INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

HOW TO USE THIS REPORT

This report represents Queens Community Board 12's *Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2020*. This report contains the formatted but otherwise unedited content provided by the community board, collected through an online form available to community boards from June to November 2018.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

If you have questions about this report or suggestions for changes please contact:

This report is broadly structured as follows:

a) Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

b) Policy Area - Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

c) Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY20 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

3. Overview of Community District

Community Board 12, Queens, encompasses the area bounded by the Van Wyck Expressway (West), Hillside Avenue (South), North Conduit Avenue (South), and Francis Lewis Boulevard/Springfield Boulevard (East), encompassing the communities of Jamaica, South Jamaica, South Ozone Park, Hollis, St. Albans, Addisleigh Park, Rochdale Village, and North Springfield Gardens. It is the second largest Board in the Borough of Queens and takes up a large portion of the southeastern corner of the Borough. Officially, according to the 2010 census, we have a total population of 225,919 people. The number does not reflect nor acknowledge an under-count. The District has become a more culturally and ethnically diverse community. It is situated in the well-known flood basin of the world's largest dam; John F. Kennedy Airport. The Airport, built on wetlands, which was our natural drainage area, has greatly contributed to a lack of adequate rainwater run-off in our community. We continue to suffer from serious infrastructure problems; our roads and sewers are inadequate to serve our community needs. A great deal of street repair has been done in Community Board 12, much more remains undone. At this time \$2 Billion dollars have been allocated to Southeast Queens for flooding by the Mayor. We are faced with a serious ground water issue, in which hopefully there will be a study on ground water.

Finally, through all of our struggles our communities will survive. But, we cannot ignore the fact that basic municipal services are minimal. Extra help now will keep us stable and prevent the need for excessive amounts of rehabilitation and revitalization dollars in the future.

The needs in each community are different. We at Community Board 12 will continue to fight for our fair share of city services that we are not receiving that must be provided to maintain the quality of life for all of the residents within the district.

4. Top Three Pressing Issues Overall

The three most pressing issues facing Queens Community Board 12 are:

- *Schools*
- *Senior services*
- *Street flooding*

FLOODING - Flooding is a serious issue in CB12, it is due to lack of proper drainage causes flooding in streets and into homes, businesses and schools. An additional cause of flooding is that the groundwater table is too high.

SCHOOLS - The district is faced with co-location of schools, with multiple schools in a single building.

SENIOR SERVICES - Seniors comprise a large segment of our population, it is important that programs be developed to meet their needs.

1. Healthcare 2. Housing 3. Social Security 4. Healthy Food 5. Medicare - Medicaid

Health Care and Human Services

Main Issue Related to Health Care and Human Services

State of health facilities

We continue to be confronted with a number of health problems; a high rate of breast cancer, prostate cancer, asthma, diabetes, HIV/AIDs and other chronic conditions. We are oversaturated with social service programs, however, we are not receiving quality healthcare. Primary healthcare facilities have opened but we need a full scale, quality hospital in the district.

Community District Needs Related to Health Care Facilities and Programming

Health care facilities and programming. We have a number of health care facilities with programs in the district, but not enough to meet the needs of a growing community. We need a hospital in the district to address many of the community resident's needs; a primary health care facility.

Community District Needs Related to Facilities and Programming for Older New Yorkers

There is a lack of facilities and programs for the older New Yorkers. Seniors comprise a large segment of our population, it is important that programs be developed to meet their needs: 1. Healthcare 2. Housing 3. Social Security 4. Healthy Food 5. Medicare - Medicaid

Community District Needs Related to Facilities and Services for the Homeless

We have more than our fair share of facilities of services to the homeless. We have (10) ten shelters and in 13 hotels in Community Board 12, Queens District, for more than our fair share.

Community District Needs Related to Services for Low-Income and Vulnerable New Yorkers

We do not have enough services and programming for low-income and vulnerable new Yorkers.

