## INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

This report is broadly structured as follows:

### **a) Overarching Community District Needs**

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

### **b) Policy Area - Specific District Needs**

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

### **c) Community Board Budget Requests**

The final section includes the two types of budget requests submitted to the City for the FY19 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. ## 2. Community District Land Use

### 3. Overview of Community District

Queens Community Board 13 is located in East/Southeast Queens with the Grand Central Parkway as its northern border, Francis Lewis Boulevard going to Springfield Boulevard as its western border, JFK Airport as its southern border and the Nassau County line as its eastern border. It is made up primarily of one- and two-family homes, with a scattering of garden co-op apartments and apartment buildings. The district encompasses sixteen distinct communities, which includes: Bellaire, Bellerose, Brookville, Cambria Heights, Floral Park, Glen Oaks, Laurelton, Meadowmere, New Hyde Park, North Shore Towers, Parkside Terrace, Queens Village, Rosedale, Springfield Gardens, Warnerville and Wayanda. There is a strong sense of neighborhood identification in each of these communities. One community may fight for a long awaited library, while another struggles with clean streets and an influx of renters due to illegal conversions. Many of our neighborhoods have a desperate need for street resurfacing, or more accurately street reconstruction; yet, often this is delayed because of sub-surface DEP projects that are planned for upcoming fiscal years. Many other communities suffer from regular flooding or chronic illegal dumping. Other issues affect the entire board such as a proliferation of group homes and day programs significantly beyond the fair share due our communities. There are many dead trees and tree branch complaints, and residential yards and driveways being used as auto repair facilities. The many beautiful parks and playgrounds in the district need more staff and equipment for the tremendous maintenance demands.

This district has a large senior population, growing larger as people tend more to stay in the area as opposed to migrating to the south. The district's overall population is increasing. The transition in many communities involves immigrants and young families with children moving into the community and requiring services. Developers look for open lots to build with variances, or to demolished viable one and two family homes to build larger multi-family buildings. While these buildings add to the amount of available housing, often they do not in appearance complement the surrounding houses. Many young families are moving in adding to the diversity and vibrancy of our district. However, these younger couples create need for more classrooms and additional after-school activities. The growing youth population trend indicates a critical need for programming to provide activities for youth.

#### 4. Top Three Pressing Issues Overall

The three most pressing issues facing Queens Community Board 13 are:

- *Quality of life issues (noise, graffiti, petty crime, etc.)*
- *Trash removal & cleanliness*
- *Youth and children's services*

Most of the complaints that come into the Board Office have to do with "quality of life" issues. These include illegal truck parking, illegal signs posted on poles, street mechanics who work in residential driveways and/or backyards, noise from loud music in neighboring homes, dead trees needing to be taken down and speeding by motorists on residential streets. There is no community center within QCB 13 for our young people to socialize and exercise. The communities in this district are very concerned about maintaining the character of their neighborhoods and preventing over-development creating density, keeping out houses with illegal conversions. In the Southern part of the district, there is a big need to improve the commercial corridors with better lighting and the forming of merchant's associations.

### Main Issue Related to Health Care and Human Services

#### *Services for low-income and vulnerable New Yorkers*

- There is a need for assisting seniors in getting trained on using technology. - Special Needs individuals need job opportunities to keep their lives full and growing. - There is a need in the community for targeting community members who are in need of necessary health care services. Certain areas better access to these services.

### Community District Needs Related to Facilities and Programming for Older New Yorkers

Renovate and upgrade all senior centers in the district. Enhance educational and recreational programs, e.g. tai chi, health initiatives, information for additional care providers, additional senior center staffing, extended hours for senior centers, extend home care services from 4 hours to 8 hours; senior education programs with respect to the internet; NORC; senior abuse focusing on their finances.

### Community District Needs Related to Facilities and Services for the Homeless

Understanding that homelessness is a citywide issue, we support the City identifying abandoned properties and converting them into affordable housing through various programs that are already underway. With respect to those sheltered in hotels located within the Board area, we would like DHS to look at other communities as this Board has more has more than its fair share.

### Community District Needs Related to Services and Programming for Low-Income and Vulnerable New Yorkers

There are families with special needs individuals within this district that would like to see programming and education for both teenagers and adults that will lead to job opportunities allowing them a level of independence.

## 5. Summary of Community District Needs and Budget Requests

### Youth, Education and Child Welfare

#### Main Issue Related to Youth, Education and Child Welfare

##### *Youth workforce development and summer youth employment*

Funding to provide a job placement site in eastern Queens that encompasses Community Board 13 to provide more access to opportunities for youth in our communities. This would be the bridge that allow local businesses and organizations to connect to SYEP as a job site.

## Public Safety and Emergency Services

### Main Issue Related to Public Safety and Emergency Services

#### *Emergency and disaster preparedness*

The Community Board has JFK Airport and Jamaica Bay on the south, a high water table, and Rosedale is the artery that leads to a portion of Five Towns which is the emergency evacuation route from the Rockaways. Consequently, the area is subject to a disaster in the case of a plane crash or severe storm. Proper planning, community education and drills are needed. Support for expansion for a CERT Team is also needed.

