INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

HOW TO USE THIS REPORT

This report represents the Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2027. This report contains the formatted but otherwise unedited content provided by the community board, collected through an online form available to community boards from June to November, 2025.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

If you have questions about this report or suggestions for changes please contact:
CDNEEDS_DL@planning.nyc.gov

This report is broadly structured as follows:

1. **Overarching Community District Needs**

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

2. **Policy Area-Specific District Needs**

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

3. **Community Board Budget Requests**

The final section includes the two types of budget requests submitted to the City for the FY24 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

Disclaimer

This report represents the Statements of Community District Needs and Community Board Budget Requests of this Community District for Fiscal Year 2027. This report contains the formatted but otherwise unedited content provided by the community board.

Budget Requests: Listed for informational purposes only. OMB remains the definitive source on budget requests and budget request responses.

Budget Priorities: Priority numbers apply to expense and capital Budget requests from all policy areas. A complete list of expense and capital budget requests by this Board sorted by priority can be found in Section 7 of this document.

Supporting Materials: Some community boards provided substantive supplemental information. This supportive material can be accessed by clicking on the links provided in the document or by copying and pasting the links provided in the Appendix into a browser.

TABLE OF CONTENTS

Introduction

How to Use This Report

1. Community Board Information

2. 2020 Census Data

3. Overview of Community District

4. Top Three Pressing Issues Overall

5. Summary of Community District Needs and Budget Requests

Health Care and Human Services

Youth, Education and Child Welfare

Public Safety and Emergency Services

Core Infrastructure, City Services and Resiliency

Housing, Economic Development and Land Use

Transportation

Parks, Cultural and Other Community Facilities

6. Additional Comments and Other Budget Requests

7. Summary of Prioritized Budget Requests

1. COMMUNITY BOARD INFORMATION

Queens Community Board 14

Population Division, New York City Department of City Planning

Statement on Data Accuracy

Under Title 13 of the U.S. Code, the Census Bureau is legally bound to protect the privacy of individuals participating in the decennial census. To adhere to the law and to avoid the disclosure of information about individual respondents, the Census Bureau has historically applied a host of techniques, such as top- and bottom-coding, imputation, table- and cell-suppression, and data swapping. The Census Bureau is employing a new technique with the 2020 Census, referred to as the Disclosure Avoidance System (DAS), based on differential privacy. With this approach, the Census Bureau “infuses noise” systematically across census data and sets a quantified disclosure risk, referred to as the Privacy Loss Budget (PLB).

While the new DAS approach may diminish the risk of disclosure concerns, it comes at a cost to data accuracy. Consequently, 2020 Census data users should be aware that all sub-state counts, except for housing units (which are unaffected by the DAS), may be adjusted to protect the privacy of Census participants and may be subject to reduced accuracy. Because DAS noise infusion is randomized, it is impossible for data users to know the degree to which any individual statistic is altered. However, it is possible to say that in general the relative size of errors decreases as counts increase. Consequently, data users should have greater confidence in the accuracy of the data as counts get larger. Further, an evaluation of a Privacy-Protected Microdata File (PPMF), treated with a Disclosure Avoidance System like the one applied to 2020 redistricting data, showed that counts of 300 or more rarely have sizable errors (error beyond +/- 10% of the count). Therefore, while data users need to be cognizant of data accuracy limitations, they should have confidence in conclusions based on sizable counts, which are relatively unaffected by the Census Bureau’s latest disclosure avoidance method.

3. OVERVIEW OF COMMUNITY DISTRICT

Community Board 14 encompasses the Rockaway Peninsula and Broad Channel. It has at least 13 distinct communities, each with its own name, neighborhoods, interests and problems bound together by a common geography and history, which is both written and hidden. From a westerly to easterly direction, we point to Breezy Point, Rockaway Point, Neponsit, Belle Harbor, Rockaway Park, Rockaway Beach, Arverne/Sommerville, Edgemere, Arverne by the Sea, Wavecrest, Far Rockaway, Bayswater and Broad Channel Island. The Rockaways is some eleven miles in length and is three quarters of a mile wide. With its multi-ethnic, multi-religious groupings, the concerns of the poor, the aged, the young and needy is often termed a microcosm of New York City. Patterns of housing are equally diverse with evidence of affluence in the western and most eastern sections of the district. And large concentrations of public housing and publicly assisted housing in between. The board has concerns regarding climate change and the rising sea levels; not to mention the fact that the peninsula is sinking, as is Manhattan. With the rising sea levels, our coastal communities surrounding Jamaica Bay, and the Atlantic Ocean need more from the city to protect our homes and businesses. We have a greater concern regarding the back bay communities along Jamaica Bay. Specifically, we are looking to have the Sea Wall in Bayswater reconstructed. With the near completion of the "Downtown Far Rockaway" Plan and other new housing projects that will start in the next year it is clear that two new schools will be needed in 11691/92 areas to meet the needs of the over 10,000 units of new affordable housing slated for this peninsula. We have already received approx. 3,000 units of that proposed housing, and this is not including the recently passed City of Yes Housing plan, which this community board vehemently opposed. The board would also like to see, specifically, more gifted and talented school created within the district. The board also strongly feels that the City of NY needs to do more to prevent drownings on our beaches. The creation of a water safety and swim program for ALL school age children would help save lives. As well as receiving funding to install an emergency PA system, the entire length of the boardwalk, the board is asking that more lifeguards and junior lifeguards be hired. We are deeply concerned that with all the new housing slated to be built; downtown Far Rockaway-(Far Rockaway Village-nearly completed), the Arverne East project, Edgemere Commons, being built on the old Peninsula hospital site, among others with over 10,000 new units- the flow of traffic will be rendered to a stand still. We currently have only two east-west roadways and currently, traffic during rush hour and summer weekends is difficult. With the anticipated housing developments and an additional 3500-5000 new cars on the road every day The Department of Transportation needs to look at the whole district to assure a better flow of traffic. With that in mind, the City must conduct a traffic study before the over 10,000 new units become occupied, The traffic study done in the EIS for these projects were cursory at best The City/HPD did finally fulfill part of its commitment made in 1997 to widen Edgemere Ave./Rockaway Beach Blvd to two lanes in each direction with turning lanes from Beach 62-Seagirt Blvd. This important roadway improvement need to be fully funded and completed, to deal with the estimated 5000 new cars on this road daily as well as it is one of two evacuation routes. The City has allowed the Development team of Arverne East to just widen 5 blocks which will create a bottle neck on the roadway. The City/OEM must work with the community to create a sensible, well marked evacuation route for all areas of the district. Finally the need for more police officers in both the 100 and 101 Pcts. is needed to provide adequate protection considering the projected 20% increase in our population in the next 3 years. Our beach season has seen a major increase every year, a larger summer police detail in both 100 and 101 Pcts. is needed as well as additional PEP officers assigned to CB14 to deal with the record breaking beach crowds every summer. We also request more summer Parks maintenance staff to deal with large summer crowds. Our district remains as having the highest unemployment rate in the borough of Queens. Much more needs to be done to create entry and mid level jobs locally. Better mass transportation service is a must. The MTA must construct more ADA accessible A train stops with the installation of elevators at 3-4 locations along the A line within the district.

