Budget Requests

Fiscal Year 2024

Created by the Community Board, in collaboration with:

Bronx Community District 10

Letter from DCP Director Daniel Garodnick

To my fellow New Yorkers:

Every year, each of New York City's 59 community boards advocate for the needs of its residents and stakeholders by preparing a Statement of Community District (CD) Needs and Community Board Budget Requests. Through this process, community boards share the top issues impacting their neighborhoods and propose capital and expense requests to address those identified needs. I'd like to thank the volunteer members of our community boards and the District Managers who work so hard in leading this essential process and in preparing these reports.

The annual CD Needs process is the product of months of collaboration and public input and is a valuable tool for New Yorkers to participate in neighborhood planning. At the broadest levels, CD Needs offers a critical window into the challenges faced by New Yorkers, and how those challenges may differ across neighborhoods. At a granular level, it provides a forum through which community leaders specify those needs and make recommendations for spending -- which in turn are used by City agencies, elected officials, advocacy groups, and non-profit service providers, among others, to better understand and meet the individual needs of each community board.

Through this year's submissions, we heard the stories of our communities' biggest challenges, such as the human impacts of our housing crisis. In that vein, community boards again selected affordable housing as the most pressing issue citywide, followed by crime and public safety, and parks and open space. Through our online form, community boards generated more than 3,700 budget requests, and for each, one of 28 City agencies responded to indicate whether the request could be accommodated within the upcoming annual budget. This year, in line with our commitment to increasing transparency across the CD Needs process, we are publishing agency responses to these requests in the final section of these reports.

DCP deeply values our partnership with community boards. We remain committed to supporting them by increasing participation in, and improving the transparency of, the CD Needs process. We have received valuable feedback from our community board partners, and we are excited to work with them to continue improving our online submission form, to connect boards with agencies to advance budget request proposals, and to open the form earlier in the calendar year to allow more time for public input and preparation. We look forward to advancing this work with both community boards and City agencies to ensure this is a valuable and productive way to improve our City's neighborhoods and to respond to local community needs.

Sincerely,

INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

This report is broadly structured as follows:

1. Overarching Community District Needs

Sections 1-4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

2. Policy Area-Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

3. Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY24 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

Statement on Data Accuracy

Under Title 13 of the U.S. Code, the Census Bureau is legally bound to protect the privacy of individuals participating in the decennial census. To adhere to the law and to avoid the disclosure of information about individual respondents, the Census Bureau has historically applied a host of techniques, such as top- and bottom-coding, imputation, table- and cell-suppression, and data swapping. The Census Bureau is employing a new technique with the 2020 Census, referred to as the Disclosure Avoidance System (DAS), based on differential privacy. With this approach, the Census Bureau "infuses noise" systematically across census data and sets a quantified disclosure risk, referred to as the Privacy Loss Budget (PLB).

While the new DAS approach may diminish the risk of disclosure concerns, it comes at a cost to data accuracy. Consequently, 2020 Census data users should be aware that all sub-state counts, except for housing units (which are unaffected by the DAS), may be adjusted to protect the privacy of Census participants and may be subject to reduced accuracy. Because DAS noise infusion is randomized, it is impossible for data users to know the degree to which any individual statistic is altered. However, it is possible to say that in general the relative size of errors decreases as counts increase. Consequently, data users should have greater confidence in the accuracy of the data as counts get larger. Further, an evaluation of a Privacy-Protected Microdata File (PPMF), treated with a Disclosure Avoidance System like the one applied to 2020 redistricting data, showed that counts of 300 or more rarely have sizable errors (error beyond +/- 10% of the count). Therefore, while data users need to be cognizant of data accuracy limitations, they should have confidence in conclusions based on sizable counts, which are relatively unaffected by the Census Bureau's latest disclosure avoidance method.

