3. OVERVIEW OF COMMUNITY DISTRICT

NEEDS STATEMENT FY 2022 INTRODUCTION- Community Board 1, Queens is bounded by Bowery Bay on the north, on the south by Queens Plaza North, Northern Boulevard and the LIRR Tracks, on the west by the East River, and on the east along the west bound curve of the Brooklyn Queens Expressway to the Grand Central Parkway and 82nd Street. We service the communities of Astoria and portions of East Elmhurst, Long Island City, Woodside and Jackson Heights. Our zoning is mixed with residential, manufacturing, industrial and commercial areas, two (2) Industrial Zones, and two (2) Business Improvement Districts. We have major shopping, dining and business areas along Broadway, Ditmars Boulevard, Steinway Street, 30th and 36th Avenues and Northern Boulevard. CD1 has seen a boom in development and studies to prepare for the future of land use in our boundaries is necessary. The District abuts LaGuardia Airport, along with several major roads that provide access through our community to and from Manhattan via the Queens Borough Bridge, Brooklyn via the BQE and the Bronx via the RFK/Triborough Bridge. We also provide the only land access to Rikers and Roosevelt Islands. District 1 is home to the largest number of energy power plants that provide electricity to all of New York City. We have genuine concerns regarding respiratory health in our district and advocate for air monitoring. We are also concerned due to the recent installation of 5G antennas and the possible health ramifications and are requesting monitoring within our boundaries of (EMF) electro magnetic frequency. We are the most culturally diversified District in New York City with 119 different nationalities and counting. Our community has many desirable qualities, including the beautiful waterfront, cultural establishments such as the Museum of the Moving Image, the Noguchi Museum, Socrates Sculpture Park and a replica of an ancient Greek Amphitheater at Athens Square. We are home to the Kaufman Astoria Studios, the Arts District and one of the largest film and television production centers on the east coast. Programming for the arts and culture is important to our community. In May of 2016, District 1 welcomed the opening of Mount Sinai Hospital of Queens' additional building. This is the only hospital serving our community including the areas of Roosevelt Island and Rikers Island in critical, life saving time. Funding for life saving programs and equipment are welcome. Our District has the greatest number of Enclosed and Unenclosed Sidewalk Cafes in Queens. The Board appreciates the ambiance that these cafes bring to our community and we realize that the quality-of-life of our residents must be maintained. We look to NYC Agency support for proper enforcement of rules and regulations. Currently, Queens County has the greatest number of trees of all the boroughs. Our Districts has numerous parks and recreation areas with Astoria Park being the crown jewel of our community. At the present time, CB1 is in an upward transition and development of new housing is at an all-time high and the infrastructure will soon require upgrades at all levels. We require affordable housing with supporting infrastructure and maintenance of green space. Furthermore, we require the AMI to reflect the incomes of our district to avoid displacement in the future. Our Board has seen the addition of Citi Bike, the NYC Ferry and Revel to our districts transportation system. We have had elevators installed by MTA at the Astoria Boulevard train station for access to the elevated train line. In addition, we look forward to the benefits from the modernization of La Guardia Airport and the opportunities Cornell Tech Center will provide to our community. Employment opportunities and training are essential to residents. We look forward to a "silicon alley" within our boundaries. We also look forward to the employment opportunities this addition could provide due to the proximity of the Tech Center.

Respectfully submitted, Marie Torniali, Chairperson Florence Koulouris, District Manager

4. TOP THREE PRESSING ISSUES OVERALL

Queens Community Board 1

The three most pressing issues facing this Community Board are:

Affordable housing

AFFORDABLE HOUSING- The need for affordable housing in our district has produced a market for illegal apartment conversion. It has long been the Board's opinion that legislation should be considered to legalize apartments that meet all safety regulations. This will provide safe affordable housing and add to the City's tax base. Increased rents for those living on a fixed income are forcing many seniors and disable residents to move from their homes and out our community. A community that they have lived in for many years, some a lifetime. Truly affordable housing needs to be an option. With development the Area Median Income (AMI) needs to be re-evaluated so residents may stay within their communities. A realistic look at the income of our residents verses the projected AMI requires a study. Additional senior housing is necessary with the exponential growth of the senior population. There is simply not enough housing for those in need of senior residents.