4. TOP THREE PRESSING ISSUES OVERALL

Queens Community Board 14

The three most pressing issues facing this Community Board are:

Infrastructure resiliency

Flooding-It has become clear that after hurricane SANDY that protection from flooding is a major concern. The communities in our district that face Jamaica Bay are in constant jeopardy from high tides, storm surge and heavy rains. With 10,000 units of housing expected in the district,; not including the proposed City of Yes housing initiative; Bulk heads, street raising and storm sewers must be installed along Rockaways northern boarder and through out Broad Channel. Reconstructing the via ducts under Cross Bay Blvd. in Broad Channel, and the seawall in Bayswater are emergent infrastructure that need to be addressed, as continued housing is being built. Sanitary sewer extension along city owned Rockaway Point Blvd.,(B.169th-222nd St.), is also a vital infrastructure need. A seawall, berm or protective barrier along Norton Dr. is also needed. Public Health- With the closing of Peninsula Hospital, St John Episcopal Hospital/EHS has become over crowded and unable to handle the load. A typical wait in the emergency room exceeds 5 hours and a wait for a bed can be over a day this must be dealt with A tier 2 or 3 trauma center needs to be located in CB14. We also have been deeply disappointed in the NYC Dept of Health's refusal to implement a program of the spraying/fogging of adulticide to deal with summer mosquito problem, which is directly related to the ponding and flooding of most of the peninsula areas. Street Conditions- CB14 has experienced an large increase in summer tourism, as well as increased population since last years submission. This has caused traffic problems throughout the district. Our roads remain in poor condition since hurricane SANDY, and the flooding and ponding on our local streets also contribute to the pot holes and overall poor conditions. The expansion of Rockaway Beach Blvd/Edgemere Ave from Beach 62-Beach 32/Seagirt Blvd MUST be fully funded and designed as this road way remains dangerous and over used; as well as being one of two main east-west roadways that would be used for hurricane evacuation- Currently B. 32nd-B.38th, Edgemere Ave. was completed by the developers of the Arverne East project. However, funding is needed to complete the expansion of Edgemere Ave. from B.38th St. - B.62nd St. This vital roadway must be widened to two lanes in each direction with turning lanes.

Transit (buses & subways)

Getting to, from, and around the communities of Community Board 14 is a Transportation nightmare - We are poorly served by mass transportation- the ferry has helped but does not serve the residents on the East end of the district- we request a AM/PM rush hour express train on the A- 3-4 AM/PM Rockaway rush express trains to and from Manhattan would drastically reduce the over 1 hour commute. Travelling north to south presents a severe challenge on the peninsula. Trains and busses only travel east to west. Funding is needed for DOT to initiate a peninsula-wide traffic study of our East/West, North/South roadways and major intersecting streets. Clearly defined and marked evacuations routes are also needed for the peninsula. The reconstruction of the intersection of Beach Channel Drive/b.35th St/ Rockaway Freeway/& Seagirt Blvd., needs to be fully funded, so it can move on to the design phase. The reactivation of QueensLink is a necessity for the underserved communities of South East Queens. This district is home to more than 65,000 residents who face some of the steepest transportation inequities in NYC. Nearly 40% of households do not own a vehicle, and these residents endure the longest commutes in the city, averaging nearly 50 minutes each way. Vital dollars need to be invested in mass transportation, not funding a park within a park. There needs to be a mass transit parallel to Woodhaven Blvd. auto traffic, and that is QueensLink. If the city is serious about decreasing traffic, and pollution across the city, the QueensLink will help accomplish that, by moving commuters from their cars to the QueensLink, Access for the disabled at more subway stops must be constructed- additional

elevators for A line stops is also vital for our residents and visitors. Transportation improvements are crucial for this community to address longstanding challenges transportation equity and investment.

Crime and Public Safety

With proposed 10,00 units of housing slated for the peninsula, not including the City Of Yes and almost 3,000 already completed; along with the increased daily summer visitors, and tourism during the summer months, and with the influx of homeless shelters and migrants, there is a need for increased police protection, including an increase in uniformed NYPD personnel to both our local precincts-(100th & 101st), NYPD summer details, PEP officers-(increase staffing by 100%), and EMS/emergency services, FDNY personnel, and traffic agents, and crossing guards, Both precincts are in need of vehicles including marked and unmarked cars and 15-passenger van;(1 for each pct.), ATV and equipment vehicles for both precincts. There is also a need to expand funding for security street cameras, and funding to include the maintenance and monitoring of same. Improved lighting in the main shopping districts, of the peninsula, (Far Rockaway Shopping district, and Rockaway Beach Blvd; from B.73rd-B.102nd St.) is also needed. The newly proposed FDNY Station- Engine #268/Ladder #137; on the west end- (B.116th St).is set to begin construction within a month, but consideration of the old firehouse should include plans to fund it to become an EMS dispatch center/facility exclusively ; in keeping in the context of the FDNY, as the building has landmark status. FDNY is also in need of a MERV, 3 EMS fully equipped gators, 2 Zodiac rafts w/motors, 4 dry suits, and 2 ambulances.

5. SUMMARY OF COMMUNITY DISTRICT NEEDS AND BUDGET REQUESTS

HEALTHCARE AND HUMAN SERVICES

Queens Community Board 14

Most Important Issue Related to Healthcare and Human Services

Health facilities

With increase in population the need for a local Trauma center is vital as well as improved Emergency room capacity within the 1-257 bed, acute care, safety-net hospital that serves the entire CB14 district/peninsula, as well as surrounding Five Towns, LI area. Without the proposed 10,000 units of housing slated for the peninsula, we currently serve/service over 5000 beds of NH's ADHC facilities, Adult homes, and social model day programs. This community also has several senior only apartment complexes including JASA Brookdale Village, with 938 units, across a 5-building campus, Rockaway Seagirt Residence with 154 units, With so many healthcare related facilities, and senior housing complexes within the district, the need for a professional health related technical school is also a necessity.

Community District Needs Related to Healthcare and Human Services

Needs for Homeless

Any necessary services to improve the quality of life should be provided.

Needs for Health Care and Facilities

The Board would like additional funding for expansion and staffing for primary health care and emergency health care. Ideally, fully funding a tier 2 or 3 trauma center to accommodate our over crowded emergency room, is also a priority expense request. The board is also requesting that funding be allocated to to provide staff to increase oversight of adult home and transitional home services in the Rockaways.

Needs for Older NYs

Our community board has a large Senior population- over 5,000 nursing home and adult home beds. The need for more senior centers throughout the district is evident, including Sr. adult day programs, both medical and social models. The board is also requesting the need for increased funding for the oversight of the adult and transitional homes and services within the community.

Needs for Homeless

Community board 14 has over 3000 units of public housing and we have the largest amount of section 8 voucher placements in the Borough of Queens. We have over 5000 nursing and Adult home beds. DSS/DHS is in the process of converting several homeless shelters within the district, specifically on the eastern end of the peninsula; which is already overburdened with a large transient population. We request that shelters be equally distributed throughout the district and city, or that we receive funding to be able to provide the services the homeless population requires. The City has recently converted a local Hotel to a shelter , without any notification to the community . We also have the highest section 8 voucher placements in Queens the City must stop placing those in need on this peninsula, which is a Zone 1 flood district, with no specific evacuation plan for the local residents, much less that vulnerable population. These shelters bring down the property values of the local homeowners, and it destabilizes our neighborhoods

Needs for Low Income NYs

Our biggest needs in this category is primary health care and job training and economic development, to create jobs in our district. The board also recognizes the need for increased mental health and substance abuse services to serve the aforementioned populations. Our expense request is to fund the expansion of street outreach for mental health and substance abuse services.

HEALTHCARE AND HUMAN SERVICES

Note: Please see Section 7 for the full content of each request. Requests are prioritized by agency.

