STATEMENT OF COMMUNITY DISTRICT NEEDS AND COMMUNITY BOARD BUDGET REQUESTS

Community District 7 The Bronx

FISCAL YEAR
2027

THE CITY OF NEW YORK

BOROUGH OF THE BRONX

COMMUNITY BOARD 7

VANESSA L. GIBSON, BOROUGH PRESIDENT

LEURYS ACOSTA, CHAIRPERSON

KARLA CABRERA CARRERA, DISTRICT MANAGER

October 31, 2025

Dear Bronx Community Board 7 Community,

Bronx Community Board 7 (CB7) is an Advisory Board that consists of dedicated community volunteers appointed by the Bronx Borough President and NYC council members. Community Board 7's goal is to assist and empower the residents. We serve the community through 7 committees, monthly General Board meetings, constituent services, and frequent informational newsletters. Our meeting calendar is posted on our [website](#) and our [Instagram page](#). We invite you to subscribe to our emails by emailing the [District Manager](#).

Bronx CB7 is made up of the neighborhoods of Bedford Park, Fordham, Kingsbridge Heights, Norwood, and University Heights. Geographically, the district extends from the East at Webster Avenue to the West at Goulden Avenue and the Harlem River. The North end boundary of the district starts from the south end of Woodland Cemetery (E 211th Street) to Fordham Road and West 183rd Street on the South end. The area is served by two subway lines, D and 4, and Metro-North service from/to Westchester County and Grand Central Station. Several major institutions are our neighbors, such as Lehman College, Montefiore Hospital, and the New York Botanical Garden. The Community Board is also home to two recognizable high schools, Bronx High School of Science and DeWitt Clinton High School, and 34 public schools.

According to the 2020 U.S. Census Redistricting Data, Bronx Community Board 7 is densely populated, with 146,813 residents, and nearly 25% are 18 years old and under. 68.1% of our residents identified as Hispanic/Latino (of any race), 16.7% identified as Black non-Hispanic, 6.8% identified as Asian non-Hispanic, 5.6% identified as White non-Hispanic, 1.5% identified as Non-Hispanic Biracial, and 1.3% identified as Some other race, non-Hispanic. Our community mainly lives in rental units in multi-family buildings, as homeownership has been on the decline. Nearly 50% of our households are rent-burdened, meaning they spend 35% or more of their income on rent. Many of the private homes in our neighborhoods have been sold out, and as a result, the district has seen enormous development. Former houses are being developed into new residential buildings with Supportive and Affordable Housing Units. New developments take advantage of zoning laws to build taller buildings, maximizing the number of units. Bronx Community Board 7 would like to ensure housing is developed responsibly to accommodate the current fabric of our neighborhoods, and increasing municipal services to meet the growing population needs and demands. Bronx CB7's growing community needs additional municipal services (sanitation, public safety, transportation, and park maintenance) to thrive.

In service,

Karla Cabrera Carrera, MPA

Statement on Data Accuracy

Under Title 13 of the U.S. Code, the Census Bureau is legally bound to protect the privacy of individuals participating in the decennial census. To adhere to the law and to avoid the disclosure of information about individual respondents, the Census Bureau has historically applied a host of techniques, such as top- and bottom-coding, imputation, table- and cell-suppression, and data swapping. The Census Bureau is employing a new technique with the 2020 Census, referred to as the Disclosure Avoidance System (DAS), based on differential privacy. With this approach, the Census Bureau “infuses noise” systematically across census data and sets a quantified disclosure risk, referred to as the Privacy Loss Budget (PLB).

While the new DAS approach may diminish the risk of disclosure concerns, it comes at a cost to data accuracy. Consequently, 2020 Census data users should be aware that all sub-state counts, except for housing units (which are unaffected by the DAS), may be adjusted to protect the privacy of Census participants and may be subject to reduced accuracy. Because DAS noise infusion is randomized, it is impossible for data users to know the degree to which any individual statistic is altered. However, it is possible to say that in general the relative size of errors decreases as counts increase. Consequently, data users should have greater confidence in the accuracy of the data as counts get larger. Further, an evaluation of a Privacy-Protected Microdata File (PPMF), treated with a Disclosure Avoidance System like the one applied to 2020 redistricting data, showed that counts of 300 or more rarely have sizable errors (error beyond +/- 10% of the count). Therefore, while data users need to be cognizant of data accuracy limitations, they should have confidence in conclusions based on sizable counts, which are relatively unaffected by the Census Bureau’s latest disclosure avoidance method.