Police-community relations

POLICE-COMMUNITY RELATIONS- Residential development has increased tremendously in our District impacting on all services, particularly the Police. We have an increase in night life, with approximately 160 establishments in our District, that impacts on the quality of life in each neighborhood and in the surrounding communities. We urge the enforcement of regulations pertaining to clubs, lounges and bars i.e.: excessive noise, drugs and alcohol service to minors. The MARCH Program (Multi Agency Response to Club Hotspots) must be continued. Businesses and residents deserve the opportunity of peaceful enjoyment in their community. Nightlife should not dominate our police officers services.

Other

Transit & Traffic - CB1 acknowledges the need for safe passages of cyclists through the City which we support. We also have serious concerns regarding the elimination of parking spaces, particularly in our commercial and professional areas. This creates a hardship for the business that need parking to accommodate patrons and supplies. New developments have brought more residents who depend on public transportation. In addition, many commuters from outside the area drive to Astoria and park their cars to board the train to Manhattan and other boroughs because they do not have service. This brings individuals into our district where inevitably spend money in our various establishment and creates economic stimulus. There is now extreme over crowding in our district. We have had the installation of Cars to go, Citi Bike, the Ferry service, and Revel Vespa's to aid in transportation options. However, the mass transportation system requires massive service upgrades to accommodate todays magnitude of travelers. We require a better plan to accommodate our districts diverse needs and volume which will provide opportunity to our residents. Transportation should not cause the hardship it does to so many. Our district requires a solid mass transportation plan that will provide safe, accessible and affordable travel to all of our neighbors. Transportation promotes economic stability.

5. SUMMARY OF COMMUNITY DISTRICT NEEDS AND BUDGET REQUESTS

HEALTH CARE AND HUMAN SERVICES

Queens Community Board 1

Most Important Issue Related to Health Care and Human Services

Other

All of the listed items are important to our environment and quality of life

Community District Needs Related to Health Care and Human Services

Needs for Health Care and Facilities

Our request in the past has been to provide senior center staffing. The services for elderly and disabled including homecare, Meals on Wheels, and medical transportation are critically needed as our population is increasingly older and their funds are limited. Our Board experienced a DFTA Pilot Program, Taxi Smart Card. The program didn't have funding for advertising, so in turn, the community didn't have the opportunity to participate to its fullest ability. However, residents who did participate are urging our Board to advocate to have this program reinstated. Transportation for our elder population is in dire need as this portion of our community grows.

Needs for Older NYs

There is an increase in Seniors Citizens residing in CD1, which has resulted in a higher demand of all types of services such as; housing, specialized health care facilities, medical transportation services in addition to an expanded meal delivery system to the home bound. This birth population is the fastest growing population of seniors in history. Our district being proactive advocating for the necessity of these services for our residents.

Needs for Homeless

Any necessary services to improve the quality of life should be provided.

Needs for Low Income NYs

Any necessary services to improve the quality of life should be provided.

In past years, our officers have had innumerable floods in their locker rooms from sewage backup during rain. The building was scaffold for approximately 5 years due to deterioration. Our current structure is too small for the number of officers our district requires. 5x5 rooms must be share with multiple users. The building itself is out dated and it would cost more to update versus a reconstruction. With the massive increase in residents and expansion in night life our district requires more manpower. Community District Needs Related to Transportation and Mobility.

Needs for Traffic and Transportation Infrastructure

CD1, Queens is redeveloping in every corner of the district. Our District is (5) minutes outside Manhattan and has access to all additional boroughs, it is a transportation hub. We have the BQE, GCP, Northern Blvd. RFK/ Triboro and LaGuardia Airport, Queens Borough Bridge and additional arteries through our district. Our roadways require constant maintenance due to the high demand placed on them. Pothole, sidewalk and curb repairs must be addressed along with bridge and overpass maintenance. Poor road conditions pose a danger to our bike traffic, pedestrians and automobiles. Because Queens is a transportation desert, people flock to our district to use mass transportation. We have recently acquired alternate forms of transportation such as Citi Bike, the Ferry and Revel Vespas. However, the lack of parking in our district has caused an extreme hardship on businesses, residents and visitors alike. We seek an improvement to provide additional parking within our boundaries to facilitate the community. We do not want to lose the socioeconomic benefits to the community from transient traffic, due to the lack of space.

Needs for Transit Services

All services should be evaluated on a regular basis and any improvements should be made to enhance the travelers' experiences. Frequency on trains and busses is essential to the communities' travel experience.
