3. Overview of Community District

Community Board One is located in the southern portion of Bronx County. The boundaries of the district are the Harlem River; East 149th Street; Park Avenue; East 159th Street; East 161st Street; Prospect Avenue; East 149th Street and the East River. The neighborhoods served are Port Morris, Mott Haven and Melrose. The district has a 2010 population of 91,497 up from 82,159 in 2000. Land Use patterns are of single family and two family residential properties, institutional, mixed residential, commercial, office, and industrial uses. The general trend of the district is one of future population growth with mixed income residents.

4. Top Three Pressing Issues Overall

The three most pressing issues facing Bronx Community Board 1 are:

- *Affordable housing*
- *Health care services*
- *Unemployment*

Residents in the district must have the ability to access affordable and quality health care from infants to seniors. There is a need to create a healthy environment for our seniors to maintain their independence and if needed to have supportive services. For children and their families the delivery of effective health and medical care is paramount. Although programs by our community health institutions help to improve successful outcomes, their interacting and reaching out to the underserved, residents who are the undocumented population, means early screening services for those with underlying health conditions. Screening includes cervical, breast, prostate, and colon cancer. However a reduction in obesity must be addressed.

There is a need and has been the goal of creating a sustainable community and economic redevelopment through the influx of manufacturing opportunities and new affordable housing projects in the district. Programs by the City in this regard include several large scale projects within the past five years, developments including St. Ann's mixed-use development, the Via Verde - a Green Way New York Legacy project bringing over, 1,000 new housing. Additionally, the upcoming La Central - 998 mixed project will begin construction in 2016. The Next Generation New York City Housing Authority (NYCHA) long term plan includes the development of new private multifamily housing on available land within NYCHA sites including the Mill Brook housing development in the District.

Businesses in Port Morris including the operation of the Bronx Brewery, the construction of a warehouse facility by Fresh Direct providing an opportunity for employment for district residents. The expansion of Cup Studios via the conversion of an 115,000 square foot warehouse at 295 Locust Avenue in the district to be called Silver Cup North for film and television production in 2016 will additionally bring in local jobs.

Main Issue Related to Health Care and Human Services

Services for domestic violence victims

The most important Health Care and Human Services issue facing the district is the rising level of domestic violence. Domestic violence was formerly viewed through the lens of to threaten and batter the victim, be they a family member or senior. However, the rise of cyber stalking through the use of technology and social media platforms in our community is increasing. The rise in intimate partner domestic violence involving our teens is a concern, particularly as according to data 45.8 residents of our district have children under the age of 18. These teens and youth are subject to severe social pressure. Other community factors have contributed to this rise including the high poverty, unemployment rate, and crime. Additionally, so has the reduced level of services.

Community District Needs Related to Health Care Facilities and Programming

Add funds for AIDS education, teenage pregnancy and infant mortality programs in Community District #1. More of these programs are needed to reach out to our Elementary and High School students as well as to the youth in our Community District.

Community District Needs Related to Facilities and Programming for Older New Yorkers

Increase funds to expand the crime prevention program for senior citizens. There are not enough programs in CD #1. Maintain funding level for Senior Centers in Homecare, Housekeeping, Legal Services, Nutrition and Recreation.

Previously at this location the past administration had approved a design for a cableless Bridge at East 153rd Street adn the money was taken out of the budget. Transportation

Capital Requests Related to Transportation

Priority	Agency	Request	Explanation	Location
4/21	DOT	Repair or provide new street lights	Upgrade illumination on existing street lighting in the District. Street lighting throughout the entire District at night does not appear to be providing the proper illumination to support public safety. The Board requests for an upgrade and increase in foot-candles on the existing lamp poles, including within all pedestrian underpasses in the District.	Community Wide

The development of a Step Street at East 159th Street and St. Ann's Avenue provides a connection for residents in the area above St. Ann's Avenue. This Step Street is one the Board has advanced over 15 years and continues to support. Its development provides for residents of major developments such as St. Ann's Terrace, a development of 350 units accessibility from this portion of the District. It is important as it will connect an area cutoff from direct walking and connection to bus routes and other features with the important housing corridor of the District.	St. Ann's Avenue East 159th Street St. Ann's Avenue
7/21	DOT	Rehabilitate bridges	The reconstruction of the East 153rd Street Bridge. The increased density and strained traffic conditions in the District along 149th Street, the Grand Concourse and on to East 161st Street has created limited options for drivers. The East 153rd Street Bridge is presently in the projected Capital Plan. Our Board supports development of the East 153rd Street Bridge which can reduce congestion in our District.	159th Street Bridge

2/14	NYPL	<i>Extend library hours or expand and enhance library programs</i>	<i>Increase Funding for New York Public Library Services in the District. In order to provide the opportunity for district children and youth to fully participate in the New York Public library's many services, funding for the Mott Haven and Woodstock branches needs to be increased to allow for all libraries to be open six days and at least forty-two hours a week. The New York Public Library and Community Board One request that the City restore funding to provide robust six day service including increased hours, diverse programming, strong collections and sufficient staff to support these functions. In these challenging economic times, the services provided through the Library are needed by New Yorkers more than ever. (Previous Tracking Codes: 101200801E)</i>	<i>Community Wide</i>

6/21	DOT	Repair or build new step streets	Create a new step street. The development of a Step Street at East 159th Street and ST. Ann's Avenue provides a connection for residents in the area above St. Ann's Avenue. This Step Street is one the Board has advanced over 15 years and continues to support. It's development provides for residents of major developments such as St. Ann's Terrace, a development of 350 units accessibility from this portion of the District. It is important as it will connect an area cutoff from direct walking and connection to bus routes and other features with the important housing corridor of the District.	St. Ann's Avenue East 159th Street St. Ann's Avenue	
7/21	DOT	Rehabilitate bridges	The reconstruction of the East 153rd Street Bridge. Previously at this location the past Administration had approved a design for a cable-less Bridge at East 153rd Street and the money was taken out of the budget. Due to increased population in Bronx County in Boards 1 and 4 there is a need for a new bridge to be built at this location. The increased density and strained traffic conditions in the District along 149th Street, the Grand Concourse and on to East 161st Street has created limited options for drivers. The East 153rd Street Bridge is presently in the projected Capital Plan. Our Board supports development of the East 153rd Street Bridge which can reduce congestion in our District.	159th Street Bridge	
8/21	DPR	Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)	Redevelopment of the Garrison Playground located at East 146th Street and Walton Avenue into a Science themed Playground. A component of the City's HPD RFP and selected redevelopment plan for 425 Grand Concourse is an allocation of Capital monies. Additionally, the Borough President's Capital Allocation for FY2017 includes \$500,000 for the reconstruction of the adjacent Garrison Playground. The averse closure and subsequent demolition of the former PS31 in 2015 devastated the educational capacity in the District while also creating a serious void of passive and active recreation space. The theme and the importance of science will uplift and inspire young persons of the District while providing a 21st century recreational and learning experience.	Garrison Playground