3. OVERVIEW OF COMMUNITY DISTRICT

The office receives a high volume of complaints about the district's cleanliness. Specifically, the complaints concern dog waste, illegal dumping, and the cleanliness of residential and commercial areas. Enforcement of sanitation laws and a culturally sensitive public education campaign targeted to residential and commercial property owners can reduce these violations and significantly improve the quality of life for CB 7 residents. We need a coordinated effort among city agencies to step up enforcement of illegally parked/abandoned cars, illegally motorized vehicles driven recklessly on sidewalks and green spaces, noise complaints, loitering, and littering.

CB 7 residents are constantly dealing with housing and rental issues. Tenants have rights and should be afforded more services to help them address issues such as rent increases, code violations, and evictions. We see too often how our residents live in poor conditions because landlords collect rent but fail to maintain their buildings adequately. Poor living conditions can affect a household, quality of life, jobs, family well-being, and mental health. There is also a need for mixed-income housing and affordable homeownership opportunities to accommodate households in different income brackets.

Bronx Community Board 7 has seen a dramatic increase in public nuisance complaints. These complaints all involve our quality of life and safety for district residents. The district is home to many parks and parkways, making it one of the city's greenest districts. The vast amount of parkland makes it challenging to maintain the parks to the necessary level of cleanliness and safety. Additional investment is needed in both park maintenance personnel and park equipment in the district.

4. TOP THREE PRESSING ISSUES OVERALL

Bronx Community Board 7

The three most pressing issues facing this Community Board are:

Land use trends

CB 7 needs quality, mixed-income housing, as mixed-income housing remains one of the district's primary issues. While the district has some of the most affordable private market rental housing in the city, many rent-stabilized and rent-controlled apartments are disappearing due to evictions and tenant turnover. To make matters worse, the district is seeing an influx of new residents priced out of other neighborhoods, increasing competition for the affordable units available here. CB7 cannot accommodate any more supportive housing developments and shelter siting.

Schools

The quality of and lack of funding for our local schools continues to be of paramount importance for our residents. The COVID-19 pandemic proved that access to technology and remote learning is a critical component for student learning. As we experience a significant increase in the number of residents, we task the city to support educational opportunities and add seats to accommodate our present and future students. Failure to address these inequities in educational services and resources will persist and negatively impact the ability of our students to achieve academic success.

Other - Write In (Required)

Insufficient Municipal Services: We have seen a dramatic increase in our population due to new residential development. However, services such as transportation, sanitation and parks maintenance have not increased to meet new demands. CB 7 needs city agencies to deliver additional services to maintain our quality of life and accommodate our population growth.

5. SUMMARY OF COMMUNITY DISTRICT NEEDS AND BUDGET REQUESTS

HEALTHCARE AND HUMAN SERVICES

Bronx Community Board 7

Most Important Issue Related to Healthcare and Human Services

Services for low-income and vulnerable New Yorkers

Communities within the Bronx consistently rank among the highest in health disparities and among the lowest in positive health outcomes. According to the 2018 NYC Community Health profile, the rate of avoidable hospitalizations among adults in Community Board 7 is more than double the citywide rate, and the adult obesity rate is 33%, which is higher than the rest of NYC. In 2020, the COVID-19 pandemic disproportionately affected Bronxites and individuals with comorbidities such as diabetes and hypertension, who were more at risk for complications. As the city recovers from the COVID-19 pandemic, Community Board 7 requests dedicated, linguistically and culturally competent resources to educate the public about infectious diseases, the importance of healthy lifestyles, and routine medical care to keep our neighbors and residents healthy and to address long-standing health disparities.

HOUSING, ECONOMIC DEVELOPMENT AND LAND USE

Bronx Community Board 7

Most Important Issue Related to Housing, Economic Development and Land Use

Affordable housing creation

CB 7 residents are constantly dealing with housing and rental issues. Tenants have rights and should be afforded more services to help them address issues such as rent increases, code violations, and evictions. We see too often how our residents live in poor conditions because landlords collect rent but fail to maintain their buildings adequately. SBS	1 / 1	Support local CBO's efforts to provide or expand district marketing, branding, and promotion

TRANSPORTATION AND MOBILITY

Bronx Community Board 7

Most Important Issue Related to Transportation and Mobility

Subway service and quality (frequency, access, crowding, etc.)

CB 7 residents must endure some of the longest commutes in the city on crowded trains and buses. Further, many services are infrequent enough to be unreliable or unable to serve a growing population. For instance, peak express service is available only on the D train for 5 hours per day. Compare this to other similar lines, such as the 6 or 7, which provide peak express service 10-14 hours per day.

Infrequent bus service, even on core routes, means riders are waiting too long for bunched buses at inadequate bus stops. Finally, high fares and infrequent service discourage residents from using Metro-North to reach jobs in Manhattan. Additionally, provisions for services such as a shared bike program and ferry services on the Harlem River would provide additional travel options. Providing the services described above will help address public transit congestion.

The vast amount of parkland makes it challenging to maintain the parks to the necessary level of cleanliness and safety.