CAPITAL BUDGET REQUESTS

The Community Board did not submit any Budget Requests in this category.

EXPENSE BUDGET REQUESTS

Agency	Priority	Title
DOHMH	1 / 1	Other programs to address public health issues requests
HHC	1 / 1	Other expense budget request for HHC

YOUTH, EDUCATION AND CHILD WELFARE

Queens Community Board 14

Most Important Issue Related to Youth, Education and Child Welfare

School and educational facilities (Capacity)

With 10,000 units of housing coming to the district, and approx.3,000 units already in place; the need for a new JHS/HS school in zip codes 11691/92, is evident, to eliminate overcrowding in anticipation of thousands of new students, and to be in compliance with the new classroom reduction law, which went into effect September, 2023.; and is expected to be in full compliance by all NYC public schools by the end of September, 2028. There is also a need for more specialized school and curriculum due to increase in the youth population. That is why CB 14Q is requesting expense funding to initiate a study, and locate a professional health related technical school, and an aviation services school, environmental education programs for school age children within the district. As well as fund a gifted and talented program within CB #14Q.

Community District Needs Related to Youth, Education and Child Welfare

Needs for Youth Education

Modernization of schools in the District is necessary - Computers, smart boards in every classroom. college prep and job training in high schools is a must. Increased funding for Beacon and Compass programs, as well as school-based preparatory, tutoring and remediation programming for elementary and middle school students is needed. Continued funding needs to be added to increase the number of Gifted and Talented programs within CB14Q, as well. With the district so close to Kennedy Airport, and surrounded by Jamaica Bay, an aviation services school, along with environmental education programs for school aged children at Sunset Cove and Arverne East Nature Center is also needed in the district. in order to prepare the youth for possible jobs within these fields.

Needs for Youth and Child Welfare

The board recognizes the need for the funding and opening of additional Head Start Centers in this district, with the anticipation of 10,000 units of housing and required reduced classroom sizes. Last summer, violence interrupters, including the mayor's C3 team responded to 4 shootings. This year, as of September, 2025, without the initiatives, this district was up to 11 shootings, with no other interventions from Cure the Violence organizations. The board is therefore requesting increased funding to Cure the Violence initiatives within the district.

YOUTH, EDUCATION AND CHILD WELFARE

Note: Please see Section 7 for the full content of each request. Requests are prioritized by agency.

CAPITAL BUDGET REQUESTS

Agency	Priority	Title
DOE	1 / 2	Beacon Programming
DOE	2 / 2	Remediation Programming
SCA	1 / 1	Provide a new or expand an existing elementary school

EXPENSE BUDGET REQUESTS

Agency	Priority	Title
DOE	1 / 3	Gifted & Talented Programs
DOE	2 / 3	Other educational programs requests
DOE	3 / 3	Other expense budget request for DOE

PUBLIC SAFETY AND EMERGENCY SERVICES

Queens Community Board 14

Most Important Issue Related to Public Safety and Emergency Services

Emergency and disaster preparedness

Since Super Storm SANDY, this community has been asking for a clearly defined evacuation plan and procedures for the peninsula from OEM, NYCEM and DOT, so that even persons that a part of the digital divide can have access to, in the event of another major disaster. In light of 10,000 new housing units being built over the next 2-5 yrs., DOT should initiate a peninsula wide traffic study of our East-West roadways and major North-South intersecting streets. Hurricane evacuation routes need to be clearly defined by DOT for the peninsula, including but not limited to; signage, street markings, and pick up location bus stops; as well as providing busses, for our vulnerable and senior population,(over 5,000 +) and evacuees to be able to get to, etc. A plan needs to be fully funded and finalized that will provide information as to how residents will evacuate the peninsula should it become necessary. The city agencies: MTA, OEM, NYCEM and DOT, need to work in conjunction to put a plan in place and make it available ASAP!

Community District Needs Related to Public Safety and Emergency Services

Needs for Public Safety

With our population about to increase by over 20% We need more officers on Patrol and the proper equipment to assist them, in both the 100 and 101 Pcts. With even larger beach crowds , more Parks PEP officers are need as well, (100% increase). Increased funding is needed for Cure the Violence initiatives, as well as replacement and maintenance of NYPD ARGUS street cameras with in the district. Funding is being requested for marked & unmarked vehicles for NYPD, and 2-15 passenger vans;, one for each precinct. The board is in continued support of the need to purchase equipment vehicles-ATV's (NYPD & FDNY), rescue equipment-2 additional Zodiac rafts w/motors & 4 dry suits (FDNY); as well as purchase of 3 EMS fully equipped gators,.

Needs for Emergency Services

After Superstorm SANDY the need for Electric generators and emergency lighting and communication equipment is a glaring need. Also another EMS facility on the western end of the peninsula is also a necessity. The new FDNY facility-Engine #268/Ladder 137 will be breaking ground 10/28/25, and the process is moving along, These FDNY improvements are sorely needed, for them to cont. to function and serve the community effectively. FDNY is in need of a MERV

PUBLIC SAFETY AND EMERGENCY SERVICES

CORE INFRASTRUCTURE, CITY SERVICES AND RESILIENCY

Queens Community Board 14

Most Important Issue Related to Core Infrastructure, City Services and Resiliency

Protective infrastructure (sea walls, flood walls, etc.)

All our neighborhoods directly adjacent to Bay and Ocean need storm protection- on the bayside bulkhead replacement and street raising with proper drainage is a must. Check valves and tide gates on all storm water outflow locations is a must. Since Superstorm SANDY, and even prior to that event, protective infrastructure has been the top capital request of this community board. This district is an 11 mile long sandbar/peninsula, surrounded on all sides by water , (Jamaica Bay on 1 side and the Atlantic Ocean on the other.) Natural erosion has worn down the barriers and protection that keeps this community safe. SANDY, merely hastened the deterioration. Flooding is a constant threat and issue for all areas of the district. The number 1 capital request since 1990 has been the reconstruction of Cross Bay in Broad Channel. A new request for FY 2026 is for all EAST side streets in Broad Channel to be raised. CM Ariola has already allocated \$1.1 million towards this project, and it needs to be fully funded. Considering the 10.000 units of housing coming to the district, mostly on the East end, several infrastructure projects are necessary to accommodate the need for increased sewer and drainage systems. Since 1989, there has been a capital request for the reconstruction of the Sea Wall in Bayswater-(56941037900) As well as the request, (2002), for the construction of a Sea Wall, BERM, or other protective barrier along Norton Dr. from Cold Spring Rd. to Dunbar St. These projects need to be done in conjunction with each other, or within close proximity of each other, as one without the other will, and has caused bottlenecking effects of flooding in that area. Even the most regular rain events cause major flooding in the area. The need for storm and sanitary sewers is also dire, as the catch basins that are prevalent in the district, do not empty out to either the bay or ocean, and cause major flooding in the middle of the peninsula, as well. The bay and ocean meet during high tides and make many major roads impassable. All projects listed below are to mitigate flooding.

Community District Needs Related to Core Infrastructure, City Services and Resiliency

Needs for Water, Sewers, and Environmental Protection

Design storm/sanitary sewer system-construct streets in Phase 111 in conjunction w/HW 631-1981

Study .fund and construct Seawall in Bayswater Bay 32 street and Norton drive-to stop flooding from Bay -1989

fund sanitary sewer extension along city owned Rockaway Point Blvd., from B.169th St to 222nd St. -Breezy Point-1990

Fund storm & sanitary sewers; Wheatley St.& Augustina Ave., B.9th St & Central Ave., & Brunswick Ave. Virginia St., & B.12th St.-2004. Since 1990, the #1 capital request has been to reconstruct the via ducts under Cross Bay Blvd. in Broad Channel, NY.