Capital Requests Related to Health Care and Human Services

Priority	Agency	Request	Explanation	Location
40/41	HHC	Provide a new or expanded health care facility	A full service hospital is needed in CB 12. The VA property should be considered for hospital, a Veteran Hospital also a Community Hospital. Due to the closing of Mary Immaculate Hospital, a great strain has been put on Jamaica and Queens Hospital Center. A new Hospital can be erected on the property of the Veteran Hospital on Linden Blvd., St. Albans, NY	Community Wide

Main Issue Related to Youth, Education and Child Welfare

Schools and educational facilities (Maintenance)

Education Partnering with Community Education Council Districts 27, 28 and 29 has been our priority for many years and we are proud to continue to stand with the staff, parents and students within these districts for education quality and equity. The years of Mayoral control by the previous administration caused our CDE Councils to take a considerable beating. It was extremely difficult to manage all of the issues brought by the Bloomberg administration, yet we persevered in dealing with issues such as: the effectiveness of the ATR (Absent Teacher Reserve) pool, the “Blue Book” – a document that did not provide trusted, definitive school space utilization information, “Testing to the Test”, the premature roll out of Common Core Standards, school closures, and persisting co-locations of multiple schools within one building. On numerous occasions, the Education Committee of Community Board 12 expressed our disapproval of the premise of co-location. Districts 27, 28 and 29, were part of a detrimental co-location landscape that the Bloomberg administration was determined to carry out prior to his leaving office. Thus we were faced with multiple co-location proposals aimed at our elementary, middle and high schools. Under the guise of “under-utilization,” educators were notified that their schools must make way for other schools deemed “high quality” by the DOE. The term was unproven in most cases and highly offensive to those associated with the incumbent schools. Proposals for Southeast Queens included three (3) co-located schools with elementary and intermediate schools in existing co-location environments; a sixth (6th) co-located high school at Campus Magnet High School, and of most notable concern to us was a proposal to co-locate Success Charter Academy Elementary School (kindergarten through 4th grade) within August Martin High School, a co-located high school of three (3) schools - one of which, Voyages Preparatory High School, integrates adult-aged students up to the age of 21. Community Board 12 voiced opposition to this irresponsible proposal in our testimony to the NYC Department of Education and SUNY Charter Schools Institute. The proposal was not approved. In addition, Community Board 12 opposed the co-location of Q312 with PS 40; the co-location of Q332 with IS 72 and P.S. 993; and the co-location of Success Charter Academy Elementary School with IS 59 and P.S. 176. Most recently, we provided testimony to oppose the inclusion of New Visions Charter School within August Martin High School, joining the myriad of other schools co-located in the building. Although we were unsuccessful in that effort, we will continue to be adamant regarding our position on school co-location within our districts. Increasing class enrollment for preschool through high school-aged children persists as the population in our CDEC districts continues to rise. The need for the School Construction Authority to expand building plans in Community Board 12 continues as does the need for decreasing class size at every grade level. Additional after school programming and recreational community centers for middle and high school-aged children is essential to Community Education Council Districts 27, 28 and 29. We also request the implementation of effective school safety zones, traffic lights and speed bumps in the vicinity of every school and learning center in our CDEC districts.

Community District Needs Related to Educational Facilities and Programs

It is extremely important that quality educational programs be provided in our district, these include programs outside of the classroom like recreational programs, homework programs and other after school programs.

