In addition, smaller classrooms mean that children will be provided with an atmosphere that is conducive to learning with teachers who are able to focus on them and can more efficiently manage their classrooms.	Community Wide
5/29	DOE	Assign more non-teaching staff, e.g., to provide social, health and other services	Providing all the resources for a well-balanced education is important. The need is not only there for academic instruction, but the support services of health (a nurse on the premises), guidance counselors, mediation counselors, etc., are also paramount.	Community Wide

Public Safety and Emergency Services

Main Issue Related to Public Safety and Emergency Services

Traffic violations and enforcement

Traffic violations are occurring every day throughout CD 9 and putting our children and seniors at risk too often. The NYPD needs to do more about enforcement as we have too much double parking, violations of the speed limit, and drivers running red lights. With more frequent enforcement against speeding and reckless driving, NYPD can send a clear message that pedestrian safety is a priority.

Community District Needs Related to Policing and Crime

Community Board 9 still feels that more funding is needed for crime prevention programs, because of the increase in gun violence and crime activity overall. This is based on what we see and hear from our community residents and the NYPD CompStat weekly reports for our precinct. If we have more crime prevention programs that educate the community, especially our youth, work with our local precinct, elected officials, the district attorney office, than maybe we can prevent the tragedies and violence that happens in our community every year.

Capital Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
1/22	NYPD	<i>Renovate or upgrade existing precinct houses</i>	<i>The 71st Precinct is in need of renovation and upgrading. The roof leaks and needs replacement; new windows; increase service of amps in circuit breaker boxes; locker rooms floors to be redone and benches added; new lockers needed; new stove and fridge in kitchen; break room chairs; new bunk beds for Officers; replace all ceiling tiles; snake all drains in command; upgrade plumbing, heating, electrical and computer related wiring. Work stations in complaint room for victims to write on. Repave parking lot. Expand the garden area in front of the precinct. The garden is a memorial for 71st Precinct officers killed in the line of duty.</i>	<i>71st Precinct 421 Empire Boulevard</i>
9/22	NYPD	<i>Add NYPD parking facilities</i>	<i>Without question, the acquisition of space for garaging police vehicles is a critical need in the district. Currently, because of the lack of parking facilities, vehicles are parked on city streets, illegally parked on sidewalks outside the precinct making it unsafe for pedestrians. The agency must acquire the necessary space to remedy this situation</i>	<i>71st Precinct 421 Empire Boulevard</i>
11/22	NYPD	<i>Provide surveillance cameras</i>	<i>Additional surveillance cameras in Community District 9 will help to deter criminal activities, thus lower crime in the community.</i>	<i>Community Wide</i>
18/22	FDNY	<i>Other FDNY facilities and equipment requests</i>	<i>Provide additional vehicles in order for Community Affairs to expand outreach efforts.</i>	<i>Community Wide</i>

5. Summary of Community District Needs and Budget Requests

Public Safety and Emergency Services

Expense Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
10/29	NYPD	<i>Provide resources to train officers, e.g. in community policing</i>	<i>Community Board 9 would like to see the expansion of Community Policing with the necessary training provided to police officers as they seek to carry out their duties.</i>	<i>Community Wide</i>
12/29	NYPD	<i>Assign additional uniformed officers</i>	<i>The residents of Community District 9 would like to see more uniformed officers patrolling the district's streets. We would like to see the enhancement of community policing in the district, hopefully leading to better relations between the officers and the general public</i>	<i>Community Wide</i>
17/29	NYPD	<i>Other NYPD programs requests</i>	<i>Additional funding is needed for the Auxiliary Program in order to successfully run this program: CB 9 advocates for funds for purchase of new bicycles; the purchase of new bullet resistant vests; purchase of additional vehicles; expandable batons for auxiliaries; and for purchase of Recruitment Materials and Banners.</i>	<i>Community Wide</i>
18/29	FDNY	<i>Provide more firefighters or EMS workers</i>	<i>Increase the number of Fire Marshalls in order to decrease the amount of time it takes to complete fire investigations. Increase FDNY uniformed personnel and Community Affairs staffing workforce to adequately service each community throughout the City of New York.</i>	<i>Community Wide</i>
19/29	FDNY	<i>Expand funding for fire prevention and life safety initiatives</i>	<i>The district has seen multiple fires which has not only destroyed property but lives over the past several years. Fire Safety and fire prevention education and outreach is critically important in making people aware how they can prevent fires and protect their families and property. Increase funding for the Get Alarmed NYC program to expand the program.</i>	<i>Community Wide</i>
23/29	NYPD	<i>Provide additional patrol cars and other vehicles</i>	<i>The 71st Precinct Community Council is in need of a passenger van to transport senior citizens to the precinct's council meetings.</i>	<i>71st Precinct 421 Empire Boulevard</i>
26/29	NYPD	<i>Assign additional traffic enforcement officers</i>	<i>Additional traffic enforcement officers are needed in order to adequately address traffic violations, so that our streets can be safer.</i>	<i>Community Wide</i>
28/29	NYPD	<i>Increase resources for youth crime prevention programs</i>	<i>Enhancing and expanding the Explorers Program, the PAL, as well as other youth crime prevention programs would greatly bolster efforts to prevent/reduce youth crime in the community.</i>	<i>Community Wide</i>
29/29	NYPD	<i>Assign additional crossing guards</i>	<i>There are not enough crossing guards to be assigned to the schools in the district. For years and years, there have been shortages of school crossing guards. This is such a critical job! Surely the agency must have a very good idea why this shortage persists year after year. As such actions must be taken to correct the problems associated with filling and keeping school crossing guards. Our children's very lives depend on them.</i>	<i>Community Wide</i>