Initiate a study and Design/fund and construct new storm & sanitary sewers for B.84th St. btw Beach Channel Dr. & Barbados Dr.-dead end ON the bay-2019. This area is split between CD #31-Eastside; & CD #32,-Westside of the street).

Fund storm/sanitary sewers B.35th, B. 36th, & B.37th St-north of Beach Channel Drive. -2021

Initiate study for drainage improvement B.30th St. btw Beach Channel Dr. & Rockaway Freeway-2011

Needs for Sanitation Services

During summer season additional commercial basket pick up is necessary in and along major shopping corridors. The board is requesting funding commercial area basket pick up 7 day/week-2001. In addition, lot cleaning also being requested.

Funding to clean & provide maintenance of Rockaway Pt. Blvd- since 2019 is another request.

Sidewalks and city owned lots are a major eyesore on the peninsula. The CB is requesting an increase in funding for clean up and maintenance of medians, streets, sidewalks, streetscapes tree beds/pits, etc. peninsula wide. For this very reason, this CB provided written testimony, 9/30/25, in support of Intros; 1147, 221 & 882 "Maintaining, Greening and Enhancing the City's Sidewalks, medians and Streetscapes-DSNY"

CORE INFRASTRUCTURE, CITY SERVICES AND RESILIENCY

Note: Please see Section 7 for the full content of each request. Requests are prioritized by agency.

DSNY	1 / 1	Other garbage collection and recycling requests

HOUSING, ECONOMIC DEVELOPMENT AND LAND USE

Queens Community Board 14

Most Important Issue Related to Housing, Economic Development and Land Use

Neighborhood preservation

The community board's district is the site of over 10,000 mid and high rise new affordable units to be built over next 3-5 years. The district is currently number 11 CITYWIDE for construction of affordable/rental housing, (2014-2024). The district and peninsula, from an infrastructure perspective, can not handle any more large scale development- mid and high density housing must be stopped. For this reason CB #14Q has already instituted a moratorium on approving projects requesting any up zoning within the district. The city must put a moratorium all new mid and high rise projects for this community, from this point on. Anything else being built in the district must consist of 1-2 family affordable home ownership only, and come with infrastructure improvements and upgrades as well. .

Community District Needs Related to Housing, Economic Development and Land Use

Needs for Land Use

Our community is becoming over developed and over crowded . Traffic is becoming a major issue and the lack of proper infrastructure to handle the increase in population is becoming a burden. The improvement and widening of Rockaway Beach Blvd/Edgemere Ave. is vital to public safety. Only low scale housing should be approved for our district

Needs for Housing

CB14 has had an explosion in population over the last 10 years because of a housing boom. We request that the unit count in Arverne East be drastically reduced and that a more economic development/jobs /Recreation based project be supported. . While the board has supported thousand of new affordable housing units in the last few years, the creation of new market rate and ownership units should be a priority now.

Needs for Economic Development

Government must help fund and develop the Greater Far Rockaway Shopping Area, and assist our merchants on Rockaway Beach Blvd. in Rockaway Beach, and on Beach 116 St. and along Rockaway Beach Blvd from Beach 112th St. to Beach 116th St.. Housing being developed with commercial space, should have viable tenants prior to building, and NYC must assist in getting mid box stores to lease the overwhelming, empty commercial spaces that are evident in the new constructions already built. Taking into consideration that retail has not bounced back from the pandemic, that the need for commercial space is diminishing.

HOUSING, ECONOMIC DEVELOPMENT AND LAND USE

Note: Please see Section 7 for the full content of each request. Requests are prioritized by agency.

Agency	Priority	Title
NYCHA	1 / 1	Renovate or upgrade NYCHA community facilities or open space

EXPENSE BUDGET REQUESTS

Agency	Priority	Title
EDC	1 / 1	Economic Development
HPD	1 / 1	Building Demolition
NYCHA	1 / 1	DOB inspectors

TRANSPORTATION AND MOBILITY

Queens Community Board 14

Most Important Issue Related to Transportation and Mobility

Accessibility (ADA related compliance and infrastructure enhancements)

The MTA and city government- must fund more ADA accessible subway stops. The A-line at 31 miles in length, is the longest subway line within the NYC subway system. Currently along the A line stretch that services this district, we have only 3 location that are ADA accessible- (Mott. Ave., B.67th St., and B.116th St. stations). Beach 36th St. & Beach 40th St. stops should be a priority to have ADA accessibility, in order to better serve that area, due to two new slated major housing developments. From an infrastructure perspective, the streets are crumbling. Flooding from weather events, and natural tide movements, are evident in the streets from the east end to the west end. including Broad Channel.

Expense funding is being requested to augment personnel in DOT for paving, pothole repair, signal, and signage installation within the district.

Community District Needs Related to Transportation and Mobility

Needs for Traffic and Transportation Infrastructure

The expansion of Rockaway Beach Blvd/Edgemere Ave from Beach 62nd St.-Beach 32nd St./Seagirt Blvd MUST be designed and funded. This roadway remains dangerous and over used and is one of two main east-west roadways that will be used for hurricane evacuation. Currently B.32nd St.-B.38th St. is in the final stages of completion by the developers. We need the funding to complete the expansion of Edgemere Ave. from B.38th St. - B.62nd St. This vital roadway must be widened to two lanes in each direction with turning lanes.

The reconstruction of the intersection of Beach Channel Drive/B.35th St./Rockaway Freeway/Seagirt Blvd. has been partially funded by Queen Borough President, but requires additional funding to get the project started. This is an accident prone intersection, due to the confusion and intersecting of several main throughfares.

Since 2006, another expense request has been to fund and reconstruct Shore front Parkway, which was more severely damaged during Superstorm Sandy.

Replacement of sidewalks along south side of Rockaway Point. Blvd. from B.169th-193rd St. It is in disrepair and a safety hazard for pedestrians.-2019

Rockaway Beach Blvd. from B.62nd-B.38th needs to be studied and a design provided to be extended for improved safety.-1995

Initiate a feasibility study to widen Rockaway Beach Blvd. from B.110th to B.120th. St.-2008

There is an expense request since 2011- to fund installation of safety fencing along the median on Seagirt Blvd. from B.31st St to Camp Rd.

2025-B.94th/B.95th St Parking lot requires funding to construct 4 ADA compliant curb cuts; as that lot is where beach goers park for access to the beach or use of the 94th St. amphitheater.

Needs for Transit Services

We are poorly served by mass transportation. Requests include; Improved commuter service on A train and on buses, institute a AM/PM rush hour express A train, Permanently Fund Ferry service so that it runs on a regular schedule 7 days a week 52 weeks a year. The QM #17 only runs during rush

hour M-F. The district needs that line to run weekends and mid-day, as well, even though a stop was added as part of the bus redesign. Also the express bus, QM#16 to Howard Beach on their return trip should run weekend express service as it does for Howard Beach, and include evenings/nights. Upon its termination in Howard Beach, it should carry passengers to B.45th, as it has to terminate there at the depot. At that point passengers can be discharged there. That bus currently runs later hours in Howard Beach, and could provide increased service to the Rockaway riders that work odd hours. The services are not equally distributed throughout the peninsula, and does a disservice to the Rockaway community. Late night and weekend bus services on those 2 lines should be provided for the entire peninsula, as we remain a transportation desert.

Increased ferry services should also be funded year round, as well.