3. OVERVIEW OF COMMUNITY DISTRICT

Bronx Community Board #10 is one of the largest geographic Community Board Districts in the borough of The Bronx. The Board serves the communities of Pelham Bay, City Island, Country Club, Throggs Neck, Co-op City, Westchester Square and Zerega. It features one of the most diverse housing categories in the City. It primarily consists of 1-3 family homes. However, it is home to the largest housing cooperative in New York State in Co-op City and is home to a sizable public housing stock in that of Middletown Plaza, Throggs Neck Houses and Randall-Balcom Houses. Bronx Community Board #10 is a district surrounded by the following water bodies: Eastchester Bay, Long Island Sound and the East River. These bodies of water highlight the need for storm resiliency measures that will protect our communities from tidal surges that are expected to come from major storms. As proper stewards for the Board's service areas, we at Bronx CB #10 took it upon ourselves to conduct an examination of the Board's storm surge defenses. The research yielded recommendations such as earth berms, rock jetties and sea walls control coastal flooding from the storms. The Board further felt that the storm sewers should be examined district-wide as well. High functioning and adequately sized sewers are needed for the water to drain off. The Board is interested in seeing DEP and DOT develop joint projects for these purposes. Bronx Community Board #10 is experiencing population growth in nearly all of its neighborhoods. It is crucial that the City continue to renovate our parks, increase recreational programming for children and seniors, increase school seats, refurbish and maintain our roads and sidewalks, further commit to the livelihood of our small businesses through business improvement district formation and repair our public housing stock so that our most vulnerable are protected. With population growth comes further strains on our public resources such as mass transit. Bronx Community Board #10 residents experience one of the longest subway rides to Manhattan according to New York University. With this in mind, it is crucial for the City of New York to study ways to take advantage of our largely unused waterways for possible ferry service and to find ways to expand bus service throughout all of Co-op City and City Island. Bronx Community Board #10 stands ready to support measures that will go toward enhancing the quality-of-life our residents. The City should take the ensuing priorities as the start of a much larger endeavor to plan the future of Bronx Community Board #10 in a way that enhances quality-of-life and ensures that the Board's service areas are seeing the resources it needs.

4. TOP THREE PRESSING ISSUES OVERALL

Bronx Community Board 10

The three most pressing issues facing this Community Board are:

Quality of life issues (noise, graffiti, petty crime, etc.)

Bronx Community Board #10 chose quality-of-life, resiliency measures and transit as its three most pressing needs. However, senior services, recreational and cultural programming at our parks, cleanliness along our corridors, thriving schools, traffic mitigation and an increased focus on quality-of-life enforcement are issues that many of our residents want the City to continue to focus on going forward. According to the City's Department of City Planning, many of Board #10's residents are aging in place. We ask that the City provide the Board Service Area with more resources through the Department for the Aging for our seniors. Bronx Community Board #10 is home to the largest park in the City of New York. The need for more Parks Enforcement Officers is an annual request. Additionally, Pelham Bay Park needs more staffing to protect its unique horticulture. According to the City's Department of City Planning, Bronx Community Board #10 has one of the higher car-usage rates. We ask that the City (and the State of New York) assist us with extensive traffic mitigation and further resources for the repair and maintenance of our subways as well as examine the feasibility of transit alternatives along our waterfronts. Bronx Community Board #10 is seeing an increase in residential and commercial development. Neighborhood context and identity are items we will discuss with City Planning to ensure that zoning protects our neighborhoods' character. Bronx Community Board #10 is serviced by the 45th Precinct. Because the Board Service Area is bounded by highways, we ask that the City enforce quality-of-life concerns so that our communities are not victims to grand larceny and petty crimes. The 45th Precinct officers are detailed annually to other areas of the borough. Bronx Community Board #10 continues to request that the City provide the Board Service Area with adequate policing resources at all times as the safety of our communities is our top priority. Lastly, Bronx Community Board #10 streets and roadways are constantly flooding during rainstorms. A storm such as Hurricane Sandy will only make matters worse. We ask that the City's Department of Environmental Protection contact the Board to begin studying areas where flooding is constant. Resiliency measures are needed throughout our waterfront communities.

Traffic

As aforementioned, Community Board #10 remains near the top of community districts in terms of automobile usage and ownership. Traffic congestion has worsened. Roadway maintenance is needed annually. Further traffic controls are needed at specific intersections and along corridors such as Layton Avenue and along Harding Avenue.

