Letter from DCP Director Daniel Garodnick

To my fellow New Yorkers:

Every year, each of New York City's 59 community boards advocate for the needs of its residents and stakeholders by preparing a Statement of Community District (CD) Needs and Community Board Budget Requests. Through this process, community boards share the top issues impacting their neighborhoods and propose capital and expense requests to address those identified needs. I'd like to thank the volunteer members of our community boards and the District Managers who work so hard in leading this essential process and in preparing these reports.

The annual CD Needs process is the product of months of collaboration and public input and is a valuable tool for New Yorkers to participate in neighborhood planning. At the broadest levels, CD Needs offers a critical window into the challenges faced by New Yorkers, and how those challenges may differ across neighborhoods. At a granular level, it provides a forum through which community leaders specify those needs and make recommendations for spending -- which in turn are used by City agencies, elected officials, advocacy groups, and non-profit service providers, among others, to better understand and meet the individual needs of each community board.

Through this year's submissions, we heard the stories of our communities' biggest challenges, such as the human impacts of our housing crisis. In that vein, community boards again selected affordable housing as the most pressing issue citywide, followed by crime and public safety, and parks and open space. Through our online form, community boards generated more than 3,700 budget requests, and for each, one of 28 City agencies responded to indicate whether the request could be accommodated within the upcoming annual budget. This year, in line with our commitment to increasing transparency across the CD Needs process, we are publishing agency responses to these requests in the final section of these reports.

DCP deeply values our partnership with community boards. We remain committed to supporting them by increasing participation in, and improving the transparency of, the CD Needs process. We have received valuable feedback from our community board partners, and we are excited to work with them to continue improving our online submission form, to connect boards with agencies to advance budget request proposals, and to open the form earlier in the calendar year to allow more time for public input and preparation. We look forward to advancing this work with both community boards and City agencies to ensure this is a valuable and productive way to improve our City's neighborhoods and to respond to local community needs.

Sincerely,

INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

Statement on Data Accuracy

Under Title 13 of the U.S. Code, the Census Bureau is legally bound to protect the privacy of individuals participating in the decennial census. To adhere to the law and to avoid the disclosure of information about individual respondents, the Census Bureau has historically applied a host of techniques, such as top- and bottom-coding, imputation, table- and cell-suppression, and data swapping. The Census Bureau is employing a new technique with the 2020 Census, referred to as the Disclosure Avoidance System (DAS), based on differential privacy. With this approach, the Census Bureau “infuses noise” systematically across census data and sets a quantified disclosure risk, referred to as the Privacy Loss Budget (PLB).

While the new DAS approach may diminish the risk of disclosure concerns, it comes at a cost to data accuracy. Consequently, 2020 Census data users should be aware that all sub-state counts, except for housing units (which are unaffected by the DAS), may be adjusted to protect the privacy of Census participants and may be subject to reduced accuracy. Because DAS noise infusion is randomized, it is impossible for data users to know the degree to which any individual statistic is altered. However, it is possible to say that in general the relative size of errors decreases as counts increase. Consequently, data users should have greater confidence in the accuracy of the data as counts get larger. Further, an evaluation of a Privacy-Protected Microdata File (PPMF), treated with a Disclosure Avoidance System like the one applied to 2020 redistricting data, showed that counts of 300 or more rarely have sizable errors (error beyond +/- 10% of the count). Therefore, while data users need to be cognizant of data accuracy limitations, they should have confidence in conclusions based on sizable counts, which are relatively unaffected by the Census Bureau’s latest disclosure avoidance method.