TRANSPORTATION AND MOBILITY

Note: Please see Section 7 for the full content of each request. Requests are prioritized by agency.

CAPITAL BUDGET REQUESTS

Agency	Priority	Title

DOT	3 / 5	Peninsula wide Traffic Study
DOT	4 / 5	Other expense budget request for DOT
DOT	5 / 5	Other traffic improvement requests

PARKS, CULTURAL AND OTHER COMMUNITY FACILITIES

Queens Community Board 14

Most Important Issue Related to Parks, Cultural and Other Community Facilities

Community board resources (offices, staff, and equipment)

The Mayor and City council must restore the Community boards budget. Community board budgets should be held harmless in city wide budget cuts as a matter of Policy much like the Independent Budget Office. The City budget should also provide additional funding for new Phone and computer needs as well as any technological needs that the boards may need in addition to the regular budget. The board needs a new telephone system ours is 20 years old and at times does not work and cannot be repaired. Our computer systems also need to be upgraded so that our access to citywide sites is seamless and expedient. Many of the required sites, especially the trainings are not easily accessible through our home like computer systems.

Community District Needs Related to Parks, Cultural and Other Community Facilities

Needs for Parks

Our community hosts over 8 million visitors every year during the summer beach season- we require more PEP officers (100% increase), more permanent civil service & seasonal employees for Parks-incl. carpenters, seasonal mechanics and workers for the beach season, for better maintenance support during summer, and off season (50% increase) . The parks also require the purchase/replacement of outdated equipment incl. purchase of 1 scissor lift, 3-4 wheel drive gators & 3 gas powered backpack blowers and 2- dingo machines. - to position MOBI mats at all beach entrances. . The board also recognizes that this district has natural resources that need to be developed to increase tourism to the area. Our waterfront property can be a huge economic engine if funded and studied appropriately, much like other waterfront communities. This includes funding and initiating studies to turn natural resources and areas such as Vernam Barbados Park as a recreational boat ramp and picnic area-(1998 request).

Funding a Rockaway conceptual Park plan which includes new recreational opportunities and amenities in all parks throughout the district, as well as the creation of new playgrounds and active recreational locations; to include boat, kayak, and paddle board ramps/ launching areas, is imperative. Also additional retail uses in certain areas should be studied and funded Here are some of the community district needs.

1997- fund designing a park and boat ramp adjacent to landfill pier-Rockaway park Community Park

2024- design and construct a community park in Neponsit @ former site of the Neponsit Home for the Aged.-149-25 Rockaway Beach Blvd.

2024-reconstruct/upgrade of the B.59th St. Playground comfort stations

2019- purchase & install Mobi mats at all beachside ramp entrances

2016- construct 2 new comfort stations btw B.35th & B.50th St.

2021-Design & construct park house @ B.88th St & Beach Channel Dr.

1990- construct shade structures at all district playgrounds/parks & along Boardwalk(B.17th - B.108th St.)

2021-construct community park/playground on Parks Dept. property B.62nd St & Thursby Ave.

2001- funding to construct playground-Phase 11 @ Lannet Playground

1992-initiate study to reconstruct Hammels playground-(Rockaway beach Blvd. location)

2021-request funding to construct parking at the dog run

2012-construct shade structures at all district playground/parks, and along the boardwalk from B.17th St - B.108th St.

2014 The board is requesting a design and construction of a PERMENANT ferry pier with concessions, bathrooms, boat slips, and parking.

1995- initiate a study for a boat ramp and public dock or pier on Jamaica Bay, on the Rockaway side

2012-fund design & construct a comfort station at Bay Breeze Park

There are new capital requests for upgrades and improvements to several park and playgrounds within the district. The board is requesting capital funding for restroom renovations at B.17th St. park, B.86th St., & B.97th St. Upgrades and improvements are needed for B.9th, B. 30th St., & B. 82nd St. parks & playgrounds.

Needs for Cultural Services

The board is requesting additional funding for programming in our Libraries and the Arts. Additional funding is needed to fund water safety/swim programs for all school age children within CB 14 district.

Needs for Library Services

increase local funding for our libraries ,provide more programs services for our youth within the libraries here in the district.

Needs for Community Boards

Community board budgets should be held harmless in city wide budget cuts as a matter of Policy much like the Independent Budget Office. The City budget should also provide additional funding for new Phone and computer needs as well as any technological needs that the boards may need in addition to the regular budget The board needs a new telephone system ours is 20 years old and at times does not work and cannot be repaired. The computer system should be on par with the other city agencies, instead of having to go through the BP office set up to get to city agencies that we interface with on a daily basis.

PARKS, CULTURAL AND OTHER COMMUNITY FACILITIES

6. ADDITIONAL COMMENTS AND OTHER BUDGET REQUESTS

Our community is being over built specifically in the 11691 and 11692 zip codes. The city has approved or recent zoning changes opposed by the community board allow for too much new high density housing on the East end of our district. Lack of investments in the core infrastructure of the sand bar is a severe misstep in an effort and rush to build housing in a Zone 1 flood plain. Lack of open space, play grounds, school seats and parking are also major negative impacts that the City has not mitigated. The safe flow of traffic will be severely impacted as well. The City is placing thousands of so called affordable units on the peninsula with no real effort to spur economic development to create jobs for our new neighbors. Housing developments are not full to capacity, as AMI's are not accurately reflecting the median incomes of the community that is being developed. The retail portion of those same developments remain empty, creating a ghost town effect throughout the communities. With over 20,000 new residents expected in the next 3 years, our local hospital will not be able to handle the burden nor is our public transportation adequate to deal with the drastic increase. The City, in its rush to create more affordable housing has not agreed to conduct a new Environmental Impact study for Arverne East. It appears that City hall has forgone good planning measures for the expediency of creating thousands of units of housing. The City of Yes housing initiative will be placing more density on the already overburdened eastern end of the peninsula, We are hopeful in the future that measures will be taken to correct these errors in judgement or the residents in these areas will suffer .

Note: Please see Section 7 for the full content of each request. Requests are prioritized by agency.

CAPITAL BUDGET REQUESTS

Agency	Priority	Title
DOT	6 / 7	Sidewalk replacements
DOT	7 / 7	Reconstruct medians

EXPENSE BUDGET REQUESTS

The Community Board did not submit any Budget Requests in this category.

7. SUMMARY OF PRIORITIZED BUDGET REQUESTS

CAPITAL BUDGET REQUESTS

1 of 6	Develop a capital project for specific street segments currently lacking sanitary sewers	DEP
Develop a capital project for specific street segments currently lacking sanitary sewers		

Sanitary sewers are needed- none are in place Rockaway Point blvd from beach 169 st-222 street ,Breezy Point

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

2 of 6	Other capital budget request for DEP	DEP
Other capital budget request for DEP		

Design and fund seawall, berm or a protective barrier along Norton Drive and bay 32 streets, from Cold Spring Road-Dunbar to protect community from flooding

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

3 of 6	Broad Channel Street Raising Project	DEP
Move a planned capital project into the budget for the next fiscal year		

Broad Channel is a low lying area in the district and requires all East side streets to be raised to mitigate continued flooding that occurs in the area. Council Member J. Ariola has allocated \$1.1 million towards this project already. Recently, street raising on the west side of Broad Channel were recently completed.

