Statements of Community District Needs

and

Community Board Budget Requests

for

Queens Community District 1 Fiscal Year 2019

Submitted to the Department of City Planning
January 2018

INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

HOW TO USE THIS REPORT

This report represents Queens Community Board 1's *Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2019*. This report contains the formatted but otherwise unedited content provided by the community board, collected through an online form available to community boards from June to November 2017.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

If you have questions about this report or suggestions for changes please contact:

This report is broadly structured as follows:

a) Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

b) Policy Area - Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

c) Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY19 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

3. Overview of Community District

NEEDS STATEMENT FY 2019

INTRODUCTION

Community Board 1, Queens is bounded by Bowery Bay on the north, on the south by Queens Plaza North, Northern Boulevard and the LIRR Tracks, on the west by the East River, and on the east along the west bound curve of the Brooklyn Queens Expressway to the Grand Central Parkway and 82nd Street. We service the communities of Astoria and portions of Long Island City, Woodside and Jackson Heights.

Our zoning is mixed with residential, manufacturing, industrial and commercial areas, two Industrial Zones, and two Business Improvement Districts. We have major shopping areas along Broadway, Ditmars Boulevard, Steinway Street, 30th and 36th Avenues and Northern Boulevard.

The District abuts LaGuardia Airport, along with several major roads that provide access through our community to and from Manhattan via the Queens Borough Bridge, Brooklyn via the BQE and the Bronx via the RFK/Triborough Bridge. We also provide the only land access to Rikers and Roosevelt Islands. District 1 is home to the largest number of energy power plants that provide electricity to all of New York City.

We are the most culturally diversified District in New York City with 119 different nationalities and counting.

Our community has many desirable qualities, including the beautiful waterfront, cultural establishments such as the Museum of the Moving Image, the Noguchi Museum, Socrates Sculpture Park and a replica of an ancient Greek Amphitheater at Athens Square. We are home to the Kaufman Astoria Studios, and Arts District and one of the largest film and television production centers on the east coast.

In May of 2016, District 1 welcomed the opening of Mount Sinai Hospital of Queens new additional building. This is the only hospital serving our community including the areas of Roosevelt Island and Riker's Island in critical, life saving time.

Our District has the greatest number of Enclosed and Unenclosed Sidewalk Cafes in Queens. The Board appreciates the ambiance that these cafes bring to our community and we realize that the quality-of-life of our residents must be maintained.

Currently, Queens County has the greatest number of trees of all the boroughs. Our Districts has numerous parks and recreation areas with Astoria Park being the crown jewel of our community. At the present time CB1 is in an upward transition and development of new housing is at an all time high and the infrastructure will soon require upgrades at all levels.

Our Board has seen the addition of Citi Bike and the NYC Ferry to our Districts transportation system. In addition, we look forward to the benefits from the modernization of La Guardia Airport and the opportunities Cornell Tech Center will provide to our community. We look forward to a "silicon alley" within our boundaries.

Respectfully submitted,

Marie Torniali, Chairperson Florence Koulouris, District Manager

4. Top Three Pressing Issues Overall

The three most pressing issues facing Queens Community Board 1 are:

- *Affordable housing*
- *Police-community relations*
- *Transit (buses & subways)*

AFFORDABLE HOUSING- The need for affordable housing in our district has produced a market for illegal apartment conversion. It has long been the Board's opinion that legislation should be considered to legalize apartments that meet all safety regulations. This will provide safe affordable housing and add to the City's tax base. Increased rents for those living on a fixed income are forcing many seniors and disable residents to move from their homes and our community, that they have lived in for many years, some a lifetime.

POLICE-COMMUNITY RELATIONS- Residential development has increased tremendously in our District impacting on all services, particularly the Police. We have an increase in night life, approximately 160 establishments in our District, that impacts on the quality of life in our neighborhood as in the surrounding communities. We urge the enforcement of regulations pertaining to cabarets and bars i.e.: excessive noise, drugs and serving alcohol to minors. The MARCH Program (Multi Agency Response to Club Hotspots) must be continued.

TRANSIT- CB1 acknowledges the need for safe passages of cyclists through the City which we support, however, we have serious concerns regarding the elimination of parking spaces, particularly in our commercial and professional areas. This creates a hardship for the business that need parking to accommodate patrons. New developments have brought more residents who depend on public transportation. In addition, many commuters from Nassau and Suffolk counties drive as far as Astoria and park their cars and board the train to Manhattan. We have had the installation of Citi Bike and the ferry to aid in Transportation options. However, the mass transportation system requires massive service upgrades.