Trash removal & cleanliness

Community Board #10's population is increasing. We ask that the City of New York initiate a study of our district to ensure we are receiving adequate sanitation resources. Historically, Community Board #10 has ranked near the top in cleanliness in the Bronx. However, our district office has seen an increase in illegal dumping and over-flowing litter basket complaints. Along our highway service roads, illegal dumping is a daily occurrence. It behooves the City of New York to be able to receive video complaints of perpetrators committing this action.

5. SUMMARY OF COMMUNITY DISTRICT NEEDS AND BUDGET REQUESTS

HEALTH CARE AND HUMAN SERVICES

Bronx Community Board 10

Most Important Issue Related to Health Care and Human Services

Other

There are many transportation and mobility concerns in Community Board #10. Highway and local street congestion is worsening. Other than Pelham Bay Station, not a single NYCT train stop has an elevator for the mobility-impaired community to use. The Westchester Square station is an ideal location for elevator service from the MTA NYCT. Street lighting is inadequate on Westchester and East Tremont Avenues. We request that the NYC DOT initiate a study of the Westchester Avenue corridor.

Community District Needs Related to Health Care and Human Services

Needs for Health Care and Facilities

Our Board is served by the Jack D. Weiler Hospital of Montefiore Medical Center and its medical school, the Albert Einstein College of Medicine. We are also served by Jacobi Hospital of NYC Health and Hospitals (NYC H+H). The two hospitals are in close proximity to each other. By contract and custom, the medical school provides physicians to Jacobi Hospital. Both have busy emergency rooms that are used by many residents of our borough. To counteract this, we ask that the City, through the NYC H+H, develop an educational campaign as to the use and drawbacks of emergency service care and when an alternative, such as an urgent care, may be better suited for them.

Needs for Older NYs

According to City Planning, Bronx Community Board #10's is home too a high senior citizen population. Co-op City is a Naturally Occurring Retirement Community, or NORC. With this in mind, Bronx Community Board #10 asks that the City, through DFTA and its corresponding senior centers, invest in more case management, educational activities, trips and health promotion for our seniors.

Needs for Homeless

Bronx Community Board #10 is located in the northeast Bronx. Its business services are concentrated in several commercial areas: E. Tremont Avenue, Crosby Avenue, Westchester Square, Bartow Avenue and City Island Avenue. DHS placed a shelter for 95 women and children in a former hotel, on the outskirts of our Board area. It has no laundry facilities on site, so the women must take two buses to reach the nearest laundry mat. There are no cooking facilities (microwaves in the rooms) flouting the requirements of the Comptroller's Memorandum governing Emergency Contracts that states such facilities must be located in rooms where women with children or pregnant women are domiciled. There is anecdotal evidence from the community at large, that the meals offered to the clients at the shelter are unappetizing and that they are often discarded. One of the contractual goals of the shelter operators is to provide the clients with opportunities for job training. employment and enhanced social services. Bronx Community Board #10 is home to three City of New York-operated shelters. We ask that the City bear in mind that under the Fair Share Criteria, Bronx Community Board #10 has met its requirement.

Needs for Low Income NYs

Many CB #10 residents apply for and receive SNAP Benefits. According to City Planning's Community District Profile, CB #10's unemployment is higher than the City's average while roughly 20% of our residents are seniors. Simply put, SNAP benefits are a lifeline for many residents and we ask that the City to enhance this resource with additional funding. The City of New York should study the feasibility of having a SNAP Center in the confines of CB #10 so that our seniors and low-income families do not have to travel to other parts of the borough.

YOUTH, EDUCATION AND CHILD WELFARE

Bronx Community Board 10

Most Important Issue Related to Youth, Education and Child Welfare

Other

Our public school buildings still have no air conditoning. After school programs are administered by lottery. Parents and guardians request for more 3PK and UPK facilities in our district. These are some of many requests that our communities ask of us. We must expand after school programing to any child that needs one. We must expand beacon programming. We must equip our schools with air conditioning and 21st Century technologies.