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

4 of 6	Other capital budget request for DEP	DEP
Other capital budget request for DEP		

Jamaica Bay water/high tides back up into our communities occurs with most new moons and high tides, water comes out of storm sewers into our local streets causing massive flooding- check valve and /or tide gates must be installed on all storm water outfalls

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

5 of 6	Move a planned capital project into the budget for the next fiscal year	DEP
Move a planned capital project into the budget for the next fiscal year		

HW631- design, fund last phases of this much needed project- this is last phase community has been waiting 20 years flooding is a monthly event

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

6 of 6	Move a planned capital project into the budget for the next fiscal year	DEP
Move a planned capital project into the budget for the next fiscal year		

Study, fund design and capital project for accident prone area due to flooding on Crossbay blvd ,north of 1st road just south of Joseph Addabbo bridge

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

1 of 2 Beacon Programming Other capital budget request for DOE Increase funding for Beacon and Compass programs in Community Board 14.	DOE <i>Agency Response: Agency does not support and cannot accommodate. CONTACT DOE.</i>
2 of 2 Remediation Programming Other capital budget request for DOE Increase funding for school-based preparatory, tutoring & remediation programming for elementary & middle school students on the Rockaway districts.	DOE <i>Agency Response: Agency does not support and cannot accommodate. CONTACT DOE.</i>
1 of 7 Reconstruct streets Reconstruct streets Re construct Cross bay blvd -continue to raise streets in Broad channel install storm sewers with tide gate	DOT <i>Agency Response: Agency supports and can accommodate. DOT will try to accommodate this request with existing resources and capital work as they become available.</i>
2 of 7 Repair or build new seawalls or bulkheads Repair or build new seawalls or bulkheads repair/replace bulkheads/seawalls at all street ends in CB14 Rockaway and Broad channel WITH PRIORTY TO Seawall in Bayswater - 56941037900	DOT <i>Agency Response: Agency supports and can accommodate. DOT continues to work in concert with NYC EDC on waterfront resiliency projects, including several upcoming in CB 14.</i>
3 of 7 Reconstruction of B.35th Intersection Improve traffic and pedestrian safety, including traffic calming Location: Beach Channel Dr. & Seagirt Blvd. The intersections of Beach Channel Dr./B.35th St./Rockaway freeway/Seagirt Blvd. ; all merge and cause accidents, pedestrian difficulties, and traffic flow issues. The entire area needs to be reconstructed. The QBP has already allocated approx. \$500,000 towards this project.	DOT <i>Agency Response: Agency supports and can accommodate. DOT will continue to address issues using existing resources as well as upcoming capital work.</i>
4 of 7 Roadway maintenance (resurfacing, trench restoration, etc.) Roadway maintenance (resurfacing, trench restoration, etc.) Location: Shorefront Parkway - beach 73 st & beach 73 st fund design and re- construction of Shorefront Parkway, include storm sewers, have crosswalks line up, have driveways for Dayton buildings line up with traffic lights and cross access to east bound road way-HWQ-1682	DOT <i>Agency Response: Agency does not support and cannot accommodate. Shore Front Parkway does not require a capital reconstruction at this time. DOT will continue to address issues using existing resources. Previous in-house safety improvement projects have addressed some of the misalignment of the medians and provided safe crossings for pedestrians.</i>

5 of 7 Other transportation infrastructure requests**DOT**

Other transportation infrastructure requests

Install safety fence along median on Seagirt Blvd. from Beach 31 Street to Camp Road

Agency Response: Agency does not support and cannot accommodate. Agency does not support and cannot accommodate; please remove request.

6 of 7 Sidewalk replacements**DOT**

Other capital request for DOT

Replace sidewalks along southside of Rockaway Point Blvd. from B.169th St -193rd St. they are in severe disrepair and a safety hazard for pedestrians

Agency Response: Agency does not support and cannot accommodate. Sidewalks are the responsibility of the adjacent property owner as per NYC Admin Code.

7 of 7 Reconstruct medians**DOT**

Other capital request for DOT

Beach Channel Dr. is the gateway to CB 14; reconstruct/improve medians on BCD, from B.98th to B.109th St. (Rockaway Freeway) with environmentally friendly planting beds, trees and shrubs.

Agency Response: Agency supports and can accommodate. DOT will try to accommodate this request with existing resources and capital work as they become available.

1 of 19 Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)**DPR**

Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)

Location: Broad Channel
Fund phase 3 of American ball fields to include community center in Broad Channel

Agency Response: Agency does not support and cannot accommodate. The location for a potential center has been funded for a skatepark.

2 of 19 Other requests for park, building, or access improvements**DPR**

Other requests for park, building, or access improvements

Construct shade structures at ALL district Playgrounds/parks and along the boardwalk from Beach 17th Street to B 108 Street

Agency Response: Agency supports but cannot accommodate. There is no capital funding for this request.

3 of 19 Provide a new or expanded park or amenity (i.e. playground, outdoor athletic field)**DPR**

Provide a new or expanded park or amenity (i.e. playground, outdoor athletic field)

Install boat ramp at Rockaway Community park inside old landfill provide parking and lighting and bathroom facilities

Agency Response: Agency does not support and cannot accommodate. There is no capital funding for this project. This request would require a feasibility study.

4 of 19 Other requests for park, building, or access improvements**DPR**

Other requests for park, building, or access improvements

install emergency PA system - full length of Boardwalk.

*Agency Response: Agency supports but cannot accommodate. There is no capital funding for this request. This might not be capitally eligible.***5 of 19 Parks & Playgrounds Upgrades****DPR**

Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)

CB 14 Q is requesting funding to complete and fully fund the restroom restoration/construction of the B.17th St. Park. It was partially funded, (\$3 million), by CM Brooks-Powers. There is still an outstanding amount needed for the project to be fully funded. Currently the restrooms are in disrepair and the renovation/construction is needed ASAP!

*Agency Response: Agency supports but cannot accommodate. Parks appreciates the support but does not have enough capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.***6 of 19 Other requests for park, building, or access improvements****DPR**

Other requests for park, building, or access improvements

Replace equipment which has exceeded life span(Parks Dept.) including the purchase of 2-4-wheel drive gators & 3 gas powered backpack blowers

*Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.***7 of 19 Provide a new, or new expansion to, a building in a park****DPR**

Provide a new, or new expansion to, a building in a park

fund, design, construct Park house at Beach 88 street/Bayview Park

*Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.***8 of 19 Other park maintenance and safety requests****DPR**

Other park maintenance and safety requests

Design and construct Park House & park/playground at Beach 62 Street and Thursby Ave.

*Agency Response: Agency supports and can accommodate. There is capital funding to construct a park at Thursby.***9 of 19 Provide a new, or new expansion to, a building in a park****DPR**

Provide a new, or new expansion to, a building in a park

Location: Boardwalk - Beach 35 st & Beach 35 st
Build two new comfort/concession stations along boardwalk between Beach 35 and Beach 50 streets

Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.

10 of 19 Mobi Mats**DPR**

Improve access to a park or amenity (i.e. playground, outdoor athletic field)

Purchase and install Mobi mats at all beachside ramp entrances in Rockaway.

Agency Response: Agency does not support and cannot accommodate. This is not capitally eligible and would be extremely challenging to maintain.

11 of 19 Provide more environmental education programming (i.e. Urban Park Rangers)**DPR**

Other capital budget request for DPR

Fund Environmental education programs for all children in CB14 at Sunset Park in Broad channel and at Arverne East Nature Center

Agency Response: Agency supports but cannot accommodate. This is not a capital request- this is an expense request.

12 of 19 Neponsit Community Park**DPR**

Provide a new or expanded park or amenity (i.e. playground, outdoor athletic field)

Design & construct a new park at the former site of the Neponsit Children's Hospital/Neponsit Home for the Aged. The land is deeded Park land and has been cleared of all former building structures. Funding for this park has been allocated by the local Councilmember's office in the amount of \$850,000

Agency Response: Agency supports but cannot accommodate. This property has not been transferred from Health and Hospital to Parks jurisdiction.