Main Issue Related to Health Care and Human Services

Other/all are equal

Our District has a large population of seniors, many of whom are homebound and depend on home delivered meals, home health care and visiting nurse services. Home care for our frail and elderly is less costly to our City and more desirable to many in need. These services must be maintained and expanded when fiscally possible. Mount Sinai Hospital of Queens is the only hospital serving our community, surrounding areas including Roosevelt Island. The construction of a new 6 story ambulatory building will be completed ending of 2016. This addition will expand the Emergency Department and will include seven (7) new state-of-art operating rooms, primary care and multi specialized physician practices. Program services for seniors, adults, & children are in dire need.

Community District Needs Related to Health Care Facilities and Programming

Our request in the past has been to provide senior center staffing. The services for elderly and disabled including homecare, Meals on Wheels, and medical transportation are critically needed as our population is increasingly older and their funds are limited. Our Board experienced a DFTA Pilot Program, Taxi Smart Card. The program didn't have funding for advertising, so in turn, the community didn't have the opportunity to participate to its fullest ability. However, residents who did participate are urging our Board to advocate to have this program reinstated. Transportation for our elder population is in dire need as this portion of our community grows.

Community District Needs Related to Facilities and Programming for Older New Yorkers

There is an increase in Seniors Citizens residing in CD1, which has resulted in a higher demand of all types of services such as; housing, specialized health care facilities, medical transportation services in addition to an expanded meal delivery system to the home bound. This birth population is the fastest growing population of seniors in history. Our district being proactive advocating for the necessity of these services for our residents.

Youth, Education and Child Welfare

Main Issue Related to Youth, Education and Child Welfare

Other/Our district finds all the listed items equally important.

CB1 has had an increase in the school-age population from Pre-K to high school due to the influx of many families to the new residential buildings. After School Programs are crucial and must be maintained. The summer Youth Employment Program is unique and essential to youth 14 to 24 that provides 6 weeks of paid work experience. Child Welfare Services must be continued to help protect and advance the interests of all children in our community. Educational support for all students must be continued at all grade levels. It is of utmost importance that arts, music & cultural programs for our children be instituted. In addition, our youth particularly our female youth, must learn the computer skills, coding, and technological equipment in our schools that will prepare them for future employment opportunities and educational fulfillment.

Community District Needs Related to Educational Facilities and Programs

High schools are overcrowded and additional shifts should be established to safely & adequately accommodate all high school students. It is important for all students to be aware of the importance of practicing safety at all times.

Community District Needs Related to Services for Children and Child Welfare

Required installation of seat belts in school buses which transport children. This is a safety issue and can save lives. This needs immediate attention. (item-2)

5. Summary of Community District Needs and Budget Requests

Public Safety and Emergency Services

Main Issue Related to Public Safety and Emergency Services

Other/All of the items listed are equally important to our residents quality of life in our district.

We have an increase in night life, approximately 160 establishments in our district that impacts on the quality of life for all our residents. The MARCH (Multi Agency Response to Club Hotspots) has been effective in monitoring these establishments that violate the law, it must be continued and expanded when fiscally possible. More Police are needed on the streets to serve our community. Due to our close proximity to Manhattan, the Bronx and Roosevelt Island our Fire resources are stretched to supplement fire protection to those areas. The development of high-rise and multi-family dwellings where 1 and 2 family homes existed has created an even greater demand on our fire resources. Emergency Services Workers are critical as first responders to an emergency they must be maintained and expanded when possible. Each year our community population grows and we require an expansion of services to preserve the quality of life that attracted our residents and visitors to our district.

Community District Needs Related to Policing and Crime

Increased Uniform Personnel for the 114 Precinct. This is required to address all of the issues outlined in all sections of this Budget Submission. (item-1)

Core Infrastructure, City Services and Resiliency

Main Issue Related to Core Infrastructure, City Services and Resiliency

Other/all above are equally important

CB1 approved two major re-zoning in the vicinity of Hallet's Cove area. The zoning change for both projects will permit the construction of 4000 residential units with commercial development. This new development has placed an incredible large strain on our infrastructure, particularly on our combined and storm sewers. The City must plan for the increase in higher density development areas. The upkeep of the sewer catch basin is critical in preventing Floods. Our District has the greatest number of Power Plants in the City of New York, LaGuardia Airport, the Grand Central Parkway, the BQE Expressway, the Robert F. Kennedy, Queensborough/Koch Bridges. Exhaust and air fuel fumes to our community's highest respiratory distresses and illnesses. Asthma and respiratory illness is a huge issue in our

Community District Needs Related to Water, Sewers and Environmental Protection

Increase man power for catch basin maintenance throughout CD1.