3. OVERVIEW OF COMMUNITY DISTRICT

NEEDS STATEMENT FY 2024 INTRODUCTION- Community Board 1, Queens is bounded by Bowery Bay on the north, on the south by Queens Plaza North, Northern Boulevard and the LIRR Tracks, on the west by the East River, and on the east along the west bound curve of the Brooklyn Queens Expressway to the Grand Central Parkway and 82nd Street. We service the communities of Astoria and portions of East Elmhurst, Long Island City, Woodside and Jackson Heights. Our zoning is mixed with residential, manufacturing, industrial and commercial areas, two (2) Industrial Zones, and two (2) Business Improvement Districts. Our district is home to four (4) NYCHA housing developments. We have major shopping, dining and business areas along Broadway, Ditmars Boulevard, Steinway Street, 30th and 36th Avenues and Northern Boulevard. CD1 has seen a boom in development and studies to prepare for the future of land use in our boundaries is necessary. The District abuts LaGuardia Airport, along with several major roads that provide access through our community to and from Manhattan via the Queens Borough Bridge, Brooklyn via the BQE and the Bronx via the RFK/Triborough Bridge. CD1, Queens also provide the only land access to Rikers and Roosevelt Islands. District 1, Queens is home to the largest number of energy power plants that provide electricity to all of New York City. We have genuine concerns regarding respiratory health in our district and advocate for air monitoring. We are also concerned due to the recent installation of 5G antennas and the possible health ramifications and are requesting monitoring within our boundaries of (EMF) electro-magnetic frequency. We are the most culturally diversified District in New York City with 119 different nationalities and counting. Our community has many desirable qualities, including the beautiful waterfront, cultural establishments such as the Museum of the Moving Image, the Noguchi Museum, Socrates Sculpture Park and a replica of an ancient Greek Amphitheater at Athens Square. We are home to the Kaufman Astoria Studios, the Arts District and one of the largest film and television production centers on the east coast. We will soon be welcoming an additional film studio complex, Wildflower, into our district. Programming for the arts and culture is important to our community. In May of 2016, District 1 welcomed the opening of Mount Sinai Hospital of Queens' additional building. This is the only hospital serving our community including the areas of Roosevelt Island and Rikers Island in critical, life saving time. Funding for life saving programs and equipment are always welcome and necessary for the quality patient care of our ever-growing community the pandemic proved this fact. Our District has the greatest number of Enclosed and Unenclosed Sidewalk Cafes in Queens. The Board appreciates the ambiance that these cafes bring to our community and we realize that the quality-of-life of our residents must be maintained. We look to NYC Agency support for proper enforcement of rules and regulations. Currently, Queens County has the greatest number of trees of all the boroughs. Our District has numerous parks and recreation areas with Astoria Park being the crown jewel of our community. At the present time, CD1,Q is in an upward transition and development of new housing is at an all-time high and the infrastructure will soon require upgrades at all levels. We require affordable housing with supporting infrastructure and maintenance of green space. Furthermore, we require the area median income (AMI) to reflect the incomes of our District to avoid displacement in the future. Our Board has seen the addition of Citi Bike, the NYC Ferry, Revel mopeds and Lime electric scooters to our districts transportation system. We have had elevators installed by MTA at the Astoria Boulevard train station for access to the elevated train line. We anticipate the addition of other elevators locally. In addition, we look forward to the benefits from the modernization of LaGuardia Airport and the opportunities Cornell Tech Center will provide to our community. Employment opportunities and training are essential to residents. We look forward to a "silicon alley" within our boundaries. We also look forward to the employment opportunities this addition could provide due to the proximity of the Tech Center. Respectfully submitted, Marie Torniali, Chairperson Florence Koulouris, District Manager

4. TOP THREE PRESSING ISSUES OVERALL

Queens Community Board 1

The three most pressing issues facing this Community Board are:

Affordable housing

AFFORDABLE HOUSING- The need for affordable housing in our district has produced a market for illegal apartment conversion. It has long been the Board's opinion that legislation should be considered to legalize apartments that meet all safety regulations. This will provide safe affordable housing and add to the City's tax base. Increased rents for those living on a fixed income are forcing many seniors and disable residents to move from their homes and out our community. A community that they have lived in for many years, some a lifetime. Truly affordable housing needs to be an option. With development the Area Median Income (AMI) needs to be re-evaluated so residents may stay within their communities. A realistic look at the income of our residents verses the projected AMI requires a study. Additional senior housing is necessary with the exponential growth of the senior population. There is simply not enough housing for those in need of senior residents.

Police-community relations

POLICE-COMMUNITY RELATIONS- Residential development has increased tremendously in our District impacting on all services, particularly the Police. We have an increase in night life, with approximately 160 establishments in our District and growing, that impacts on the quality of life in each neighborhood and in the surrounding communities. We urge the enforcement of regulations pertaining to clubs, lounges and bars i.e.: excessive noise, drugs and alcohol service to minors. The MARCH Program (Multi Agency Response to Club Hotspots) must be continued. Businesses and residents deserve the opportunity of peaceful enjoyment in their community. Nightlife should not dominate our police officers' services. Quality of life matters for residents.

Other

Transit & Traffic - CD1Q acknowledges the need for safe passages of cyclists through the City which we support. We also have serious concerns regarding the elimination of parking spaces, particularly in our commercial and professional areas. This creates a hardship for the business that need parking to accommodate patrons and supplies. New developments have brought more residents who depend on public transportation. In addition, many commuters from outside the area drive to Astoria and park their cars to board the train to Manhattan and other boroughs because they do not have service. This brings individuals into our district where inevitably spend money in our various establishment and creates economic stimulus. There is now extreme over crowding in our district. We have had the installation of Cars to go, Citi Bike, the Ferry service, and Revel Vespa's to aid in transportation options. However, the mass transportation system requires massive service upgrades to accommodate todays magnitude of travelers. We require a better plan to accommodate our districts diverse needs and volume which will provide opportunity to our residents. Transportation should not cause the hardship it does to so many. Our district requires a solid mass transportation plan that will provide safe, accessible and affordable travel to all of our neighbors. Transportation promotes economic stability.

Most Important Issue Related to Public Safety and Emergency Services

Other

All of the listed items are important to our environment and quality of life

Capital Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
5/31	NYPD	Renovate or upgrade existing precinct houses	<i>Due to multiple issues with the old structure our officers require a larger, cleaner/healthier & efficient space to work in. Our current structure is too small for the number of officers our district requires. The 5x5 rooms must be share with multiple users. The building itself is out dated and it would cost more to update versus a reconstruction. With the massive increase in residents and expansion in night life our district requires more manpower. There is no space in the building as it exists to accommodate additional staff we need. When this structure is built parking needs to be considered in the plan.</i>	43-16 Astoria Blvd