13 of 19 Beach 59th St. Playground**DPR**

Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)

The comfort stations at the Beach 59th St. Playground are in need of reconstruction/upgrades. The board is asking that the dilapidated conditions of the men's and women's restrooms as well as the insufficient storage and maintenance space be remedied to modern standards with proper heating and air conditioning for visitors and park staff. As you may be aware, these comfort station upgrades were not a part of the recently completed reconstruction of the Playground unveiled in 2023. There is no heat/ac/.The playground is located at 6006 Beach Front Rd. Arverne, NY 11692

Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.

14 of 19 Parks & Playgrounds Upgrades**DPR**

Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)

Funding is requested for upgrades and improvements to Beach 9th St. Playground

Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.

15 of 19 Parks & Playgrounds Upgrades**DPR**

Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)

Funding requested for upgrades and improvements to Beach 30th Street Playground

Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.

16 of 19	Parks & Playgrounds Upgrades Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)	DPR
Funding is being requested for upgrades and improvements to Beach 82nd St. Playground; AKA Rockaway Playground N		<i>Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.</i>
17 of 19	Parks & Playgrounds Upgrades Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)	DPR
Funding requested for renovate/restrooms at the B.86th St. -Rockaway beach Park		<i>Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.</i>
18 of 19	Parks & Playgrounds Upgrades Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)	DPR
Funding request to renovate the restrooms at B.97th St concessions		<i>Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.</i>
19 of 19	Other expense budget request for DPR Other capital budget request for DPR	DPR
Initiate a study for a boat ramp and public dock or pier on Jamaica bay in Rockaway		<i>Agency Response: Agency supports but cannot accommodate. There is no capital funding allocated for this project. The board can reach out to its elected officials for a capital funding request.</i>
1 of 1	Cleaning and Maint. of Rockaway Point Blvd. Other capital budget request for DSNY	DSNY
Fund cleaning & maintenance of Rockaway Point Blvd.- southside/Eastbound from B.169thth-193rd Streets; & Northside/westbound from B.184th to B.201st Streets.		<i>Agency Response: Agency supports but cannot accommodate. The agency supports this request, but funding is not available at this time.</i>
1 of 1	MERV purchase Provide new emergency vehicles, such as fire trucks or ambulances	FDNY
FDNY has identified the need for a Major Medical Emergency Response Vehicle; which is used to triage and treat patients in a controlled closed environment		<i>Agency Response: Agency supports but cannot accommodate. FDNY will seek to accommodate within existing resources, although this will depend on availability of funding and overall agency prioritization. The Community Board should continue work with their relevant elected officials to allocate Council/BP funding at Budget Adoption.</i>

1 of 1 Renovate or upgrade NYCHA community facilities or open space**NYCHA**

Renovate or upgrade NYCHA community facilities or open space

Fund mold remediation in NYCHA developments in CB 14

Agency Response: Agency supports and can accommodate. NYCHA will continue to use existing funding resources to address mold remediation in the district

1 of 5 Vehicles**NYPD**

Other NYPD facilities and equipment requests

This board is requesting funding to purchase 1-15 passenger van for the 101st Pct. Current vehicle is outdated and inefficient for the needs of the precinct and community, for transportation purposes.

Agency Response: Agency supports but cannot accommodate. The NYPD is working with the Mayor's Office of Management and Budget in order to secure additional funds to maintain lifecycle replacement of its current fleet. Supplemental funding would be needed if there was a desire to increase this count even further.

2 of 5 Vehicles**NYPD**

Other NYPD facilities and equipment requests

This board is requesting funding to purchase 1-15 passenger van for the 100th Pct. Current vehicle is outdated and inefficient for the needs of the precinct and community, for transportation purposes.

Agency Response: Agency supports but cannot accommodate. The NYPD is working with the Mayor's Office of Management and Budget in order to secure additional funds to maintain lifecycle replacement of its current fleet. Supplemental funding would be needed if there was a desire to increase this count even further.

3 of 5 NYPD Summer Staffing**NYPD**

Other NYPD facilities and equipment requests

Assign additional uniformed personnel to 100th & 101st pcts. , and increase number of uniformed personnel for the summer season beach detail. Purchase ATV vehicles for both pcts. Purchase 3 EMS fully equipped gators.

Agency Response: Agency supports but cannot accommodate. NYPD total staffing levels depend on decisions made in the Preliminary and Executive budget process. Allocation of uniformed personnel is scheduled by the NYPD only after graduation of Police classes from the Academy. Availability of civilian personnel is limited due to reductions to the civilian headcount.

4 of 5 Vehicles**NYPD**

Other NYPD facilities and equipment requests

Funding request for the purchase of marked and unmarked vehicles for the borough

Agency Response: Agency supports but cannot accommodate. The NYPD is working with the Mayor's Office of Management and Budget in order to secure additional funds to maintain lifecycle replacement of its current fleet. Supplemental funding would be needed if there was a desire to increase this count even further.

5 of 5 Cure the Violence**NYPD**

Provide surveillance (Argus) cameras

Increase funding to Cure the Violence initiative in CB 14: allocate resources to ensure the installation, replacement and maintenance of NYPD Argus street cameras.

Agency Response: Agency supports but cannot accommodate. Argus cameras are funded via allocations from elected officials for use within their districts. Specific location recommendations should be provided to the local precinct commander for submission to the Information Technology Bureau once funding is allocated. The NYPD will attempt to accommodate specific location requests whenever funding is provided, but reserves the right to place cameras as appropriate due to current crime trends and operational needs.

1 of 1 Provide a new or expand an existing elementary school**SCA**

Provide a new or expand an existing elementary school

Build a NEW magnet JHS/HS in zip codes 11691/11692 to to eliminate over crowding- in anticipation of thousands of new students due to construction of 10,000 new affordable units being built the need for new seats is necessary

Agency Response: Agency supports but cannot accommodate. The agency does not/cannot give priority to funding this request.

CS Storm/sanitary sewers HW631**DEP**

Move a planned capital project into the budget for the next fiscal year

Location: Beach Channel Drive - B.35th & B.36th, B.37th
Initiate study & provide funding for storm and sanitary sewers on B.35th, 36th, & B.37th streets North of Beach Channel Drive.

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

4 of 4 Drainage improvement Study**DEP**

Inspect sanitary sewer on specific street segment and repair or replace as needed

Location: B.30th St. - Beach Channel Dr. & Rockaway Freeway
Initiate a study for drainage improvement for B.30th St. between Beach Channel Drive and Rockaway freeway.

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

1 of 3 Gifted & Talented Programs**DOE**

Other educational programs requests

Fund Gifted & Talented programs within Community Board 14Q

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

2 of 3 Other educational programs requests**DOE**

Other educational programs requests

With planned increase in population City must open additional Head Start centers in CB14 to be located in 11691/11692

Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.