Main Issue Related to Core Infrastructure, City Services and Resiliency

Cleanliness/trash collection

It's essential that DSNY increase litter basket pick ups on all the main avenues in Community District 9. There are museums, tourists attractions, parades, marathons, and religious pilgrimages in Crown Heights, which draws hundreds of thousands of visitors yearly. A recent review by CB9's Environmental Protection Committee of Kingston Avenue, from Union to Montgomery Streets, documented large amounts of trash in the streets caused by container overflow. The same situation exists along Nostrand Avenue, from Eastern Parkway to Clarkson Avenue, and on Flatbush Avenue, from Empire Boulevard to Parkside Avenue. Additional personnel, trucks and litter baskets are needed; in addition to more frequent pick ups.

Community District Needs Related to Water, Sewers and Environmental Protection

The population in Community District 9 is increasing due to the conversions of one and two-family homes into new 10 plus units apartment dwellings. The sewer system is therefore being overtaxed due to increased waste and water volumes.

Community District Needs Related to Sanitation Services

Sanitation enforcement needs to be more proactive in the issuance of violations when motorists do not adhere to the Alternate Side Parking rules and prevent the mechanical brooms from properly cleaning the streets. Mechanical brooms should also be properly filled with water to prevent leaves and dirt from blowing back onto sidewalks.

Capital Requests Related to Core Infrastructure, City Services and Resiliency

Priority	Agency	Request	Explanation	Location
2/22	DSNY	<i>Provide new or upgrade existing sanitation garages or other sanitation infrastructure</i>	<i>There are major problems with Community District 9's existing sanitation garage. Not only is it in an unsuitable location at 356 Winthrop Street (close proximity to Kings County Hospital, SUNY Downstate Medical Center; SUNY Dialysis Center; SUNY Biotech Facility) but it is also too small. The results being the parking of garbage filled sanitation trucks on the district's streets in close proximity to residences, as well as imposing unsafe conditions for pedestrians. This district has endured these problems for many years. We would like to see the allocation of funding to renovate and expand this facility to provide a much needed state of art facility to address the district's needs and eliminate the existing conditions which impact negatively on the community.</i>	<i>Bk09 Sanitation Garage 356 Winthrop Street</i>

5. Summary of Community District Needs and Budget Requests

Land Use, Housing and Economic Development

Main Issue Related to Land Use, Housing and Economic Development

Affordable housing programs

Many residential blocks in Community District 9 lack proper zoning. As a result, the current zoning allows for one and two-family homes to be demolished and replaced with large market rate apartment dwellings that are not only changing the character of many of these affected residential blocks, but is leading to rapid development and tenants displacement.

Community District Needs Related to Housing Needs and Programming

There is a great need for the preservation of the existing rent stabilized units within Community District 9 and the creation of affordable housing for low and moderate-income families and the senior population.

Community District Needs Related to Economic Development

Community Board 9 has four major commercial strips: Utica Avenue, Kingston Avenue, Nostrand Avenue and Flatbush Avenue. The revitalization of these strips to transform them into more attractive places for customers and attract viable businesses will help create jobs and economic growth.

Transportation

Main Issue Related to Transportation

Traffic congestion

The elimination of traffic lanes, the 7AM to 7PM Buses Only lanes, and changes in traffic patterns have resulted in severe traffic congestion throughout Community District 9 as motor vehicles usage has not decreased but appears to increase due to population growth in the district. Double parking on the thoroughfares is also a contributing factor.

26/29	NYPD	<i>Assign additional traffic enforcement officers</i>	<i>Additional traffic enforcement officers are needed in order to adequately address traffic violations, so that our streets can be safer.</i>	<i>Community Wide</i>	
27/29	FDNY	<i>Other water supply system maintenance requests</i>	<i>There should be regular inspections of fire hydrants throughout the City to ensure that water pressure adequately meets FDNY's needs during fires.</i>	<i>Community Wide</i>	
28/29	NYPD	<i>Increase resources for youth crime prevention programs</i>	<i>Enhancing and expanding the Explorers Program, the PAL, as well as other youth crime prevention programs would greatly bolster efforts to prevent/reduce youth crime in the community.</i>	<i>Community Wide</i>	<i>Hon. Mathieu Eugene; Hon. Laurie Cumbo</i>
29/29	NYPD	<i>Assign additional crossing guards</i>	<i>There are not enough crossing guards to be assigned to the schools in the district. For years and years, there have been shortages of school crossing guards. This is such a critical job! Surely the agency must have a very good idea why this shortage persists year after year. As such actions must be taken to correct the problems associated with filling and keeping school crossing guards. Our children's very lives depend on them.</i>	<i>Community Wide</i>	<i>Hon. Mathieu Eugene; Hon. Darlene Mealy</i>