Community District Needs Related to Youth, Education and Child Welfare

Needs for Youth Education

Literacy rates fell during the pandemic. All of our public schools should be equipped with a library and librarian. We ask that the Department of Education find space immediately to accommodate a library within our classrooms.

PUBLIC SAFETY AND EMERGENCY SERVICES

Bronx Community Board 10

Most Important Issue Related to Public Safety and Emergency Services

Other

or.

Community District Needs Related to Public Safety and Emergency Services

Needs for Public Safety

The entirety of the 45th Precinct is surrounded by highways. We ask that the City give the 45th Precinct its own drug module and continue to enforce quality-of-life issues such as noise. Additionally, we thank the NYPD for establishing the Neighborhood Coordination Officers program this calendar year. However, the creation of a separate NCO program for City Island and Co-op City behooves the NYPD.

Needs for Emergency Services

Emergency services are crucial components to the livelihood of a community. We ask that the FDNY, along with the NYPD, report to the Board in writing that any location service apparatus being used is accurate. For example, the community of Edgewater Park is often misidentified. The City should work with the Board immediately on this issue.

Capital Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
2/26	NYPD	Provide a new NYPD facility, such as a new precinct house or sub-precinct	The Rodman's Neck Training Facility needs sound abatement installed to protect our waterfront communities. This is a long-standing request as we know the facility will undergo renovation. We must have the sound abatement in place immediately.	
8/26	NYPD	Provide a new NYPD facility, such as a new precinct house or sub-precinct	A Bronx-wide Harbor Patrol Unit is sorely needed. We remain the only borough without a permanent Harbor Patrol.	
26/26	NYPD	Other NYPD facilities and equipment requests	Each precinct needs a large tow truck to tow away the influx of tractor trailers in our community. It is a widespread issue.	

Expense Requests Related to Public Safety and Emergency Services

Priority	Agency	Request	Explanation	Location
1/30	NYPD	Hire additional traffic enforcement agents	In addition to steady Harbor Patrol throughout the year, a neighborhood coordination officer program should be established for the Bronx Harbor Patrol. This will help facilitate communication between waterfront communities and the NYPD.	
2/30	FDNY	Provide more firefighters or EMS workers	The current amount of Neighborhood Coordination Officers is inadequate since Community Board #10 is one of the largest geographic districts in the City. Our current program has six. We ask that the NYPD assign at least three (3) additional officers to the program. We ask for that the communities of Co-op City and City Island have its own Neighborhood Coordination Officers.	
14/30	NYPD	Hire additional community affairs officers	The Neighborhood Coordination Officers program is successful. However, our district covers a large swath and needs the allocation of at least 3 more NCOs.	

CORE INFRASTRUCTURE, CITY SERVICES AND RESILIENCY

Bronx Community Board 10

Community District Needs Related to Core Infrastructure, City Services and Resiliency

Needs for Water, Sewers, and Environmental Protection

Bronx Community Board #10 would like to see a joint DEP/DOT program to survey our areas and install storm breaks like earthen berms and sea walls. If a major hurricane type storm were to hit our Board, we would experience storm surges that would deposit massive amounts of water on land causing massive damage and flooding that would result in stagnant pools of water that will take days to drain, because the sewers are inadequate to meet the increased demands of drainage. Neighborhoods like City Island would experience flooding on streets like Tier, Bay, Fordham, Hawkins, Carroll, Centre, Winter, Early, Pell, Reynolds, Pilot, Marine, Buckley, Horton, Schofield, Rochelle, Beach, Kilroe, Sutherland and Terrace Streets; King Avenue and Fordham Place are inadequately protected. In Edgewater Park, which has a sea wall, 1st, 2nd and 4th Avenue, Pennyfield Avenue and Soundview Drive are vulnerable; Silver Beach, which also has a sea wall, is also prone to flooding. Acorn, Beach, Ceder, Daisy, Elm, Fern, Geranium, and Hazel Streets, Ivy, Jasmine, Edgar, Dare, Casler, Bevy, Alan, Schuyler Places, Indian Terrace, and the campus of SUNY Maritime College, are all prone to flooding. Within Locust Point, Locust Point Avenue, Tierney Place, Longstreet Avenue and Hatting Avenue, the Hammond Cove and Locust Point Marina area, and Calhoun and Schurz Avenues in Throggs Neck will be badly affected, as well as Clarence and Randall Avenues and Country Club. The end of Lafayette Avenue in Ferry Point and all of Ferry Point Park will be flooded. The Board would like to see that both agencies develop a plan to stop the storm water surges and to provide a sewer system that will be able to handle them.