Community District Needs Related to Sanitation Services

The increase of sanitation police is necessary . Graffiti removal is essential, particularly in the commercial strips through out CD1 . Increase sanitation levels of operation. It is extremely necessary to relocate or expand the Queens West 1 Sanitation Garage. (Priority 11)

Land Use, Housing and Economic Development

Main Issue Related to Land Use, Housing and Economic Development

Other/All of the above are equally important

Our District has five New York City Housing Authority (NYCHA) developments; Astoria, Queensbridge, Ravenswood and the Woodside Houses. Funding from Federal/State/City sources for afterschool, senior citizens programs as well as repairs are essential. We are in need of a greater percentage of affordable units. District 1's commercial/manufacturing/industrial areas play an important role in the stability of our community. Commercial strips must be supported by City services as: curb and sidewalk repairs and tree maintenance. The need for parking spaces in these areas is crucial to their survival who must compete with the malls and cyber shopping. We hope to see a "silicon alley" form in our district to provide job opportunities to our residents with having the Cornell Technion just over the 36 Ave. Bridge in our boundaries.

Community District Needs Related to Land Use

CD1 is in extreme need to hire building inspectors for the multitude of complaints reported to the 311 system. (Priority 14)

Community District Needs Related to Housing Needs and Programming

CD1 is in extreme need to hire building inspectors for the multitude of complaints reported to the 311 system.

Community District Needs Related to Economic Development

The revitalization of our commercial strips to increase the pedestrian traffic is imperative to the livelihood of our merchants. We must expand telecommunications utilities throughout CD1 for Wi-Fi access.

Transportation

Main Issue Related to Transportation

Other/All above

Our district is under development. All the above the noted issues are important to our district. CB1 acknowledges that cyclist safety is needed and we encourage sidewalk bike racks to accommodate them. The elimination of parking spaces particularly in commercial areas is of great concern to us. This creates a hardship for doctors offices and businesses that desperately need parking for their patrons. We have had the installation of Citi Bike in our District. A new ferry has been launched and the MTA is doing modifications to the elevated train line in our district. LGA is being redeveloped. We require various transportation checks and balances due to the extreme growth of our community. Buses and trains are crowded and delayed. Trucks use Astoria Blvd. leaving the JFK Bridge/BQE and we have no ADA access to the elevated train. Individuals drive into our district to use mass transportation due to the lack of access in other areas.

Community District Needs Related to Traffic and Transportation Infrastructure

CD1, Queens is redeveloping in every corner of the district. Our District is (5) Minutes outside Manhattan and has access to all additional boroughs, it is transportation hub. People come from through out the Borough to use transportation services. We have the BQE, GCP, Northern Blvd. JFK/ Triboro and LaGuardia Airport, Queens Borough Bridge and additional arteries through our district. Our roadways require constant maintenance due to the high demand placed on them. Because Queens is a transportation desert, people flock to our district to use mass transportation. We have recently acquired alternate forms of transportation such as Citi Bike and the ferry. However, the lack of parking in our district has caused an extreme hardship on businesses, residents and visitors alike. We seek an improvement to provide additional parking within our boundaries to facilitate the community.

Parks, Cultural and other Community Facilities

Main Issue Related to Parks, Cultural and other Community Facilities

Other/All of above

Our increased population has created a greater need for the development of open spaces. Many of our playgrounds require renovations, with the inclusion of safety gates that would prevent primarily toddlers from leaving the playground. We eagerly anticipate the construction of a performance space, in the dormant diving pool area of the Landmarked Diving Pool in Astoria Park. This venue for live performance will be a show place for our community as well as the entire City. Our parks are our backyards and require updates and maintenance. Our parks are used for various community events through out the year. These services are required to provide safe, healthy access to our community.

Community District Needs Related to Parks and Recreational Facilities and Programming

Create New expanded Comfort Station in North Side of Astoria Park. Astoria Park Track: Reconstruct & Paint lines, Upgrade Infield for sports Use, using the artificial turf. Whitney Ford Field: Renovate Ball field and create Waterfront Access. Community Cultural Facilities need greater support for their activities. Community Board Offices need additional staff and upgraded equipment, to provide services to the community.

Community District Needs Related to Library Facilities and Programming

Our libraries require technology access for all the users in our district. Programing is essential to the diverse community we serve. Availability of access to the library is needed. Staffing and funding is a necessity.

Community District Needs Related to Community Boards

As our community grows we require more full time and part time staffing in the Community Board Office to assist the residents of our district in responding to the many needs and complaints the office receives on a daily basis. Preparation for the board meeting requires special attention due to the documents intense sensitivity, staffers are required to dedicate time and effort in exacting work on a timely basis.