3 of 3 Other expense budget request for DOE Other expense budget request for DOE	DOE
Initiate a study to locate a Professional health related technical school and an aviation service school in CB14	<i>Agency Response: Agency does not support and cannot accommodate. PLEASE CONTACT THE AGENCY DIRECTLY AND PROMPTLY FOR MORE INFORMATION.</i>
1 of 1 Other programs to address public health issues requests Other programs to address public health issues requests	DOHMH
Expand street outreach for mental health and substance abuse services and increase oversight of adult home and transitional home services in CB14	<i>Agency Response: This request has already been completed. DOHMH looks forward to discussing further ways we can partner with communities to address mental health concerns</i>
1 of 5 Conduct traffic or parking studies Conduct traffic or parking studies	DOT
Study and Design widening of Rockaway Beach Blvd./Edgemere Ave from Beach 62nd-38th streets to two lanes in each direction with turning lanes, adjacent to Arverne East project	<i>Agency Response: Agency does not support but can address the need alternatively. DOT will try to accommodate this request with existing resources as they become available. The number of feasible lanes will be determined based on mapped right-of-way as well as a traffic analysis.</i>
2 of 5 NYC Ferry-Rockaway Line Expand the frequency or hours of Staten Island Ferry	DOT
Location: Beach 108 st - Beach Channel dr & Beach Channel dr Fund, design & construct-permanent ferry pier with concessions, bathrooms, boat slips, and parking. Also add funding to increase weekend hours for ferry usage and staffing during summer season.	<i>Agency Response: Agency does not support and cannot accommodate. The Rockaway Ferry system is operated privately and managed by NYC EDC.</i>
3 of 5 Peninsula wide Traffic Study Conduct traffic or parking studies	DOT
In light of 10,000 new housing units being built over the next 2-5 years, DOT should initiate a peninsula wide traffic study of our East-West roadways and major North-South intersecting streets. Hurricane evacuation routes must also be studied and clearly defined by DOT peninsula wide.	<i>Agency Response: Agency supports and can accommodate. DOT will try to accommodate this request with existing resources as they become available. DOT previously conducted a comprehensive study for this issue in 2016: https://www.nyc.gov/html/dot/html/about/eastern rockaways.shtml</i>
4 of 5 Other expense budget request for DOT Other expense budget request for DOT	DOT
Augment personnel in DOT for paving, pothole repair, signal, signage installation and repair	<i>Agency Response: Agency supports but cannot accommodate. DOT will continue to address issues using existing resources.</i>

5 of 5 Other traffic improvement requests**DOT**

Other traffic improvement requests

Initiate study to widen Rockaway Beach blvd from Beach 110 street- Beach 120 street traffic has increased drastically and this area is a bottle neck

Agency Response: Agency does not support and cannot accommodate. Agency does not support and cannot accommodate; please remove request.

1 of 8 Accessibility**DPR**

Other expense budget request for DPR

Funding is being requested to install 4 ADA compliant curb cuts at the B.94th/95th St. parking lot. This lot is used for beach goers and for those accessing the amphitheater located on B. 94th St.

Agency Response: Agency supports but cannot accommodate. There is no funding allocated for this project. The board can ask its elected officials for a capital funding request.

2 of 8 Other park maintenance and safety requests**DPR**

Other park maintenance and safety requests

Hire more Life guards so more beach can be open/fund a junior life guard program

Agency Response: Agency supports but cannot accommodate. We are working to hire more lifeguards. Programming depends on funding. We are not sure of funding at this time.

3 of 8 Park Equipment**DPR**

Other expense budget request for DPR

Funding is requested for the purchase of 1-Scissor Lift,(to give access to flag poles), 3-Gators, and 2-Dingo machines,(to position MOBI Mats).

Agency Response: Agency supports but cannot accommodate. We have insufficient funding for this request. We recommend this request be brought to your elected officials.

4 of 8 Other expense budget request for DPR**DPR**

Other expense budget request for DPR

Funding design and construction of community park/playground on Parks dept. property; B.62nd St. & Thursby Ave. to incl.; water access for boats, paddle boards and Kayak, also additional retail opportunities

Agency Response: Agency supports and can accommodate. There is capital funding for this project.

5 of 8 Hammels Playground**DPR**

Other expense budget request for DPR

Initiate study to reconstruct Hammels Playground-(Rockaway Beach Blvd.) site.

Agency Response: Agency supports but cannot accommodate. There is currently no capital funding available for this request. Please continue to advocate for capital funding for this site.

6 of 8	Provide more athletic programming (i.e. league, aquatic) Provide more athletic programming (i.e. league, aquatic)	DPR
Fund water safety program for all school age children in CB14		<i>Agency Response: Agency supports but cannot accommodate. Availability of funds is uncertain at this time.</i>
7 of 8	Other expense budget request for DPR Other expense budget request for DPR	DPR
Initiate study of Vernam Barbados Park, as a recreational area; to include a boat ramp, and picnic area.		<i>Agency Response: Agency supports but cannot accommodate. There is no funding allocated for this project.</i>
8 of 8	Parks Staffing Other park maintenance and safety requests	DPR
Seasonal Staffing; Increase PEP officers by 100% ; and increase other Parks maintenance staff for the beach and playgrounds by an additional 50%- incl; carpenters, seasonal mechanics, gardeners, & helpers for the beach season. Increase by 50%		<i>Agency Response: Agency supports but cannot accommodate. We cannot determine funding at this time.</i>
1 of 1	Other garbage collection and recycling requests Other garbage collection and recycling requests	DSNY
Fund Commercial area Basket pick up seven days a week		<i>Agency Response: Agency supports but cannot accommodate. The agency supports this request, but funding is not available at this time.</i>
1 of 1	Economic Development Other expense budget request for EDC	EDC
Fund a comprehensive Economic Development/feasibility study for a recreational plan for Jamaica Bay; to include a boat ramp, public dock or pier on -The Rockaway portion of the bay within CB 14 District .NYC Parks and NYC EDC		<i>Agency Response: The agency does not understand the request as written and requires more clarification. More information is requested from the Community Board. It is unclear what kind of capital funding is being requested to support this economic development/recreational plan.</i>
1 of 1	Other expense budget request for HHC Other expense budget request for HHC	HHC
Study, locate and fund Tier 2 or 3 Trauma center in CB14. With 30% increase in population scheduled to occur in next 2-3 years,(10,000 units). and nearest Trauma Center, Jamaica Hospital, is appx 10-16 miles away, depending on where you live on the peninsula. The reconstruction of the Van Wyck also adds additional time to reach the center. Therefore, a local facility is vital. The Councilwoman/Majority Whip, has secured some funding in the previous budget. Continued funding is needed.		<i>Agency Response: Agency supports but cannot accommodate. The report published by the Far Rockaway Trauma Healthcare Access Task Force (https://rockawaytraumacare.nyc/trauma-center-report-24) recognizes the need for additional studies such as siting and the range of services provided, as well as the need for additional funding beyond what has been allocated, and a sustainable revenue stream for continued operations. These challenges still need to be resolved.</i>

1 of 1 Building Demolition**HPD**

Other housing oversight and emergency housing programs

Increase funding to unsafe building demolition & Seal up Program

Agency Response: Agency supports and can accommodate. This is a priority for the administration and HPD and we will continue to work with key stakeholders to ensure poor housing conditions in NYC are properly enforced.

1 of 1 DOB inspectors**NYCHA**

Other housing support requests

Fund & hire additional DOB inspectors & assign 1 to each community board district

Agency Response: Agency does not support and cannot accommodate. this request should be addressed by DOB

1 of 1 emergency vehicles**NYPD**

Provide additional patrol cars and other vehicles

Purchase equipment vehicles (NYPD)-rescue equipment specifically 2 additional Zodiac rafts with motors, & 4 dry suits (FDNY)

Agency Response: Agency supports but cannot accommodate. The NYPD is working with the Mayor's Office of Management and Budget in order to secure additional funds to maintain lifecycle replacement of its current fleet. Supplemental funding would be needed if there was a desire to increase this count even further.