### Community District Needs Related to Policing and Crime

Historically, community policing has reduced crime and promoted better relations with residents. The program of Neighborhood Coordinating Officers (NCOs) when finally reaching the 105 Precinct, will be valuable to solve the many quality of life issues that occur on the daily basis.

### Community District Needs Related to Emergency Services

Response times with emergency services have been good. However, the Rosedale community has grown in population and other fire companies are so far away, it would benefit from having more personnel because asking for a new fire company does not seem feasible at this time.

### **Capital Requests Related to Public Safety and Emergency Services**

Priority	Agency	Request	Explanation	Location
1/19	NYPD	<i>Provide surveillance cameras</i>	<i>Surveillance cameras are needed in the merchants district of Rosedale. (243rd Street between Caney and Mayda Roads)</i>	<i>243rd street Caney Road Mayda Road</i>

32/33	NYPD	Assign additional uniformed officers	Have enough personnel for foot patrols on the main commercial corridors and transportation hubs at night.	Community Wide

### Core Infrastructure, City Services and Resiliency

#### Main Issue Related to Core Infrastructure, City Services and Resiliency

##### *Cleanliness/trash collection*

On the major commercial strips garbage accumulates rapidly. Whenever there is a public trash can it becomes a magnet for bags of [uncollected] residential waste. This problem is so bad many store owners do not want waste baskets in front of their businesses because of the inevitable sanitation ticket that was not their fault. In some residential areas and along the service roads that abut highways, there is a lot of dumping of construction waste and general garbage. Finally, and unfortunately, too many people litter and there needs to be a public campaign vilifying those who randomly drop their trash on the ground.

#### Community District Needs Related to Water, Sewers and Environmental Protection

- Air emissions from the planes are creating respiratory issues including asthma, sinus conditions, etc. near JFK Airport. - More enforcement for delivery trucks with excessive idling.

#### Community District Needs Related to Sanitation Services

- There is a need for more frequent cleaning of litter baskets. - Routine cleaning of vacant lots where frequently dumping occurs. - Continued to education homeowners about leaf pick up and composting. - Outreach to schools and community centers on not littering.

## 5. Summary of Community District Needs and Budget Requests

### Land Use, Housing and Economic Development

#### Main Issue Related to Land Use, Housing and Economic Development

##### *Commercial district revitalization*

Commercial District Revitalization, especially along the corridors of Linden Boulevard, Merrick Boulevard, Jamaica Avenue and Guy R. Brewer Boulevard, will bring the types of goods and services important for the community that have quality, diversity in types of businesses and that attract consumers promoting an overall vitality.

#### Community District Needs Related to Land Use

A study by DCP for downzoning of Queens Village.

#### Community District Needs Related to Housing Needs and Programming

- More proactive in sealing up abandoned "zombie" houses. - Maintaining construction fences around the abandoned properties. - Maintaining the yards of abandoned properties. - Support programs that convert properties into affordable housing. - The removal of squatters from abandoned properties. - To clearly identify the agency that will identify and enforce issues specified above. - Maintain support of foreclosure legal services.

#### Community District Needs Related to Economic Development

- Create a strategic approach to local economic development. - Improve our commercial corridors through beautification and cleanliness. - Encourage various business owners to join forces to form merchant's associations.

### Transportation

#### Main Issue Related to Transportation

##### *Bus crowding and quality issues*

- There are certain bus lines that we feel should be extended to better serve the residents of this Board. - Better bus service will contribute to less car traffic and alternative transportation modes like dollar vans and cabs. This is important for the safety of our residents and the revenue of the city.

#### Community District Needs Related to Traffic and Transportation Infrastructure

- Many of our neighborhoods are requesting traffic calming, specifically speed humps and stop signs. These traffic calming methods will slow traffic and provide more pedestrian safety. - There are uneven corners (non-perpendicular) on major thoroughfares that require left turn signals to keep traffic moving safely. These locations are detailed below.

#### Community District Needs Related to Transit Services

The Q77 bus line needs to be extended from 145 Road to 147 Avenue to connect with the east-west bus lines. The walk along Springfield Park to make this transfer is two city blocks making it unfair to seniors, the disabled, and those not fleet afoot.

### Parks, Cultural and other Community Facilities

#### Main Issue Related to Parks, Cultural and other Community Facilities

##### *Park care and maintenance*

The staff presently assigned to the Board's parks do an excellent job. During the summer when the parks are used more extensively, additional staff and equipment for both maintenance and safety would vastly increase the overall enjoyment of these recreational areas.

#### Community District Needs Related to Parks and Recreational Facilities and Programming

The parks and playgrounds in the district have varying needs as detailed below. The reconstruction of the Bellerose playground is a high priority, as is the resurfacing of much the district's basketball courts. Many of the MPAA areas need resurfacing, as these areas need some creativity in determining what sporting activities can be encouraged with the decline in the play of asphalt softball. In addition, better scheduling for use of grass fields with baseball and soccer.