Community District Needs Related to Youth and Community Services and Programs

A decrease in funding for youth services in Community Board 12 has taken a considerable toll on the provision of consistent quality programming for our youth. The after school program and Beacon Center at MS 72 continues to serve at full capacity. An increase of Beacon Programs is greatly needed to provide additional after school and recreational activities to the children. Due to a lack of funding, large numbers of our youth are neglected and do not have the advantage of academic enhancement, life skills, career awareness, school-to-work transition, community building, health and fitness and culture and art activities provided by Beacon Programs. We are in need of the Department of Youth and Community Development to support further growth and development of youth programming in Community Board 12. The lack of jobs and internships continue to be an issue for our thriving youth. There is much interest and need for youth employment, however far to little to offer them. This causes idling and loitering after school and during the summer months and can make or break a student with a propensity toward the negative. While there has been assistance from Summer Youth Employment Program (SYEP) for some, far too many of our youth search for non-existent summer employment year after year. Health care is an additional need for our Community Board 12 youth. The rise of childhood and teenage obesity is unacceptable and the need for healthy dieting, proper nutrition and exercise must be addressed. Mental health services should also be advanced in our districts, as instances of domestic violence, date rape, and teen pregnancy are of concern. The overall health care and well-being of our youth is of great importance to us and should be appropriately prioritized by the City of New York.

Public Safety and Emergency Services

Main Issue Related to Public Safety and Emergency Services

Emergency and disaster preparedness

We have two Police Precincts in the District 103rd and 113th, we have request that resources be allocated for a tow-truck to tow the 18 wheelers (Big Wheelers) using the street in the residential areas for a staging area overnight and weekend. Truck route signs are posted there is a lack of enforcement. Ongoing requests are made for more police presences in some of the residential area.

Community District Needs Related to Emergency Services

The Fire Education Program has worked really well in CB12 to reduce fatal fires in the community.

Expense Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
3/21	NYPD	Assign additional staff to address specific crimes (e.g. drug, gang-related, vice, etc.)	Increase Foot Patrol and Sector Cars for the Hollis Area. This request would improve the quality of life in this section of Hollis because there is excessive drug selling and quality of life issues that could be deterred if there was foot and sector car patrol.	Community Wide

Main Issue Related to Core Infrastructure, City Services and Resiliency

Water runoff and flooding

We have problems with some of our infrastructure because we have projects that have been on the books for a number of years and never moved forward because of funding. With the \$2.2 Billion dollars that are allocated, a number of projects are moving forwards.

Community District Needs Related to Water, Sewers and Environmental Protection

Flooding is a major problem in Community Board 12 due to a poor drainage system and a high level of ground water. Some homeowners are forced to have pumps installed in their basement but, that is not addressing the problem. Ongoing meeting have been held. A number of projects are schedule to move forward, these are all small projects that will not be addressing the major problem. Two point two hundred billion dollars have been allocated to southeast queens to address the flooding condition by the Mayor.

Community District Needs Related to Sanitation Services

We are facing a major problem with Sanitation, dumping is an increasing problem. We must have more strict enforcement not less; there is a need to deal specifically with illegal dumping. We need additional manpower for street cleaning, dump-outs, and litter basket operations. Some of the dumping is in the residential area, where there are high number of vacancies due to foreclosure. In order to have cleaner streets in the residential areas, you must have alternate side of street parking in which we do not have in majority of the areas ; so the mechanical broom can clean the curb.

5/41	DEP	Inspect storm sewer on specific street segment and service, repair or replace as needed	Request that funding be allocated for a storm sewer on 176th St. between Murdock Ave and Sayres Ave in Addisleigh Park. This street was identified during a tour of southeast Queens, as a street that experience chronic flooding. It became clear during the tough that no storm sewers existed at this site. Requesting that 176th Street be considered for a capital sewer project. The water is backing up into homes of residents of 176th St.	176th St Murdock Ave Sayres Ave
7/41	DEP	Inspect water main on specific street segment and repair or replace as needed	Reconstruct Brinkerhoff Ave (110th Ave) from 173rd St to 178th St. Reconstruct 176th St from Brinkerhoff Ave (110th Ave) to 109th Ave. The section of Brinkerhoff Ave. is in serious disrepair. It has not been resurfaced or properly maintained in the last 60 years. There is little to no sidewalk between 176th and 178th streets. The roadway is higher than the pedestrian walkway causing water from the rain and broken water mains to flow into the yards and basements of homes. Between 177th and 178th streets the roadway is so broken up, there is no paving from the pedestrian walkway to more than give feet into the roadway. Cars are parked in the mud. We are submitting photographic evidence. It is truly a deplorable condition. The drainage issue must be resolved first by DEP prior to DOT work.	Brinkerhoff Ave 173rd St 178th St
8/41	DEP	Inspect storm sewer on specific street segment and service, repair or replace as needed	Install catch basins. Expense Requests Related to Core Infrastructure, City Services and Resiliency