Needs for Sanitation Services

Bronx Community Board #10 enjoys one of the highest rates of recycling in the City. Co-op City, the largest housing cooperative in the State recycles and processes its own waste and we are still limited to one day a week pick up. For several years, the Board has been requesting an additional day for pickup. We believe that we have proven our commitment to the City's recycling goals and therefore, request another day.

Capital Requests Related to Core Infrastructure, City Services and Resiliency

HOUSING, ECONOMIC DEVELOPMENT AND LAND USE

Bronx Community Board 10

Most Important Issue Related to Housing, Economic Development and Land Use

Workforce development (including MWBE opportunities)

Explanation

Community District Needs Related to Housing, Economic Development and Land Use

Needs for Land Use

All of CB #10 is in a Lower Growth Management Area. However, we are finding that in R7-1 districts, parking is waived in certain cases when the lot size is too narrow. With the growth in basement apartments, parking is further limited. Strengthening parking requirements is a solution to the multi story buildings that are replacing formerly one and two-family homes. Bronx Community Board #10 asks that the City Planning Department conduct a neighborhood study to assess development trends, strengthening parking requirements and current transportation services.

Needs for Housing

We ask that the City of New York remove any and all lead in the Throggs Neck Houses apartments. We ask that the City provide adequate heat and hot water through the winter months. Bronx Community Board #10 received complaints on both matters. We stand ready to assist in identifying residents that are in danger and how the City can improve their living space in an expeditious manner.

TRANSPORTATION

Bronx Community Board 10

Most Important Issue Related to Transportation and Mobility

Other

There are many transportation and mobility concerns in Community Board #10. Highway and local street congestion is worsening. Other than Pelham Bay Station, not a single NYCT train stop has an elevator for the mobility-impaired community to use. The Westchester Square station is an ideal location for elevator service from the MTA NYCT. Street lighting is inadequate on Westchester and East Tremont Avenues. We request that the NYC DOT initiate a study of the Westchester Avenue corridor.

Community District Needs Related to Transportation and Mobility

Needs for Traffic and Transportation Infrastructure

The Board seeks several capital reconstruction projects and light surveys.

Needs for Transit Services

Because of a lack of subway network, bus service is crucial to Bronx Community Board #10. In years past, we have requested expanded service in Co-op City and City Island and a long East Tremont Avenue via the BX 40 and BX 42 routes. Bus service, according to many media outlets and think tanks, has slowed in New York City while ridership has decreased. It is crucial we look toward ways to improve bus service and expand in areas where there is no NYCT footprint.

PARKS, CULTURAL AND OTHER COMMUNITY FACILITIES

Bronx Community Board 10

Most Important Issue Related to Parks, Cultural and Other Community Facilities

Quality of parks and park facilities

The NYC Parks Department is grossly underfunded. Bronx Community Board #10 wishes to see area parks repaired and updated. Enhancing the experience at our parks goes a long way toward fostering community development and improving our quality-of-life. Pelham Bay Park is the largest park in New York City. Bronx Community Board #10 requests that the city hire the appropriate amount of staffing in its horticulture unit at Pelham Bay Park, fully invest in the Orchard Beach Pavilion and Bath House. In addition, we ask that the City fully fund the tree and sidewalks program, enhance funding for tree pruning and hire more Parks Enforcement Patrol personnel.

Needs for Library Services

The Westchester Square Library is scheduled for a new building. It is an innovative design that the Board supports and the community welcomes. Funding is in place and the Board looks forward to its construction. The Board expects that the library will be a state of the art facility that will offer innovative and popular programs. The Board is home to several other fine libraries and we have always advocated for their funding. It is hoped that they will receive the needed resources to carry on its great work.