Priority	Agency	Request	Explanation	Location
1/21	DSNY	Other cleaning requests	Institute Seven Day Basket Collection in Community District 12. Because of the congestion of our district, especially in downtown Jamaica by Archer Avenue and Parsons Boulevard and also Sutphin Boulevard and Archer Avenue where the subway station is and the vans and vendors locate, our trash baskets overflow in less than a day. We face a problem of overflowing baskets which are unsightly and create a health hazard. Seven day collection would help lessen the problem.	Community Wide
8/21	DEP	Clean catch basins	Replace storm drainage on both sides of Babylon Ave. The storm drains appear to be clogged, causing home owner flood and back-up in their homes.	Community Wide

Main Issue Related to Housing, Economic Development and Land Use

Affordable housing new creation

It's a major issue in the district with all the proposed housing units and economic development in progress, we will have an increase in population and businesses, our local merchants need help to remain stable and profitable. Community Board 12 Economic Development Committee is working with the Local Development Corp. and business groups on some of our commercial strips.

Community District Needs Related to Land Use

We have an effective Land Use Committee in Community Board 12 that addresses all land use items that come before the board.

Community District Needs Related to Housing Needs and Programming

It's a major issue in the district with all the proposed housing units and economic development being planned there will be increase in population and business groups on some of our communities. Our local merchants need help to remain stable and profitable. We are having a major problem in the district with abandoned houses; two to three years without being sealed up squatters in and out. we have a high number of vacancies due to foreclosures. Any abandoned house in a community has a great effect on the quality of life on all home owners in the Community. In Community Board 12 district, we need additional building inspectors to address working without a permit, illegal conversion, single room occupancy (SRO's), and working on weekends. The problem continue to escalate, illegal use must not just be cited, the must not be allowed to continue. There continues to be a lack of enforcement in Community board 12, we need Consumer Affairs.

Community District Needs Related to Economic Development

It's a major issue in the district with all the proposed housing units and economic development in progress, we will have an increase in population and businesses, our local merchants need help to remain stable and profitable. Community Board 12 Economic Development Committee is working with the Local Development Corp. and business groups on some of our commercial strips. Economic development is important for a vibrant and stable community. The new economic development plans that have been proposed in this district will hopefully address unemployment, which has been a huge issue in this district.

Transportation

Main Issue Related to Transportation

Traffic congestion

We have two transportation hubs in the district, Archer Avenue and Parsons Boulevard, Sutphin Boulevard and Archer Avenue. At Archer Ave and Parsons Boulevard you have the vans in the bus stops; at Sutphin Boulevard and Archer Ave you have the cars there picking up and in the bus stops. We have had numerous meetings, the problem continues to exist. We need enforcement in the areas every day. We need stronger regulations. There is a need for new and additional buses on all of the routes except one. There should be a monitor on the same route. There is a problem with scheduling. In downtown Jamaica we have a lot of permit parking. A major traffic study is being done in the downtown area. We have four subway lines (E, J, Z, and F). We also have the Long Island Railroad and the Air Train.

Community District Needs Related to Traffic and Transportation Infrastructure

There is a serious problem with commercial traffic in residential areas during weekends and overnight. "Big-wheels" or 18-wheel tractor trailers use residential streets as staging areas over the weekend. Leaving them unattended over the weekend.
